

GAINING VOTES.

"Lining Up" Delegates to the Republican Convention.

A Break for Markham in the Banks of the Sacramento Continent.

Solid Phalanx from the South—Activity at the Headquarters of the Leading Candidates.

Special Dispatches to THE MORNING CALL.

SACRAMENTO, Aug. 11.—The only topic of conversation among the delegates to-day has been the fight for the nomination for Governor, and so far as can be judged at present the matter is crystallizing rapidly. The various delegations are being "lined up" by the supporters of the different candidates. The Markham lieutenants, prominent among whom are General Sheehan, Samuel Thornton, C. F. Bassett, Major Dan Burns, General Johnson, Major Bonebrake, Henry T. Gage and Judge Carpenter, are hard at work and claim that their fight is in better shape than at any time since the campaign opened.

MARKHAM GAINING VOTES.

As indicated in these dispatches yesterday Markham is gaining votes, and the reported break in the Sacramento delegation is now an assured fact. It is probable that at the least calculation seven of the twenty-two delegates are in line for Markham. The adherents of the latter claim that they hope to still further divide the delegation. Editor Horrell is doing all he can for the Morrow interest, but says that he will not sit in the convention. A proxy has been offered him, but he claims that he cannot accept in view of the fact that the nomination may possibly nominate a man whom he could not support. Of course he refers to Markham, but his utterances in the matter carry but little weight, as the animus of the attacks which he has made are so potent to all that no one pays the slightest heed to his disreputable utterances. On the contrary, his opposition has had the tendency to make friends for Markham among the men who are familiar with Mr. Boruck and his political career.

BADLY AT SEA.

The plan which the Federal officials had mapped out for the organization of a "bread and butter" party, and which was intended to be a counterweight to the influence of the Markham faction, has been abandoned. It was found that the goods could not be delivered in time before the Morrow fight, in fact, it is the greater part of its strength is of such a nature that it cannot be relied upon to do anything that those supporting it will not obey the dictates of its managers, and when they see that the Markham faction is making a move to go to Markham, there is a feeling among them that "dark horses" will be out of the race, and that they will probably be obliged to spring one on the convention.

GRAND ARMY REUNION.

Enthusiastic Reception of the Presidential Party in Boston.

BOSTON, Aug. 11.—Grand Army week opened here with bustle and excitement. The grand army of the Republic, as it is called, is the National Council of Administration was held with closed doors. The resignation of W. H. Sawyer, member from Oregon, was accepted, and Secretary John E. Lombard was elected in his place. The great arrival of the day was the Nebraska train of fifteen coaches, bringing the grand army of the Republic, and the State department headquarters, which interest centered in the thirty-year veteran, who is the only survivor of four prisoners—Andersonville, Libby, Savannah and Millville.

AT BATTLE IN FIGURES.

By a mistake of the telegraph company these dispatches were made to say last night that Colonel Markham had sixty followers who would go down with him to defeat. This should have read 100, as the latter is the correct figure. The number of his strength in the convention, which they stand by, is being increased tenaciously as did the old guard of 300 who went down with General Grant at Chicago in 1860. The delegates from the latter will divide them, and they will stand out if necessary to the bitter end.

MANY REPRESENTATIVE MEN.

There was never such a convention before in California, not only from point of numbers, but also from the character of the majority of the delegates sent from the different counties of the State. A great number of the delegates were heard of, and as a delegation from the latter section of the State, which includes in their number the best element of the Republican party.

A SOLID PHALANX.

Markham's lieutenants in banks and stores are in a state of great activity, and are making every effort to secure the support of the voters. They are not only making every effort to secure the support of the voters, but they are also making every effort to secure the support of the voters. They are not only making every effort to secure the support of the voters, but they are also making every effort to secure the support of the voters.

AWFUL TORTURE.

Atrocious Treatment of a Captive by Arabs.

Forced to Eat Portions of His Own Flesh Which Had Been Cooked.

Twenty-one Persons Killed by a Demolition of a Building by Wind in a German Town.

Special Dispatches to THE MORNING CALL.

LONDON, Aug. 11.—An engagement has taken place between a force of rebel Arabs and the army of the Sultan of Morocco. One hundred and twenty prisoners were captured by the rebels and all massacred. Among the captives was the son of the Governor of the province in which the fighting took place. Portions of his body were cut off while he was alive and roasted. He was then compelled by the leader of the rebels to eat his own flesh.

DIVIDING THE CONTRY.

The Agreement Between France and England Regarding African Territory.

