blue of the Zionist flag. Judaism is proud of its past, but pride in the past can only be of benefit if it inspires us at present to work for the future, and the future belongs to Palestine.

Rev. Blumenthal followed with a few remarks in Yiddish. He showed how with all advantages that we enjoy in this country, we still lack the pure Jewish surroundings that can be had on Palestinian soil only.

**No Answer to This.**

Thomas A. Edison was explaining to a reporter the part played by M. Branly, the new French academician, in the discovery of wireless telegraphy.

The poor reporter, a little bewildered by all the talk about Hertzian waves, transmitters, volts ohms and so forth, ventured on a question that made Mr. Edison smile.

"That question," he said, "reminds me of the city father who rose and said:

"Mr. Chairman, I'd like to know, for my constituents' benefit, whether this here proposed hydraulic pump is to be run by steam or electricity."

**His Appreciation.**

The work horse of the ribbon cut. Almost forgot his appointment. And all who meet him can't help know He was a "widney" winner.

**Natural Consequence.**

"I hear the department store made a good profit on the brooms they advertised as bargains.

"Yes, they made quite a sweeping reduction, so the women came down with the dust.

**Cause and Effect.**

"So that fellow butted in, did he?"  
"Yes; that's how he managed to get my goat."

**Justifiable Apprehension.**

"I proposed last night, and today I have seen the girl's father."  
"A painful ordeal."

"Yes; I feel me. My cert'n that he is going to borrow at least fifty dollars."

**His Lost Stroke.**

"How was your game today, old man?"

"Well, I started out pretty well. Had only 68 strokes at the first nine, but I blew up at my tenth hole and couldn't find my stroke again."

**A Traitor.**

"Watch that man on third base, Clara. I believe he's going to steal home."

"He ought to be ashamed to think of deserting his team before the game is over."
