COCHISE REVIEW

VOLUME IV

BISBEE, ARIZONA, THURSDAY EVENING, MAY 17, 1900.

NUMBER 109

EARTHQUAKE IN MEXICO

People Were Startled for a While.

DAMAGE WAS VERY SLIGHT.

A Red Handed Villian Plays Havoc on the High Seas and Escapes.

CITY OF MEXICO, May 17.—An earthquake at 1:30 yesterday afternoon had two distinct shocks of fifteen and twenty seconds each. No damage was done except that it cracked the walls. The people ran into streets in crowds, falling on their knees and crossing themselves. There was a perceptible wave motion of the earth and a number of older buildings fell. Quiet was restored after a short interval and business was resumed.

BLOODY WORK.

An Insane Man Takes Possession of a Ship.

STOCKHOLM, May 17.—The Swedish steamer Prince Charles put in here today, bearing indications of an extraordinary tragedy. The decks and cabins of the vessel were blood smeared and spattered everywhere. It seems that early last evening an unknown madman, with a revolver, ran a-muck on the steamer and shot dead five persons almost before they realized his intentions. The captain sprang upon the man, but the latter shot him and killed him with a bullet. The lunatic then reloaded his revolver and, going on deck, wounded six of the crew. Others of the ship's company were by this time completely cowed and no further attempt was made to capture the man, who launched a life boat and escaped.

MARRIED FOR BUSINESS REASONS.

Disclosure by the Widow of Ruben Whiteman.

GENESEE, N. Y., May 17.—An unexpected disclosure was made yesterday in proceedings for the final settlement of accounts of Clara Whiteman Gibbs, administratrix of the estate of Ruben Whiteman, father of ex-Senator Alonzo J. Whiteman, who is now under charges of forgery at Chicago. Ruben Whiteman died in 1898, leaving a will which disposed of an estate valued at \$500,000. The will provided that the interests given to the children should not invest in them until after remarriage of the widow.

The widow appeared in the surrogate's court yesterday and presented a certificate of her marriage to James Lindsay in 1895. She said that the marriage contract had been entered into for business purposes only, that no announcement had ever been made of it and that this was the first intimation given to the public that she had remarried. The estate can now be settled without further delay. Ex-Senator Whiteman has released his interest in the property to his sister, Mrs. Gibbs.

MINISTERS' ASSOCIATION.

Virginia Preachers Deny Serious Allegations.

NORFOLK, Va., May 17.—The preachers of the Norfolk Ministers' association of the Virginia conference of the A. M. E. church, characterizes as untrue the recent charge made by Bishop James A. Handy that many of the ministers of the Virginia conference are drunkards, immoral and unfit to preach the gospel.

A Lenient Trust.

NEW YORK, May 17.—There is a change in the price of white paper for newspaper use. A few weeks ago it was difficult to close a contract at three cents a pound. Now it is being offered in the market at 2 1/2 cents.

Mafeking Relieved.

LONDON, May 17.—Sir Kitson, M. P., announced in one of the lobbies of the house of commons this noon that Mafeking had been relieved. The statement caused a tremendous excitement. As yet, however, the war office has not confirmed the report.

MILF LONG PETITION.

Residents of Australia Object to Taxation Without Representation.

LONDON, May 17.—A petition to the Queen from the residents of the West Australian gold fields, praying for separation from the earlier settled parts of West Australia, has arrived in London. It bears 28,023 signatures and fills a mile of paper. It is inclosed in a handsome casket of polished Australian woods, which has a key made of Kalgoolie gold.

It is understood that the grievances of the pioneers are practically identical with those of the Transvaal Ulanders, that is, taxation without representation. The petition urges the fact that Great Britain in conferring autonomy in 1880 reserved the power to sub-divide the colony.

MONEY ORDER SWINDLER.

He Obtained Money from Various Postoffices—His Arrest.

CINCINNATI, May 17.—Two days ago a well dressed young man presented three money orders for \$100 each, with identification waived to Postmaster Reynolds, of Covington, Ky. The postmaster noticed the advices forwarded him were in the same handwriting as the orders. He made the excuse that he had not yet received the advices for payment. The young man went away and did not appear again. Post Office Inspector Fred M. Betz, who was notified, learned that three orders for \$100 each, made out in the same handwriting, had been received at Newport.

