EVENTS IN GALVESTON

Pillaging Continues and Negroes Are Killed.

GALVESTON RESIDENTS PLUCKY.

Wonderful Escapes--Ships Are Carried Inland for Many Miles.

GALVESTON, Sept. 21.—Pillaging still continues and every precaution is taken to prevent this marauding from continuing. During the night two negroes were caught in the act of robbing houses and were promptly shot.

The residents of Galveston are plucky in the extreme in their determination to rebuild and make Galveston a greater and better city than it has ever been before, but in one direction at least they have suffered a loss that is beyond repair, and that lies in the extent of the territory wrested from them by the storm. The waters of the gulf now cover 5,300,000 square feet of ground that was formerly a part of Galveston. This loss has been suffered entirely on the south side of the city, where the finest residences were built, facing the gulf, and where the land was held at a higher valuation than in any other part of the city, with the exception of the business district. For three miles along the shore of the gulf this choice residence property extended, but the shore line was so changed by the storm that at low tide the water is 350 feet higher along the entire three miles.

GALVESTON, Sept. 21.—A steamship which arrived here brought in five men who were rescued far out in the gulf. One of them, James Kelder a stevedore, was riding the roof of a house nearly 100 miles out in the open sea, when the steamship discovered and rescued him. Many others are undoubtedly drifting around on the gulf, far from the main land, if they have not already perished. Kelder was almost dead from exposure and hunger, but was revived.

Other survivors report that they were caught in the first rush of water over the city and were carried along to the main land so quickly that they hardly realized what had happened until they were caught by underbrush or other objects far in the interior. These are among the many miraculous escapes reported.

The big government dredge is resting on the prairie fifteen miles inland. It was carried there by the great overflow and will have to remain there unless it can be taken apart and brought back to the water.

A big tramp steamship here rests three miles inland on a knoll of ground near the railroad track.

The captain said that the vessel was caught up and landed by the force of the wind and water in the main land, three miles from the former shore. He thought that everybody in Texas would be killed. The captain also said there were a number of small vessels planted upright on the prairie, and how they would ever be got off was an unsolved problem.

There are few strangers in Galveston. The very few newspaper correspondents who were allowed the city on Monday are permitted to remain, but no new ones have been able to get here, although a score or more are reported in Houston clamoring for passes through the guard lines that surround the city.

Roosevelt in Iowa.

The first week in October will be Roosevelt week in Iowa. Although he spends but one day in the state Governor Roosevelt will get a chance to talk to several large audiences. Three cities—Waterson, Cedar Rapids and Davenport—are preparing to entertain him. He goes into the state on the evening of October 4, after his meeting in Omaha. Accompanying Governor Roosevelt are John Crocker Clark, of New York, and Colonel Curtis Guild, Jr., of Boston; both of them famous orators, who assist when the demand for speaking becomes too heavy for the Rough Rider to meet it single-handed. Mr. Clark is heralded as one who had a prominent part in winning New York City from Croker and Colonel Guild was Fitzhugh Lee's inspector general in Cuba. Senator Doliver and Governor Shaw will be at Council Bluffs to meet them. They will go by way of the Illinois Central railroad to Waterloo, where they will

be met by Speaker Henderson. After the Waterloo meeting the Roosevelt party will be turned over to the Burlington, Cedar Rapids and Northern railway, which will take it to Davenport, making a stop in Cedar Rapids. Colonel Henderson will probably accompany the party from Waterloo.

THE PHILIPPINE WAR.

Sharp Fighting--Americans Loose Men--Insurgents Fighting Better.

WASHINGTON, Sept. 21.—General McArthur has cabled the war department that there has been a fierce fight between a band of insurgents and a detachment of American soldiers. The insurgents were well officered and displayed a dash and fearlessness that was unusual and unexpected.

The enemy appear to be under able leadership and their fighting qualities are much improved.

The American loss was twenty killed and a dozen wounded. The insurgent loss was about one-half that number.

Democratic Primaries.

At a meeting of the democratic central committee of Cochise county, held in Benson on the 23d day of August, 1900, it was ordered that the 27th day of September, 1900, be and hereby is set as the day for holding the democratic primary elections throughout the county, for the purpose of choosing delegates to the democratic county convention, to be held in Knights' of Pythias hall, in the town of Benson, Cochise county, Arizona, on the 10th day of October, 1900, at 11 o'clock a. m.

