No pious word—

THE CELEBRATED
LONE JACK AND BROWN DICK
SMOKING TOBACCO!
John W. Carroll,
MANUFACTURER,
LYNCHBURG, VA.
November 22, 1889.—ly.

Calisaya or King's Bark was unknown until the middle of the 17th
century. Humboldt makes favorable mention of its febrifuge qualities as
an antidote to Fever and Ague, Intermittent and Malarious Fevers, in his
extensive South American travels.

In 1640 it was used by the Jesuits, who alone at that time possessed
the secret of its wonderful tonic properties, and it was sold by them for
its own weight in silver.

In 1658, eighteen years after, Sir John Talbot employed it with great
success in France in the treatment of Fever and Ague, Dyspepsia,
Nervous Affections, Loss of Appetite, Weakness and Debility, Palpitation
of the Heart, Diarrhoea, etc. In 1679 he sold the secret of its origin
to Louis XIV, by whom it was divulged. It is now the all important
ingredient in Drake's PLANTATION BITTERS, and preserved as it is
in pure St. Croix Rum, makes a tonic of rare merit, and it that should be
used by the side-board of every family. Messrs. P. H. Drake & Co., the
sole proprietors of the celebrated PLANTATION BITTERS, are all used in
the preparing of these Bitters, to which they are indebted for their
wonderful success as a tonic.

The above cut represents the natives in their own native forest
gathering the Bark.
