THE ST. JOHNS HERALD.

O. E. OVERSON,
EDITOR AND MANAGER.

A new compilation of captures and surrenders in the Philippines, covering the period from May 10 to June 18, 1901, shows that eight officers and 352 men of the insurgent forces were captured, and 181 officers and 2,440 men surrendered, making the total number of insurgents captured or surrendered up to June 18 last 41,028.

In connection with Mr. MacLay's criticism of Schley's famous loop, it is pointed out that the Olympia made no less than five loops in the battle of Manila, in each of which she "turned tail and ran away" from a distance of something over a mile from the enemy to a distance of over three miles, and, in addition, that she actually scammed over to the other side of the bay in the middle of the fight and pumped up fresh courage by the aid of a pusillanimous breakfast.

MEANWHILE, extraordinary tales are told of the fertility of the lands in question. For instance, a real estate man, who proposes to locate there has this to say: "Corn? Say, Kiowa corn is a wonder. You can hear it groan any night from growing pains. The sound of these groans at midnight, mingled with the coyote howls, makes a strange chorus that frightens the tenderfoot at first. It did me. The Indian on my place lost a promising son last year. The young buck was on a ladder that leaned against a stalk about 25 feet from the ground. He was lowering a medium-sized ear of corn with a rope, when he fell and broke his neck."

The Governor at Ft. Apache.

Gov. Murphy's hunting party, which is now in the northern part of Gila county. While hunting came upon a family of bears and the governor killed the Bruin, a bear weighing four hundred pounds. The meat will be taken to Ft. Apache where a hunting dinner will be had. The hide will be prepared for a rug in the governor's office.

THERE are folks who delight in gossiping about other folks, especially of those that stand higher in life, socially, financially and in every other respect. They are like the fox that did not notice her own tail, but found fault with that of her neighbor. There are some of this people living not over 1,000 miles from this town, that would do themselves a great favor by making a little change in their tactics. Thus they would probably be better appreciated by a community that cannot help it but look upon these lovers of gossip as they doupon a carnivorous hyena. If the shoe fits wear it.—Ex.

MANILA, Aug. 15.—Second Lieut. Walter S. Grant of the Sixth cavalry, while scouting with a detachment near Taal, Batangas province, has made what the military authorities consider to be the most important capture since Aguinaldo was made prisoner. Grant captured Col. Martin Cabrera, his adjutant and six other insurgents. Cabrera had been growing in power for some time. He controlled all the insurgents in southern Batangas and also those westward of the city of Batangas.

Another Negro Burned.

Stood Firm to the Last.

Savannah, Ga. Aug. 16.—Eighteen miles south of Savannah the charred trunk of the body of Joe Washington, the negro assailant of Mrs. J. J. Clark, is all that remains to tell the story of the tragedy of last night. Washington has been positively identified by Mrs. Clark. The proof of guilt was conclusive, and includes circumstances that scarcely can be hinted at in print. The negro walked to his death without a tremor. He admitted his guilt of other crimes, but stubbornly refused to acknowledge that he had assaulted Mrs. Clark. A crowbar was driven into the earth, and to this the man was bound in a sitting posture, his legs extending straight in front of him on either side of the bar. A chain held him fast around the waist, while a heavy rope encircled the bar and his neck.

The leaders of the mob asked Mrs. Clark to apply the torch to the pile, but she refused. Her husband was selected in her stead. Washington looked straight into the eyes of Clark as the latter stooped down to apply the torch. The wood was rich fat pine, and saturated with kerosene oil. The flames leaped toward Washington's body. He showed in his face no sign of the terrible agony he must have suffered and met death without a groan.—Ex.

With a bullet in brain this boy still lives.

BALTIMORE, August 7.—Little Samuel Appleby, with a bullet hole thru his brain, lives at the City Hospital, furnishing a remarkable case.

Little Samuel was the victim of a stray shot fired by one of a party of young ladies who were target-shooting at Miss Amber Holiday's home. The child was hit almost over the ear, the bullet passing thru what is known as the "silent area" of the brain and making an exit on the other side at a directly opposite spot from the point of entrance. Not an artery was ruptured, and there is about an even chance that the lad will recover. Dr. Stick, of the City Hospital, said this morning:

"If the bullet was clean the boy may live. Before entering the head the shot passed thru the hat and the hair, and was probably cleaned of powder and other substances that usually cling to bullets.

Electrical Storm.

George Hochderfer, who was in this week from the Hart ranch, reports a severe electrical storm in that neighborhood. During the storm Mr. Hochderfer was within a few yards of a tree which was struck. He first saw the flash of lightning apparently about three quarters of a mile away, coming thru a pass in the mountains. It looked like a huge ball of fire, and it bounded along close to the earth. It seemed to be coming straight for Mr. Hochderfer, but luckily for him the tree intervened and received the shock. The lightning struck the tree about 50 feet up, and tore a jagged groove, circling around the trunk, from that point to the root, where it tore a hole in the ground three feet deep.

