

five, or perhaps three hundred bales. The whole of this cotton was planted and cultivated by the said twelve hands, and the only help they had was in the picking. To prevent any misunderstanding of this statement we are authorized to say that the bales are of the average weight of those usually made in Texas, that is about 500 lbs. each.

In addition to the above we have authority to say that the same twelve hands have raised and gathered during the season 2,300 bushels of corn from thirty acres of land, which is considerably below the yield of corn last year, on the same plantation. It may be of some interest here to state that the above crops of cotton and corn were both planted in February, which Col. Quarles thinks is the month in which both cotton and corn should always be planted in Texas. The picking of the cotton was commenced on the 4th of July last.

If, after paying for the extra labor required to pick the above crop, there shall remain 275 bales, which is the smallest named; then the net proceeds of the twelve hands will be within a small fraction of 23 bales each, to which we must add 191 bushels of corn, to make the total product of each hand's labor; and this, at the present prices of cotton and corn, cannot fall much, if any, short of one thousand dollar to the hand.

Should our readers wish confirmation of the above statement, we are authorized to give the names of Messrs. Williams, Gass, Compton, Lobdell, and Love, who own and cultivate adjoining plantations, and will bear testimony to its correctness. The land which produced this crop is of the usual quality of Oyster creek lands, and indeed of the bottom lands of Texas generally, of which any one may be readily convinced by his own observation!—*Galveston (Texas) News.*

**Murderous Assault, supposed intended for John M. Clayton.**—The Delaware Gazette says, a fortnight ago, when two gentlemen were about leaving the door of the Hon. John M. Clayton's residence at Buena Vista, a revolver was twice snapped in the direction of the group. The caps exploded without igniting the charge in either barrel. Mr. C. was absent from home, and it is supposed that murderous assault was intended to be made upon him.

**A New Light Discovered.**—It is said that Mr. Bates, of Dundas, Canada, has discovered a mode of producing a beautiful light from a peculiar decomposition of common air. It is clear, smokeless, and brilliant; perfectly safe, and can be produced at so very trifling a cost that, if it turns out as described, it must supersede the use of all descriptions of artificial light now in use. It is the intention of the inventor shortly to exhibit the results of this invention to the public, and to apply for a patent.

**THE UNION.**—A co-operation friend in conversation said to us the other day, that he thought the Union stronger now, than since the days of Nullification. We expressed a very different opinion to him, at the time which opinion is confirmed by the reflection. Was there ever a time before, when in the four States of Mississippi, Alabama, Georgia, and South Carolina, there were 150,000 voters in favor of a dissolution of the Union? We think not. *Cherokee Gazette.*

**A QUICK TRIP AROUND THE WORLD.**—The bark Hazard (of Salem) Capt. A. Barstow, which arrived at New-York, 1st inst, has made the voyage around the world in six days less than one year. This is the more remarkable when it is considered that she visited three ports, having sailed from New York Nov. 7, 1850, arrived at San Francisco, March 17, 1851, sailed thence to Hong Kong, and thence against a head monsoon to Batavia, where she remained twenty-six days, took in a full cargo of coffee and arrived at New York, Nov. 1, in 64 days from Anjier.

**MAN A STUDENT**  
BY DR. CHANNING.

When I say that man is to be a Student, I do not mean that he is to shut himself up between four walls, and bend mind and body over books. Men thought before books were written, and some of the greatest thinkers never entered what we call a study.

Nature, Scripture, society, present perpetual subjects for thought; and the man who collects, concentrates, employs his faculties on any of these subjects for the purpose of getting the truth, is so far a student, a thinker, a philosopher, and is rising to the dignity of a man. It is time that we should cease to limit to professed scholars the title of thinkers, philosophers. Whoever sees truth with an earnest mind, no matter when or how, belongs to the school of intellectual men.

In a loose sense of the word, all men may be said to think; that is, a succession of ideas, notions, passes through their minds from morning till night; but in far as this succession is passive, undirected, or governed only by accident or outward impulse, it has little more claim to dignity than the experience of the brute, who receives with like passiveness sensation from abroad through his waking hours. Such thought if thought it may be called, having no aim, is as useless as the vision of an eye which rests on nothing, which flies without pause over earth and sky, and receives no distinct image. Thought, in its true sense, is an energy of intellect. In thought the mind not only receives impressions or suggestions from within, but reacts upon them, collects its attention, concentrates its force upon them, breaks them up and analyzes them like a living laboratory, and then combines them anew traces their connections, and thus impresses itself upon all the objects which engage it.

The universe in which we live was plainly intended by God to stir up such thoughts as has now been described.

True prudence is to see from the commencement of an affair what will be the end of it.

**Jew David's or Hebrew Plaster,**  
THE great remedy for Rheumatism, Gout, Pain in the side, Hip, Back, Limbs and Joints; Scrofula, King's Evil, White swelling, Hard Tumors, stiff Joints, and all fixed pains whatever.  
Where this Plaster is applied, Pain cannot exist. It has been beneficial in the cases of weakness, such as Pain and Weakness in the stomach, Weak Limbs, Affection of the spine, Female Weakness, &c. No female subject to pain or weakness in the back or sides, should be without it. Married ladies, in delicate situations, find great relief from constantly wearing this Plaster.  
The application of the Plaster between the shoulders has been found a certain remedy for colds, coughs, Phthisis, and Affections of the Lungs in their primary stages. It destroys inflammation by perspiration.  
The following commendation is from an agent residing at Trenton, Tennessee: Gibson Co., Tenn., Nov. 7, '49.  
Messrs. Scovil & Mead—Gentlemen: The Hebrew Plaster is becoming popular in this section. There is a lady in this county who says she would not be without this Plaster for five hundred dollars a year. She was afflicted for some time with an enlargement of the spleen, which gave her a great deal of pain. The swelling and pain had extended up nearly to the armpit, and occasionally she could scarcely breathe. She was confined for a considerable time, during which she was attended by some of our best physicians, but they gave her no relief. She procured a box of the Hebrew Plaster, and it relieved her almost immediately, and now she keeps a supply of it on hand constantly. These facts you are at liberty to use as you think proper—they are substantially true.  
Respectfully yours, &c.  
JESSE J. WELLS.

**Beware of Counterfeits and Base Imitations!**  
Caution.—The subscribers are the only general agents in the Southern States for the sale of this truly valuable Plaster, and, in order to prevent purchasers being imposed on by a counterfeit article, sold in this city and elsewhere, for the genuine, they invite particular attention to the following marks of the genuine:  
1. The genuine is put up in smooth, engine turned bottoned boxes, soldered in.  
2. The genuine has the engraved head of Jew David on the directions around the box, with accompanying record of court to E. Taylor, Rochester.  
**ALSO TAKE NOTICE**  
That the genuine has the signatures of E. TAYLOR on the steel plate engraved label, on the top of each box—to imitate which, will be prosecuted as forgery.  
The counterfeit is coarsely put up, in imitation of the old labels, and is sold by several dealers in medicine in this city for the genuine article.
