Consultation Between Secretaries Noble and Proctor and the President.

WISE PRECAUTIONARY METHODS.

Settlers Badly Frightened by Roving Sioux-Rumors of an Outbreak in South Dakota Pronounced Groundless-The Ghost Dances at Sitting Bull's Camp Stopped. Reported Fight Between a Band of Indians and Mexican Troops.

Special to THE MORNING CALL.

WASHINGTON, Nov. 22.-The War Department has authorized the number of Indian scouts in the division of Dakota to be increased by 500 men. They will be selected from the Indian police and other disciplined Indians. Major-General Schofield this afternoon said every hour that passed without an outbreak brightened the prospects of a peaceful settlement of the pending disturbance. Secretaries Proctor and Noble were in consultation this afternoon with the President, who manifested much interest in the subject, and decided that two regiments of cavalry be sent to Pine Ridge from Arizona and New Mexico. Dispatches from General Miles state that the separation of friendly and turbulent Indians is proceeding rapidly at Pine Ridge. General Brooke anticipates no immediate trouble, and thinks the separation will make an easier task of restraining the turbulent Indians from overt acts. Telegrams received confirm the reports that the Messiah craze is rapidly extending north and across the Canadian line under the operation of Sitting Bull's emissaries. WISE PRECAUTIONS.

A Washington paper yesterday quoted a 'prominent officer" at the War Department as saying that General Miles was trying to create a big Indian scare and glorify himself by suppressing the alleged "Indian hostilities" in the Northwest, thereby setting up a little boomlet for the Presidential nomination in 1892. This paragraph was telegraphed far and wide by Washington correspondents. An army officer said to a California Associated Press correspondent to-day: "I have recently been to the Pine Ridge Agency and other agencies in Dakota where the Messiah craze exists and I have little doubt that it is, or certainly has been, the subject of very thorities. It is well known that the strength of these Indians among whom the craze prevails is very great, there being altogether 6000 or 8000 warriors, and although they could probably be defeated by the troops. yet before then there would be tremendous damage done to the property of the country, without speaking of the loss of life. So much attention has been attracted to the danger that the President telegraphed General Miles over his own name to take all necessary precautions. The experience which General Miles has had with these Indians has given him a thorough knowl edge of their character, and he was especially chosen on the Cheyenne commission or account of his peculiar fitness and knowledge. From the time of the Custer massacre to the final surrender of all the Sioux he was the most prominent, and several thousand Indians were killed, captured or forced to surrender themselves through his efforts. It seems singular that any army officer should make such a statement as that General Miles is endeavoring to overrate this affair, or that his wise methods, which have received the sanction of the War De-partment, and were directed by the Presi-dent of the United States, should cause him to appear in a political role. Such an inference can only be actuated by a cowardly and envious spirit, which I am glad to say rarely exists in our army. It is strange that a man with the record of General Miles, both during and since the Civil War, should thus be attacked by an officer. That he should be mentioned in the role of a Presidential candidate is nothing extraordinary, as nearly all of our most noted soldiers — particularly Grant, Sherman, Sheridan, Hancock and Logan—have been heaven to feether the state of the brought forth by the people on account of their services and prominence."

ALARM OF SETTLERS.

MINNEAPOLIS, Nov. 22.—The Tribune's Aberdeen (S. Dak.) special reports indicate that the Indian scare is general ali along the east side of the Missouri River, north of Pierre to Mandau. The settlers are becoming very much alarmed and fleeing to towns, leaving most of their possessions behind them. At Gettysburg there seems to be the most excitement, and Governor Mellette has gone there to-night swith a large supply of arms and ammunition, hoping to quiet alarm. Telegrams were received by this afternoon from several points, asking assistance. Dispatches from the commanders of Forts Yates and Supply say everything is quiet. It is evident most of the alarm is groundless.

FRIGHTENED BY ROVING INDIANS. special to the Tribune from Mandan. N. Dak., says: Settlers have been coming into Sims, forty miles west of here, all day, roving bands of Sioux having scared them. More guns were shipped to-night. A dispatch from Fort Keogh states that the Twenty-second Infantry leaves Keogh Monday morning for Fort Lincoln. It is reported at Keogh that troops from Ellis and Missoula received similar orders to be ready for active work in North Dakota. The actions of the Indians satisfy everybody that grave danger exists of an outbreak in the spring, if not before. Parties in to-day from Mercer County report insolent behavior of Indians

UNFOUNDED RUMORS. A Bismarck special to the Tribune says The Indian scare in this section is subsiding. A dispatch from Governor Mellette of South Dakota to officials in Bismarck says there is no foundation to the rumors of Indians crossing the river into Campbeli County, and all rumors of an outbreak in South Dakota are groundless. The danger now is believed to be at Pine Ridge and other Southean agencies.