A Mexican shepherd was sitting under a tree a short distance away. The shepherd noticed that his sheep were bunching around the trees for shelter, and got up to scatter them. He had not gone a dozen steps when lightning struck the tree under which he had been sitting, snapping it off four feet from the ground. Altho the tree was four feet in diameter, Mr. Hochderfer says there was not a piece of the tree left as large as a man's body.—Coconino Sun.

The Code Coming.

Secretary Stoddard yesterday received information from Publisher Ed Stephens of Missouri, the publisher of the Arizona code, that the work had been completed and that the books had been shipped on July 30. There is a full carload of them. A son of Mr. Stephens will arrive here in time to direct the unloading and removal of the books. The freight on them will amount to \$500. It has been announced that the code will be sold for \$2.50 per volume, that was an error. The price will be \$5.—Phoenix Republican.

A worthy Successor.

"Something New Under The Sun."

All Doctors have tried to cure CATARRH by the use of powders, acid gass, inhalers and drugs in paste form. Their powders dry up the mucus membranes causing them to crack open and bleed. The powerful acids used in the inhalers have entirely eaten away the same membranes that their makers have aimed to cure, while pastes and ointments cannot reach the diseases. An old and experienced practitioner who has for many years made a close study and specialty of the treatment of CATARRH, has at last perfected a treatment which when faithfully used, not only relieves at once, but permanently cures CATARRH, by removing the cause, stopping the discharges, and curing all inflammation. It is the only remedy known to science that actually reaches the afflicted parts. This wonderful remedy is known as "SNUFFLES THE GUARANTEED CATARRH CURE" and is sold at the extremely low price of One Dollar, each package containing internal and external medicine sufficient for a full month's treatment and everything necessary to its perfect use.

"SNUFFLES" is the only perfect CATARRH CURE ever made and is now recognized as the only safe and positive cure for that annoying and disgusting disease. It cures all inflammation quickly and permanently and is also wonderfully quick to relieve HAY FEVER or COLD in the HEAD.

CATARRAH when neglected often leads to CONSUMPTION—"SNUFFLES" will save you if you use it at once. It is no ordinary remedy, but a complete treatment which is positively guaranteed to cure CATARRH in any form or stage if used according to the direction which accompany each package. Don't delay but send for it at once, and write full particulars as to your condition, and you will receive special advice from the discoverer of this wonderful remedy regarding your case without cost to you beyond the regular price of "SNUFFLES" the "GUARANTEED CATARRH CURE."

The U. S. Civil Service Retirement Association, an organization formed a year or so ago, to secure Congressional legislation, for the retirement on half pay, of aged infirm and incapacitated civil employes of the government, without expense to the government, has recently been reorganized and now seems in a fair way to accomplish something

A communication declaring war against the U. S. has been received at the War Department, but no call for troops has been issued and no excitement is visible in Washington. The letter, which was mailed at Chicago, and which might have been written by Dowie, reads as follows:

"To the Government of the United States:

"In the year 1898, the God of This Earth fought a battle against Spain with the use of the United States Army and Navy under the command of the Almighty God of Heaven. The government officials of America, altho well aware of that, undertook to rob the Almighty God of the honor of the battle and induced their servants to turn down the holy person of the God of This Earth and brand him a liar and lunatic and deprive him of every means of making a living in this country, which, in all is a conspiracy against the government of the Almighty God of Heaven. Therefore, the government of Almighty God is compelled to Declare War! against the United States of America and punish that gang of Conspirators as they deserve. As Supreme Ruler of the twenty-fourth oldest race, I have raised my Godly Government flag over the International flag of the twenty-fourth oldest nation. Yours,

God of This Earth.
Representing the God of Heaven."

Possibly there will come a time when great battles will be fought without noise, at any rate, there are men who think so. There has been several proposals by alleged inventors looking toward the manufacture of a noiseless or soundless powder, but they never amount to anything. I do not think it is possible to produce such an article. All explosions produce concussion, and concussion produce sound waves.

A Jerseyman who went out for a pleasure drive with his sweet heart not long ago received a needed tho rather severe lesson on the necessity of being humane to animals in this day and generation. It was a very hot day, and when the drive was about half over the horse became balky. The driver there upon lost his temper and gave the animal an unmerciful beating. Then the trouble began. A constable saw him and promptly arrested him for cruelty to animals. He was unable to pay the money, and his companion settled the business for him. Then she went home, and wrote him a note and this was what it said:

"When a man will so brutally beat a horse and so easily lose his temper, a woman marrying him would take the chance of the same treatment.

And the rest of the note released him from the engagement. Most people will be of the opinion that the young lady in question did exactly what was right, and that she was fortunate in discovering the disposition of her fiancé before instead of after marriage.

Some men have an idea that women rather admire those who are capable of cruelty. These men are trying to fit sixteenth century ideas into twentieth century civilization. It cannot be done. It is true that women admire a brave man, and often the man in question is a soldier or a hunter, but there is a very fine distinction between the brave man and the man who is ever ready to inflict pain. What the modern girl sees to admire in the soldier is not his willingness to shoot other men, but his readiness to be shot himself; not his murderous impulses, but his sacrifice of personal safety. The kind of woman who would like a man better after seeing him act cruelly toward a helpless animal is not fit for a civilized country.
