

**Poetical.**  
A SERENADE.  
I will not ask to press that cheek,  
Without a guarantee  
That nature spreads the pearl and red,  
Which there I always see;  
Those lustrous lips I will not touch,  
Unless you promptly say,  
That their bright hue is fast and true,  
And will not wash a way.  
Those brilliant eyes may owe their charm  
To iodolodina's use,  
Complexion tints, I've heard dark hints,  
Are changed by walnut juice;  
And if I ask the dearest girl,  
For whom alone I live,  
For one long kiss and bliss,  
It mayn't be hers to give.  
The penciled brow, the raven hair,  
Are open to a doubt,  
And some may think, but they're unjust,  
The shade I rave about;  
So in this dubious state of things,  
And as the weather's warm,  
I will not seek to press that cheek,  
Or ask to clasp that form.

**HALL'S**  
CELEBRATED DOUBLE THREAD LOCK  
**SEWING MACHINE,**  
MAKING THE FINEST GROVER & BAKER STITCH.  
Price \$25.  
THE undersigned has been appointed agent for the sale of this truly valuable FAMILY SEWING MACHINE, which is enabled to recommend from actual trial as coming fully up to all claimed for it.  
Its great merits are simplicity, durability, compactness and cheapness; simple that all can understand its working; so cheap that all can buy.  
It can be used for work that will not rip, though very thick stitch be cut. Sew from two ordinary spoons without winding, turns silk linen thread and common spool cotton with equal facility, and is perfectly adapted to all family work from the finest muslin to the coarsest fabric.  
All things considered, this is the best Family Sewing Machine ever offered to the public. No family should be without it.

Calisaya or King's Bark was unknown until the middle of the 17th century. Humboldt makes favorable mention of its febrifuge qualities as an antidote to Fever and Ague, Intermittent and Malarious Fevers, in his extensive South American travels.  
In 1640 it was used by the Jesuits, who alone at that time possessed the secret of its wonderful tonic properties, and it was sold by them for its own weight in silver.  
In 1658, eighteen years after, Sir John Talbot employed it with great success in France in the treatment of Fever and Ague, Dyspepsia, Nervous Affections, Loss of Appetite, Weakness and Debility, Palpitation of the Heart, Diarrhoea, etc. In 1679 he sold the secret of its origin to Louis XIV, by whom it was divulged. It is now the all important ingredient in Drake's PLANTATION BITTERS, and preserved as it is in pure St. Croix Rum, makes a tonic of rare merit, and one that should be upon the side-board of every family. Messrs. P. H. Drake & Co., the sole proprietors of the celebrated PLANTATION BITTERS, are the largest importers of Calisaya Bark in America. The Bark is gathered and cured under the immediate supervision of an agent sent out to Brazil, expressly for that purpose, and aside from a few thousand pounds which are sold to the manufacturers of Quinine, is all used in the preparing of these Bitters, to which they are indebted for their wonderful success as a tonic.

The above cut represents the natives in their own native forest gathering the Bark.
