MONEY SPILLED FOR 1,000 MILES.

Constitutionalists Are Short 250,000 Pesos in Bills Lost Along Railroad Track.

Douglas, Ariz., Jan. 18.—The shortage in a shipment of 10,000,000 pesos in Constitutionalist paper money from New York to Constitutionalist headquarters at Agua Prieta will amount to a little over 250,000 according to announcement by Sonora officials after a careful count.

The money, which arrived here last night, came by freight in two trunks. One trunk burst open and bills sifted out along the railroad right-of-way. Advices from El Paso and the east lead Constitutionalist to believe that the money trail extends 1,000 miles east of here. The missing bills are of denominations ranging from \$1 to \$1,000. The money is printed on good linen paper and closely resembles United States money.

This medium will take the place of the provisional currency and is expected to stop serious leaks in state revenue due to extensive counterfeiting operations. The provisional currency is said to be printed poorly and to resemble cigarette coupons.

Another Lot Released.
Chicago, Jan. 18.—A shipment of 10,000,000 pesos in Mexican revolutionary money seized here by government officials will be forwarded to Nogales tomorrow, according to Thomas I. Porter, in charge of the secret service here.

Captain Porter said representatives of the United States district attorney's office took the ground that as the American government does not at present recognize any government in Mexico, the money cannot be considered counterfeit.

The money was shipped from Washington and gained the government's attention when the railroad officials opened the cases to see if the shipment had been billed properly.

JAIL IS FULL.

MIAMI—Fourteen offenders were rounded up by the Miami officers last night. This number filled the Miami jail to full capacity and an S. R. O. sign was in order this morning.

MILITIA BILL PROVIDES PAY

Colonel Harris Returns from Washington and Announces Some of Provisions of New Militia Bill; One Quarter Pay.

TUCSON—Colonel Charles W. Harris, adjutant general of the Arizona National Guard returned yesterday from the meetings of the National Adjutant Generals association held in Washington, D. C., the latter part of last week.

A new militia warfare and pay bill was the absorbing question of the adjutant generals who were gathered for the meeting. It was a bill which has been agitated for the past several months considerably among military authorities, and in which there was much diversity of opinion. It was presented to the adjutant general in an already complete form to be adopted by them prior to being presented to congress for enactment as a law.

Chief of the provisions of the bill was that providing pay for members of the national guard for actual service performed. The compensation provided in the bill amounts to about one-fourth the money received by enlisted men of the national service, in comparative rank. The provision states that actual service rendered shall be considered at the least twenty drills attended, during one year as well as other regular practice such as attendance at the rifle ranges.

The bill as formerly drafted was drawn by General Carter, of the navy department, was approved by Secretary of War Garrison, and was changed only in minor points by the adjutant general. It will come before congress for adoption and enactment into a federal statute.

SEND BODY AWAY.

MIAMI—The body of the late John Waters, one of Miami's best known and well liked citizens, will be shipped to Peoria, Utah, accompanied by his widow, daughter, and his brother, J. H. Waters.

YUMA PICTURE CAMP.

YUMA—Eighteen members of the Capital Film Co. came to Yuma this afternoon and after taking a look about town took carriages for their temporary headquarters on the Hendricks ranch at Bard. Tomorrow there will start the production of the big three-reel feature picture, "Father Garces' Mission," and the busy ranchers of Bard will be introduced to new and strange sights as the array of Franciscan priests, Spanish soldiers, pretty Spanish señoritas of over a century ago and dignified Indians pass by on their way to the Bard hills where the picture is to be taken.

LIVERYMAN FATALLY HURT

PRESCOTT—C. E. Smith, proprietor of the O. K. Stables in this city, passed away yesterday afternoon after an illness of about one week. The affliction was peritonitis, superinduced by blood poisoning. It is believed the malady was due to an accident of several days ago by his riding horse stumbling when he was thrown under its body, receiving internal injuries that occasioned him no trouble at the time. Later symptoms of intestinal troubles followed.

BREAKS UP RUSTLERS.

GLOBE—Robert Kenton this morning pleaded guilty to the charge of cattle stealing after an appearance before Judge Walter Shute in the superior court. Kenton is one of the Indian cattle thieves from the San Carlos reservation, who has been bothering J. H. McMurren. The county authorities believe that with the sentence of Kenton they will have succeeded in breaking up the bands of Indian cattle thieves which have been bothering this section for a considerable period past.

CLAIMS ALIBI

MESA—According to reports received Charles F. Cody, owner of some mining claims near Camp Carney, was arrested by the Pima county authorities, charged with complicity in the murder of Eli Vendervitch at camp Carney. Bert Wingur of this city received word of the arrest from private sources and yesterday went to Florence to ascertain why Cody had not been given a hearing in the matter, and to do what he could in securing Cody's release, who, it is stated, can furnish an alibi clearing him of any part in the killing.

GREAT ORE FIND IN THE NACAZARI DISTRICT

Herman Berkhauser Digs up Ore Which Runs Heavily in Silver-Lead; Causes Sensation in Mining Camp.