LONDON, Aug. 11.—In the House of Lords today Salisbury stated that the English agreement with France maintained the rights and privileges of the missionaries in Madagascar, and insured the freedom of religious teaching. Under the modern doctrine of "Hinterland" France claimed the countries south of Algeria and Tunisia, and on the same principle the English Niger company could claim the territory behind its present sphere of operations. It was obviously desirable to draw a line separating the English and French spheres of activity. The line agreed upon gave the large part of the western Sudan to the English. The country north of Lake Chad, including the Empire of Sokoto, the country north of Lake Chad, including the Empire of Sokoto, the country north of Lake Chad, including the Empire of Sokoto.

AN UNEXPECTED FACTOR.

SACRAMENTO, Aug. 11.—At a late hour it was stated on good authority that some one connected with the railroad company had issued their orders and the benches have been taken down. It is claimed that the power that struts, the edict went forth late to-night, and the result was that the benches were taken down. The benches were taken down, and the result was that the benches were taken down. The benches were taken down, and the result was that the benches were taken down.

TERRESTRIAL STORMS.

A Building at Creffield Demolished and Twenty-one Persons Killed. BERLIN, Aug. 11.—During a storm at Creffield today a house containing fifty inhabitants fell and thirteen persons were killed. Twenty other persons were injured. The wind was so strong that it blew the roof off the house, and the walls fell in places. A SERIOUS DIFFICULTY.

Mormons in the Northwest Territory Corrupting the Indians. OTTAWA, Aug. 11.—Advices received by the Government from Southern Alberta, Northwest Territory, are to the effect that the Mormons who came into that territory from Utah are corrupting the Indians with their doctrines. The Government has refused to supply them with more than one wife, but the Mormons are insisting on the right to have as many wives as they please. SUNK AT SEA.

Loss of the British Steamer Halyon and Thirteen Lives. LONDON, Aug. 11.—The British steamer Halyon, which was bound for Vigo, Spain, was sunk at sea. Thirteen persons were drowned. The steamer was carrying a cargo of coal and other supplies. The cause of the disaster is not yet known.

EMPEROR WILLIAM'S PROCLAMATION.

BERLIN, Aug. 11.—In the proclamation upon the formal taking over by Germany of the island of Heligoland yesterday Emperor William I. says he welcomes the reunion of the island with the Fatherland, and he promises protection and the utmost care for the inhabitants of the island. The proclamation further says that the local laws and regulations shall remain in force, and that the island shall be administered as a part of the German Empire.

DEATHS FROM CHOLERA.

CAIRO, Aug. 11.—Yesterday there were 126 deaths from cholera at Jeddah and 108 at Mecca. MADRID, Aug. 11.—Nine new cases of cholera and seven deaths are reported at Villavieja yesterday; six new cases and seven deaths at Argeles. There is a slight decrease in the number of cases, but the outbreak there have been 1000 since there, 788 of which were fatal.

Clarkson Thought to Favor the Property on Howard Street.

The State of Nevada Ceded Another List of Land—Dispute Over Irrigation Matters—Moore's Retirement.

Special Dispatches to THE MORNING CALL.

WASHINGTON, Aug. 11.—Mr. Morrow tried to have a conference of the Secretary of the Interior, Postmaster-General and Attorney-General on the San Francisco Postoffice site, but did not succeed in getting them together. It is learned that Mr. Clarkson's first choice is the Howard street property, and it will probably be secured by condemnation. This information comes from a most reliable source and corroborates a dispatch published a week ago exclusively by the California Associated Press. It is learned that although Mr. Clarkson leans toward the Howard street lot, his report will speak very favorably of other locations, but as the Commissioner who was sent to San Francisco to examine the different sites of the proposed postoffice building is still in the city, it is altogether likely that it will be chosen. Although Postmaster-General Wannamaker is in favor of the Howard street site, he insists that there ought to be "lots of room," and that the Government should purchase the Mission street property "no matter what the cost."

THE CHILEAN REPUBLIC.

An International Railroad Regarded With Great Favor. WASHINGTON, Aug. 11.—The Department of the Interior has received a report from Chilean Minister Egan, enclosing a copy of the annual message of the President of that country to the National Congress together with a report on the proposed international railroad project. The report is highly favorable to the project, and the Chilean Minister is confident that the project will be carried out. The project is to build a railroad from Santiago, Chile, to Los Angeles, California, and it is expected that it will be completed within a few years.

THE SALMON CATCH.

The Run in British Columbia Said to Be Fully Equal to That of Last Year. WASHINGTON, Aug. 11.—The Canadian Minister of Marine and Fisheries has received a telegram from the department office of British Columbia saying that the run of salmon in that province is fully equal to that of last year. The run is expected to be the largest in the history of the province, and it is expected that it will be carried out.
