Subscription Campaign To Run to Close of Fair

FIRST: We do not care for subscriptions outside the state. They add nothing to the value of our advertising space and because each paper must be wrapped in a single wrapper, they necessitate extra labor and labor costs money. Papers sent out of the state are usually sent by some friend or relative to some friend or relative. To keep tab on the party to whom we must look for renewal necessitates extra book-keeping. Therefore, after the close of this campaign the price of this paper, when sent out of the state, will be \$1.75 per year, and each subscription out of the state will be dropped promptly at the expiration of this time, without notice.

SECOND: It costs more to run a paper off the railroad than on it. Several publishers in this county are charging \$1.50 for their paper, and are on the railroad. Our circulation has now reached a point where paper costs money and by reason of irregularity and inconvenience of getting stuff out from the railroad, we shall be compelled to resort to parcels post for shipment of materials. This means extra expense, and it is the purpose of the present manager to push on the good work of building up this paper until it meets all the demands which could reasonably be made on an ordinary country weekly, situated as it is. This means more expenditures. We have decided, therefore to make our subscribers the following liberal proposition:

Until the close of our fair, which will probably take place in the late summer, we will continue at the rate of \$1.00 per year. In order to give all a fair show to adjust themselves to new conditions, we will accept new subscriptions or renewals at the rate of three for \$2.00. You may thus subscribe for three friends for one year for \$2.00, or you may pay up your own subscription three years for \$2.00

"After the Ball Is Over"

After the fair is over the price of this paper will be \$1.50 per year, within the state, and \$1.75 outside the state. We shall also adopt the policy of dropping from our list each subscriber promptly at the expiration of the time for which it is paid, as this will save much book-keeping and expense.

Now, don't get mad about this. It is the best method of book-keeping we can adopt, and we are compelled to make every edge cut that will.

From Now Till the Close of the Fair we have a chance to get this paper for \$1.00 per year, or to send it to you for \$2.00 for three years. But this must