Douglas—According to reports in Douglas today, there is some excitement at Nacozari about a discovery of silver-lead ore by Herman Berkhauser, the well known prospector, who has been in that section for some time following up a lead he secured about one year ago. The discovery happened last Saturday. In the evening of that day Berkhauser came into Nacozari with samples of deposits which made the whole town sit up and take notice. Some reports have it that his discovery is so great that it takes five figures to enumerate it per ton. Others say that it is even better than this. Samples of the ore are in the hands of assayers, who only smile when one asks them how much they run. There is little doubt, taking reports today into consideration, that the find is one which will awaken more mining echoes in the Nacozari district than have been heard there in some time.

FOR CONVENTION AT DENVER

List of Delegates to American National Live Stock Meet.

PHOENIX, Jan. 16—President C. C. Mullen of the Cattle Growers association was in town yesterday conferring with Sam B. Bradner, the secretary of that organization, regarding the meeting at Denver when a large number of delegates from all Arizona will be present to represent the interests of the new state.

At the meeting held last week in Tucson several appointments were made and a number of delegates named among those who are down to go to the big noise in Denver are:

C. P. Mullen, the president of the association; L. L. Harmon, the treasurer of the national association; Fred T. Coulter, the vice president of the Arizona body together with Frank Fogel, Marsfield, Cartwright, Levy Young, George Day, F. A. Reid, Geo. Nye from White River, M. A. Perkins of Puntenny. Chas. Debsen, Harris Miller from Springerville, Joe Campbell from Prescott, Van Dickson of Skull Valley, H. J. McClung and Harry Welch from Phoenix.

BAKER MAY ENTER COMING SENATORIAL CONTEST

PHOENIX, Ariz., Jan. 20.—A. C. Baker, one of the staunchest members of the old guard and a former chief justice of the supreme court will probably be in the race for the Democratic nomination for United States senator this fall.

Many friends of Judge Baker all over the state are urging him to make the race. They realize that Marcus A. Smith is doomed to retirement and resent his action in ignoring old residents of the state and picking up later comers when making appointments to federal offices.

Baker is a fighter and will make the campaign interesting. He is a brother-in-law of J. L. B. Alexander, the Progressive leader.

It is now well settled that Dwight B. Heard will be the progressive nominee for United States senator.

News and Views From the Capitol of Arizona

(Issued by Arizona News Bureau.)
During 1913 Arizona spent \$67.43 for the education of each child in attendance upon her public and high schools. This is a record for the United States. California stands next to Arizona.

For several years Arizona has headed the nation in her per capita school expenditures. The figures for 1913 are unusually high because of the cost of free text books and a number of new buildings. In all, thirty-seven new schools were erected during the year, according to the annual report of Prof. C. O. Case, state superintendent of public instruction.

At the time the schools closed last spring there were 1020 teachers employed and they opened in the fall with 1200. Less than 200 are men. A notable development in the educational system of Arizona is the rapid increase in high schools. High school buildings are either being erected or have just been completed in a dozen places. The number of high school pupils enrolled in 1913 was 1,824.

At this time Arizona is paying \$24,000 a year in pensions to retired teachers. Numerous improvements have been made at the state normal schools and the university. Domestic science and agricultural departments have been added at the Flagstaff Normal. At the Tempe Normal a girls' dormitory has just been completed.

Prof. I. D. Payne, who was elected president of the Arizona Teachers' Association at the annual convention of that organization, held in Tucson, is one of the most progressive educators in the state. He teaches psychology at the Tempe Normal and also has charge of the practice teaching. Most of his experience has been in Santa Clara county, California, from whence he came three years ago to take his present position.

Miss C. Louise Boehring, school superintendent of Yuma county, is secretary of the Association, and Prof. C. F. Philbrook of Bisbee is treasurer. Under statehood Arizona's government is costing \$12,000 a year more than under the territorial form, according to a statement issued by State Auditor J. C. Callaghan. In arriving at this figure, however, he did not include the increase in the cost of the school system, arising from free text books and increased population. In 1913 the schools cost \$848,800 more than in 1911.

The Supreme Court has dismissed the quo warranto proceedings brought by State Senator H. A. Davis to oust Corporation Commissioner F. A. Jones from office. Davis alleged that Jones violated the law by being interested in two insurance companies over which the Commission has supervision. Permission to issue \$1,696,102.35 worth of first mortgage bonds has been granted by the Corporation Commission to the Arizona Eastern Railroad Company. Of this sum, \$678,028.58 is to be used for improving the line from Phoenix west to the Hassayampa. The remainder will be spent on the Winkelman and Globe branches.

J. H. Fleming, of Phoenix, has been appointed selector of federal building sites, at a salary of \$800 a month and expenses. He is a brother-in-law of William G. McAdoc, secretary of the treasury.

NO. 5821

REPORT OF THE CONDITION OF THE FIRST NATIONAL BANK OF CLIFTON

at Clifton, in the State of Arizona, at the close of business JANUARY 13th, 1914.