As the result of further investigation he arrested a young man this morning, who was registered at the Palace Hotel with two young women as "E. Rhinehart, wife and sister, Chicago," but whose real name is Joseph Brichta, a clerk in the post office at Pullman, Ill. Brichta is a Bohemian about 25 years old. He left Pullman on April 25 on a two weeks' vacation. He also stole a block of money orders. He owns up to having presented and obtained money for three orders of \$100 each at New York, three at Brooklyn, three at Camden and three at Harrisburg, Pa., amounting to \$1,200.

KILLED 120 FILIPINOS.

Twenty-five Americans Repulsed 800 Insurgents.

MANILA, May 17.—News has reached here that the garrison of twenty-five Americans at Jaro, on the Island of Leyte, received warning on April 16 of a coming attack by the insurgents. Lieut. Estes of the Forty-third Volunteer Infantry posted sixteen men to protect headquarters. He took four men himself and sent four more under a sergeant to fortified positions where they awaited the attack, which was begun at daylight. It was estimated that there were 800 insurgents armed with bolos and thirty with rifles. The fight lasted all day and finally the insurgents were routed.

The Americans buried 120 Filipinos; they captured a cannon, a silken banner and a large quantity of equipments and food. All the indications showed that the insurgents were confident of capturing the place.

MAPPING OUR NEW ISLANDS.

Secretary Long Urges an Immediate Resurvey of the Philippines.

WASHINGTON, May 17.—In reply to inquiry regarding surveys of the waters of the new insular possessions of the United States, Secretary Long has sent to the senate a statement showing the progress of the work. The surveys of the Hawaiian Islands and of the American possessions in the Samoan group are practically completed. The existing charts of the waters of the Philippine Islands are defective and deficient, many dangerous reefs being omitted entirely, and Mr. Long emphasizes the necessity for an immediate survey of the group. He reports the Spanish charts of Cuba imperfect, and says that three naval vessels are now engaged in making a new survey, which, he adds, should be done during the American occupation of the island. As to Porto Rico, the new survey of the waters is progressing satisfactorily.

A special to the Chicago Tribune says W. H. Greer of Chicago and Scott McKeown, who are interested in a large tract of land in Pima county, Arizona, have planned a sanitarium for sufferers from tuberculosis. Mr. Greer, who today returned from the east, says that Helen Gould, Andrew Carnegie and others have expressed a willingness to aid the establishment. The sanitarium will be located in a favorable belt and will accommodate 800 patients, and government aid will be requested later. Republican.

BULLER PUSHING NORTHWARD

Americans Will Sympathize With British

WILL APPEAL TO CONVENTIONS

Will Urge that Americans be Neutral on the Transvaal Question.

LONDON, May 17.—Buller is continuing his advance northward in Natal and has reached Danhauser, twelve miles north of Glencoe. His advance was made without opposition. Following is Buller's latest report, received through Lord Roberts:

"The second division has reached Danhauser. I hope my advance patrols are at Newcastle. The fifth division is eschelonned from Elands Laagte to Glencoe, repairing the railroad. The fourth division is at Sunday river. Reports agree that 700 of the enemy passed north hurriedly on the 16th."

Newcastle, which Buller hopes has been reached by his advance, is twenty miles north of Danhauser.

ABE BUNTER, AGED 108.

Death of a Negro Who Was Well Known to Every Williams College Man.

WILLIAMSTOWN, Mass., May 17.—Abraham Pearson, a negro better known as "Abe Bunter," and well known to every Williams College man, died at the Poor Farm in Williamstown today. His age is a matter of conjecture. He said he was 108 and he was generally believed to be at least 100 years old. Alumni of the college since 1880 remember him because of the stories he told of the hardness of his head and feats of breaking plank by using it as a battering ram. He came to Williamstown in the middle of the century and lived there until his death, the last few years of his life being spent on the Poor Farm. He always attended the college commencement exercises.

British Casualties.

PRETORIA, May 15. (Delayed)—An official bulletin says the federals stormed and occupied the Mafeking forts all day Saturday, but on the same night the federals were surrounded, losing seven killed, seventeen wounded and several taken prisoners. British casualties fifty.

American Scouts Suffer.

LORENZO MARQUEZ, May 16. (Delayed)—A dispatch from Pretoria, north of Kroonstadt, says that Hassell's American scouts serving with the Boers have suffered more heavily than any other corps during the war. They have lost 37 in killed, wounded and captured out of 100 in the past six weeks.

Rixers and Harbors.

WASHINGTON, May 17.—When the house met at noon, Burton (Rep.) of Ohio, and chairman on Rivers and Harbor committee, called up for consideration the emergency river and harbor bill. The bill carries \$200,000 and provides that not more than \$10,000 shall be expended at any one place.

