

LONDON'S EXECUTIVE

Joseph Savory Installed as Lord Mayor.

The Ceremony Attended With All the Accustomed Pomp.

A Banquet Given in the Evening to the Ministry—Salisbury's Opinion Regarding the Recent Elections.

Special to THE MORNING CALL.

LONDON, Nov. 10.—Joseph Savory was today installed Lord Mayor of London with all the customary pomp attending the ceremony. The weather was fine, and large crowds lined the streets. A number of survivors of the Crimean War and Naval Brigade took part in the parade, and were highly cheered. The allegorical cars, especially those representing the colonies, were also cheered.

This evening the Lord Mayor gave the customary banquet to the Ministry. Secretary Stanhope, replying to the toast of "The Army," announced that the regular troops would be armed with new magazine rifles early next year.

Salisbury, in replying to the toast "The Government," said he regarded as a good omen of peace the fact that the Czar, who was about to visit India as the guest of the Queen. Although the dispute with Portugal had not been settled, the arrangements as matters with France and Germany, still the position did not justify any sinister apprehensions. Referring to the tariff law, he said that the McKinley tariff law certainly did affect some portion of British commerce. Free-traders could rejoice over the recent electoral victories in the United States as a victory against extravagant and utterly selfish protection. But they must not draw conclusions from the fact that the McKinley tariff law is a step towards the prospect of prohibitive tariffs. England had no retaliating scheme, as she had reduced her own tariff to the lowest point.

WASHINGTON, Nov. 10.—On October 22, 1875, Milton S. Latham made a mineral application for the Buchanan copper mine in the Stockton Land District, Cal., and on March 13, 1876, made a mineral entry thereon. On June 17, 1883, B. F. Hook and D. M. McIntyre filed a protest against the issue of a patent on said entry and a hearing was ordered, at which evidence was adduced sufficient to show the local officers that the application and entry were made by Latham in behalf of the London and San Francisco Bank (Limited), a foreign corporation organized and existing under the laws of England. They therefore held the entry to be made in contravention of Section 2319, Revised Statutes. An appeal was taken and acting Secretary Chandler says: It appears beyond all doubt that Latham made said entry in behalf of said foreign corporation. In the bill of said foreign corporation, it is alleged that the Buchanan copper mine is situated in the State of California, and that the same is owned by the London and San Francisco Bank (Limited), a foreign corporation organized and existing under the laws of England.