The democrats of the various precincts in the county are invited to assemble and elect their own boards of primary election officers and choose delegates to the county convention, except in the precincts of Bisbee and Tombstone, where the local members of the county central committee will appoint the boards of primary election officers and designate the polling places, giving the voters ample notice thereof.

The following is the number of delegates apportioned to each precinct, based on the vote of 1898:

NECESSARIES ARE DEARER

In Chicago--Coal and Wheat Both Rising

BREAD IS NOW MUCH DEARER

A Bad Outlook for the Poorer Classes in That Great City.

CHICAGO, Sept. 21.—Coal and wheat are both rising. Bread is dearer. The price of fuel will be much higher this winter. The outlook is gloomy for the poorer classes in this city during the cold months, and it is feared that much distress will prevail.

Already organization is being effected by the charitably disposed to prepare to avert as much as possible of the suffering that appears to be certain this fall and winter.

CORBETT EXPLAINS.

Denies He Fled from His Wife--She Was to Follow Him.

QUEENSTOWN, Sept. 21.—The Cunard steamship Company, arrived at Queenstown last Wednesday. The American correspondent found James J. Corbett, who was reported as eloping with Marguerite Cornelle, aboard under the name of George C. Francis, accompanied by his manager, George Considine, who assumed the name of Martin.

Marguerite Cornelle was also aboard but Corbett declared that she occupied a stateroom with her mother, under whose chaperonage she is traveling, and denied that she was eloping. When told that his wife had instituted divorce proceedings Corbett said:

"I cannot believe that, as my wife intended to sail on the St. Louis or Teutonic for England last Wednesday. Maybe she has acted hastily on reading newspaper stories about me in New York. But if she has brought suit for divorce she will regret it."

Asked about the \$200,000 he is reported to have, Corbett said:

"That is my business. It is not the business of any one how much money I have. I won't say how much I have with me, but I have enough to keep me from getting broke on my travels. I don't know how long I shall be in England. I intend visiting places of interest, and also to give sparring exhibitions if I can find any one to don the gloves with me--Charlie Mitchell, for example."

"My fight with McCoy was not a fake, and those who invented the story are liars. I have not quit the prize ring, and hope to return to America and face Jim Jeffries for the championship of the world. Then I shall be ready to retire."

Corbett and Miss Cornelle were much together during the voyage, and proceeded to Liverpool together.

BOERS FLEEING.

Roberts Reports Boers Dispersed and Guns Left Behind.

LONDON, Sept. 21.—Lord Roberts reports that the remaining Boers have been dispersed and have fled in every direction. Their guns were left behind them in their flight.

Military Automobils.

PARIS, Sept. 21.—The great feature of the autumn maneuvers in the flat Beauce country, near Chartres, where over 100,000 men are now operating, is the success of military automobilism. The roads around and throughout Beauce are thick with motorcycles, voltures and trucks propelled by steam, petroleum or electricity. They are all handled by chauffeurs in the uniform of reservists.

The work of the general staff is accomplished with unprecedented rapidity. For instance, on Thursday, one of General Brugere's orderly officers, Captain Hethmot, covered 170 kilometers in a few hours, making the entire circuit of the northern and southern armies, and bringing his chief by noon a detailed report of all the operations effected.

One volturite of four horse power is doing wonders. It carries an aluminum search light, the motor being powerful enough to cover great distances and at the same time project a strong enough light to disclose the position of an enemy at four miles distance.

On Wednesday heavy wagon motor carriages left Chartres with 15,000 kil-

ograms of corn at 6 a. m. and returned at 9 p. m., after covering eighty-five kilometers. It would take thirty-six horses and three days' journey to do the same thing. Moreover, a horse convoy would stretch over 120 meters, whereas the motor carriages only extended forty-five meters. In other words, it would require less than half the force to protect them.

THE MINERS STRIKE.

Miners Gain Steadily--A Large Number of Men Are Out.

HAZELTON, Pa., Sept. 21.—President Mitchell, of the miners' union, is on the verge of a physical collapse. The intense excitement of the past few days has overcome him and this morning the doctors are working over him.

The miners are making steady gains in their numbers, and a hundred and thirty thousand men are now idle. So far there has been no violence and the proceedings have been orderly.

Metropolitan Civilization.