AN OPEN LETTER.

They Do Not Want the Transvaal Question in Politics.

LONDON, May 17.—Cape Town dispatches say that a number of prominent Americans in the colony are preparing an open letter to be sent to the American people, and particularly to the national conventions in the United States. The letter is a protest against the possible intervention of the United States in the Boer war. It says the cause of humanity in Africa would be best served by Americans observing strict neutrality. Regret is expressed over efforts now being made to drag the Transvaal question into politics. Such a course, says the letter, can benefit neither of the belligerents and is only calculated to prolong the strife by raising false hopes. The letter concludes by saying there is not the slightest chance of the United States departing from its traditional policy by interfering with the Anglo-Boers quarrel.

Klerksdorp under the impression that the place is threatened. Many of the Vickersberg and Bethle Boers are appealing to Basutoland commissioner for conditions of surrender."

SEARCH FOR NEELY'S MONEY.

Hunt in the Ranks and Safe Deposit Vaults in Muncie, Ind., for Funds.

INDIANAPOLIS, Ind., May 17.—Government officers went to Muncie and made a thorough search for registered packages and for funds in the various safe deposit vaults, supposed to have been sent there by Charles F. W. Neely, either to himself or to his friends. The various banks were also visited and the officers closely questioned, but it is not known what success the officers had. Much surprise is felt over the denial of Perry S. Heath of responsibility for Neely's appointment. They have been close friends for years and it has been assumed that Neely's appointment came through Heath. Just before his appointment the Neely Printing company gave a mortgage on the plant to a Chicago firm for \$10,000 and this increases the surprise over Neely's sudden change of fortune.

VESUVIUS GROWS MORE ACTIVE.

Station of Cble Railway Destroyed, Residents Leave.

ROME, May 17.—Vesuvius is gradually becoming more active and the rumblings are frightening the people. The authorities are doing all they can to reassure the residents in the vicinity and experts say there is no immediate danger. The station of the Funicular, the cable road, has been destroyed.

Four Englishmen who made the ascent of the volcano ventured too far without standing the warning of their guides. They were overtaken by the lava and seriously burned.

HE'S UNDECIDED.

Carter Harrison Will Probably Accept Nomination for Governor.

CHICAGO, May 17.—The Chronicle says this morning that at the conference between Mayor Harrison and W. H. Hinrichson, who is responsible for the report that Mayor Harrison will not consent to become the democratic nominee for governor. According to Hinrichson, Mayor Harrison reiterated his former statement that he is not a candidate, but declined to say whether he would accept the nomination of his party if it were tendered to him.

To Travel Incognito.

PARIS, May 17.—Three of the Chamberlains of the German Imperial Court are stopping at different hotels here, and it is believed they are expecting a visit from the Kaiser to the exposition incognito. One of the Chamberlains told your correspondent that the Kaiser was now attending the manoeuvres at Metz, near the French frontier.

Anarchists in Possession.

PARIS, May 17.—As a result of the election riots in Montfies Mines, the anarchists are now in possession of the town. The police have been completely overpowered and barricades have been erected to assist the soldiery. Excited bands of agitators are parading the streets. So far only two persons have been injured in the disturbance.

A Good Capture.

LORENZO MARQUEZ, May 17.—It is reported here that Commodant Eloff and the Boer patrol attempted to enter Mafeking, but the garrison surrounded them, killing seventeen and taking Eloff and ninety Boers prisoners.

The novel experience of a rainy day was enjoyed in Yuma last Saturday, says the Sentinel. The rain began falling early Friday evening and a steady downpour prevailed all day Saturday. Umbrellas, which are used in Yuma to shed the sun, were brought to the front and people floundering across muddy streets changed the order of eternal sunshine.

Frank McMahan, who has been for some time a member of the El Paso police force, has been chosen by the cattlemen of southeastern Arizona and New Mexico, to succeed his lamented brother-in-law, George Scarborough, in protecting their interests from cattle thieves and other outlaws. He is said to be a brave and fearless officer, a worthy successor of a worthy man.—Bulletin.

Charles F. Hoff said yesterday that the supplies for building the long distance telephone line to Nogales, via Santa Cruz valley, were on their way for delivery at Tucson, Calabasas and Nogales. From the moment the supplies are laid down a force will be at work, and that means sixty days from start to finish. Everything going well it will be "Hello! Nogales," July 20.

BUSINESS LOCALS.
