Paper of Cochise Co.

DAY, SEPTEMBER 20, 1899.

COUNSELLOR PERISHED?

A quotation, in substance, has been made in the form of a question to the official counsel of the District Attorney.

It is based on the fact that persons have been not only paying of an attorney to protect their interests, but they have been ordered by the court, to pay to outside attorneys, principally prosecution of criminals, which sums should not be allowed, or if should be paid by the District Attorney out of his own salary.

It has attempted to make such ex- ample would justify the District Attorney and satisfy the tax-payers that rate party, by its representatives, was living up to the pledge made last campaign, to give such an administration of public affairs as far as possible, alleviate the taxation, and give assurance of peace in all branches of the county.

In face of all the efforts of the Ombudsman, and duty on the part of the attorney, we are continually being informed of the fact that, among other things, was not one single conviction in the last term of the District Court aided efforts of the District Attorney, cases where accused persons were cut by other than the District Attorney, and were sentenced to punishment in which the accused plead guilty.

It is pointed out that instead of being rate of taxation it has been increased, and while the Ombudsman has shown as much as possible, that her than dereliction on the part of the attorney are accountable for the answer has invariably been to that if the District Attorney would, perform the duties of the office to which he was elected, without putting the considerable additional expense in his hands for doing it for him, it would, materially lessen the tax rate, at least desire on the part of the District Attorney to not increase it.

It worked faithfully and sincerely the election of Mr. Land, believing in the best interest of the county, to have it proved that all its in that direction were as "love's labor's lost," to say the least humiliating, is not disgruntled nor has it any right to grind; and all that it has said, in a spirit of friendly counsel and cooperation. If the Democratic party is not fill its pledges, made to the voters, with regard to the administration of office by its candidates, it were before the next convention of the party, offer the inducement of faithful to some good Democrat, capable of performing the duties of the office, to make peace in our county sufficiently long to become the party's candidate for office of District Attorney next year, and be better than that the tax-payers should send their money out of the county to secure the services they have a right to expect from their duly elected attorney.

It reiterates that it has the kindest toward Mr. Land, and would rejoice in acquit himself creditably; but our the tax-payers of Cochise county is not; and we would be doing less than our duty if we were to keep the face of repeated and apparently unending complaint. We hope this hint received in the same friendly spirit.

Reason of the heavy shipment of cattle to the best is becoming scarce in some of Mexico. An export duty is to be levied on cattle to prevent such heavy shipments.

THE TARIFF has been going over the troops, available on the Pacific for transportation of troops to Manila, not satisfied that the present fleet is to get the twenty new regiments by Christmas. It is likely that the tariff to charter additional vessels.

THE trip of the United States torpedo boat, which is being equipped with torpedoes at the Norfolk navy yard, is to be placed shortly. The innovation is apparently watched by naval officers, some apparently quite sceptical of the success of the new fuel for war ships, though, it would revolutionize naval warfare.

RELATIONS between the United States and Great Britain regarding the boundary between Alaska and Canada have been concluded. Both countries made claims, but the result of the negotiations is accounted as a victory for Great Britain, since most of the material over which there was a dispute have been determined in our favor. Canada has been virtually ignored. Great Britain shows no disposition to permit her colonies to cause dissension between the two great English speaking nations.

SHAWMAN was hanged in Virginia, his execution being the first for that state carried out in that state. Capital punishment for highway robbery is usually used to prevail in the more sparsely settled and less well ordered communities.

It seems that they are still about things in Virginia that they are in the east. If capital punishment was ever used it is as a punishment for the robbery, in which the acts of a few impudently live of hundreds of people. The penalty should be strictly enforced and quickly carried out.

## Crippled by Rheumatism.

Those who have Rheumatism find themselves growing steadily worse all the while. One reason of this is that the remedies prescribed by the doctors contain mercury and potash, which ultimately intensify the disease by causing the joints to swell and stiffen, producing a severe aching of the bones. S. S. S. has been curing Rheumatism for twenty years—even the worst cases which seemed almost incurable.

Capt. O. E. Hughes, the popular railroad conductor of Columbia, S. C., had an experience with Rheumatism which convinced him that there is only one cure for that painful disease. He says: "I was a great sufferer from muscular Rheumatism for two years. I could get no permanent relief from any medicine prescribed by my physician. I took about a dozen bottles of your S. S. S., and now I am as well as I ever was in my life. I am sure that your medicine cured me, and I would recommend it to any one suffering from any blood disease."

Everybody knows that Rheumatism is a diseased state of the blood, and only a blood remedy is the only proper treatment, but a remedy containing potash and mercury only aggravates the trouble.

## S.S.S. For the Blood

being Purely Vegetable, goes direct to the very cause of the disease and a permanent cure always results. It is the only blood remedy guaranteed to contain no potash, mercury or other dangerous minerals.