According to the New York Sun the small boys of New York city have recently invented a new game in which they evidence rare enjoyment.

It is called "nigger riot." The game as played by the youth of the most recherche circles of metropolitan society is played in this wise: Crowds of youngsters whose faces are whitened by chalk face other crowds of small boys whose faces are not whitened and pummel them for dear life when they get the chance. One of the prominent participants in the game gave this graphic description to a Sun young man:

"Dat's nigger riot. Dem what's chalked up is white men and dem that ain't niggers. When we gets enough fellows who'll be niggers dey go's off a ways, and den somebody yells 'ready!' Den we gets after 'em and dey gets away if dey can."

Thus does the influence of metropolitan civilization make itself felt upon the rising generation.

ASHES CAST TO THE WINDS.

The Will of an Eccentric Musician Is Faithfully Carried Out by His Friends.

The remains of William Case, of Lafayette, Ind., were cremated at Cincinnati the other day. The will of Case requested that "my ashes be strewn to the four winds of heaven." During the Sunday afternoon concert in Eden park, the highest of the hill-top resorts at Cincinnati, the friends of Case carried the ashes to that place and literally carried out the will by strewing the ashes to the winds in the presence of a vast crowd while the band discoursed sacred music. Case was an eccentric musician.

Use to Smoke.

Soft coal is now being shipped from this country to England. But the English are not worried, says the Chicago Times-Herald. They are used to the smoke nuisance over there.

Proud of His Promotion.

A West Virginia girl writes to a friend about her hero, who is a soldier in the Philippines. She says: "I got a letter from —. He's getting along splendid. He has been assigned to the guardhouse for five days. Says it is a pretty hot place, but then, you know, he never shirks from his duty. Ma and I are naturally proud to hear of his promotion."—Wheeling Intelligencer.

Democrats, Attention!

A caucus of the democratic voters of Bisbee Precinct No. 2, of Cochise county Arizona, is hereby called to meet at Graham's Hall, opposite the Roundhouse, on Tuesday, September 25th, 1900, at 8 o'clock p. m., for the purpose of selecting men to be voted for at the Primary Election on Thursday, September 27th, as delegates to the County Convention, to advise the local members of the county central committee as to the proper place and hours for holding the primary election and to transact all other business proper to come before this most important of all political meetings, where all party organization starts from the people themselves.

RIOTING AT NEW ORLEANS

Bloody Strife Between Negroes and Whites

FOUR NEGROES ARE LYNCHED.

Now the Race War Is On Again and There Is Killing in the Streets.

NEW ORLEANS, Sept. 21.—Again this city is the scene of a sanguinary riot. Commencing last night, the riot continues, and today the city is the arena of strife between the negroes, who are rioting, and the white men, who, enraged beyond endurance, are killing all negroes that cross their path.

This recurrence of the race war in New Orleans was caused by a brutal attack on the home of a white man in Tangipahoa parish by a number of negroes, who first robbed and looted the premises, then choked a woman, who died.

Fourteen negroes who were suspected of being implicated in the outrage were arrested and jailed.

Early this morning a crowd of white citizens attacked the jail, forced an entrance and took out four of the suspected men, whom they at once lynched.

Today the negroes are rioting and the whites are killing.

OUTRAGES BY EUROPEAN TROOPS.

General Protest Against Conduct of French and Russians.

PEKIN, Sept. 21.—The French and Russian troops who are arriving now are guilty of frightful atrocities. At Tungehow they outraged and slaughtered women and killed children. Gen. Fukushima, one of the Japanese commanders, made a personal complaint to the Russian and French generals, and urged General Chaffee to do likewise.

The Sixth United States cavalry reconnoitered as far as Hunting Fork (the fork of the road at Huanling, north of Pekin) and killed two Boers whom they met. They also destroyed large stores of rice.

Owing to the stress of military business General Chaffee refuses to allow the press correspondents the use of the wire from Pekin to Taku.

AMERICAN EXPEDITION

To Relieve the Christian Natives Is Entirely Successful.

WASHINGTON, Sept. 21.—A cable was received this morning from Chaffee reporting on the result of the American expedition sent to relieve the native christians.

The report announces that there were no casualties whatever, and that the expedition was successful.

The country was less hostile than of late, and the natives betrayed little disposition to attack the American troops, although their attitude was sullen.