STOPPED THE DANCES. A Standing Rock Agency (N. Dak.) special to the Tribune says: Major McLaughlin's visit to Sitting Bil's camp had the effect of stopping for a time at least the ghost dances. McLaughlin received a letter from Bull yesterday, who says he has taken his friend's advice and stopped the dances. Bull's child is very sick, or he would come to the agency to-day to draw rations. It is reported here that Bull's followers are growing less here. that Bull's followers are growing less because the Messiah has not appeared, and that discourages the chief. The agent thinks there is no possibility of trouble here at present, and there may not be this winter or spring. He is working hard on the Indians with a corps of able assistants, and makes strong arguments against the craze. The people on the east side of the river are fleeing for their lives with no one in pursuit.

The excitement is all unwarranted. The report of a massacre forty miles south is be-heved to be unfounded.

DEFIANT INDIANS. Омана, Nov. 22.-А special to the Bee from Pine Ridge Agency says: Two of the most reliable scouts in the Government employ reported to General Brooke last night that 150 lodges of Wounded Knee fanatics, including some of the most desperate and transparency readskips in this rest of the including some of the most desperate and treacherous redskins in this part of the country, have moved to White River, twenty miles north of here, and have again begun the "ghost dance" in a wilder manner than has been known thus far. The scouts talked with several of the leaders, and all declared they would shoot any Government officials or soldiers who attempted to suppress the dance. This is by far the most menacing news that has come to General Brooke since his arrival. All the Indians in these 150 ledges are armed with Winchesters. these 150 ledges are armed with Winchesters, navy revolvers and knives, and have large quantities of ammunition and provisions, and are receiving heavy re-enforcements hourly. General Brooke received a telegram

from General Miles last night, giving him power to call just as many more troops to this point as he deemed expedient.

Some of the scouts and Indian police sent out Thursday to notify the non-dancing faction to move into the agency until the trouble is settled have returned. They report the friendly Indians are willing to come in and some here already done so. It is in, and some have already done so. It is believed all will be in by Sunday night.

The dangerous work of bringing the disturbers to time will begin Monday morning. General Brooke has received an intimation that the War Department will certainly interest the suppression of the webset. sist upon the suppression of the "ghost dance" at all hazards.

Both the commandant and the agent were greatly chagrined and nettled at learning last night that another lot of some 300 Rose-

bud warriors had put, in an appearance, as if they had arisen out of the earth, only twelve miles northeast of here, and were These all have Winchesters and are loaded down with ammunition.

A special to the Bee from Pine Ridge Agency says Census Enumerator Lee, who arrived this morning from a trip through the more distant parties of the agency is

more distant portions of the reservation, is of the opinion that the ghost dances will result in trouble before many days. The settlers on the borders of the reservation, he says, are fleeing out. General Brooke is non-committal but evidently much troubled. He says, are neeing out. General brooke is noncommittal but evidently much troubled. He
thinks the crisis not far away. Agent
Royer received a communication from Little
Wound, the high priest of dancers, in which
the chief says he wants to know what the
soldiers are coming for. "The dance is a
religious one," said he, "and we are going
to keep it up until spring. If we find Christ
does not appear we will stop, but not inthe meantime, troops or no troops." He
announced that he would start another
dance at Medicine Root Creek to-morrow
morning. He said he had been informed
the soldiers would stop their rations. He
don't care, he says, as what they get don't
amount to anything, but if such is the case
he wants to know, so his people wont have
the trouble of going to the agency. He concluded with an emphatic reiteration that
they would not stop dancing. Dr. Royer has
not yet replied.

WARNED BY THE SIOUX.

MANDAN (N. Dak.), Nov. 22.—Sheriff Burgenheimer this morning received a telegram from Sims, a town forty miles west, stating that the people were coming in from Muddy and Heart rivers, having been warned by the Sioux to look out for themselves. The Sheriff shipped forty guns to Sims and He-

Captain Halloran, the commanding officer at Fort Abraham Lincoln, maintains that there is no ground for alarm.

INSTRUCTIONS TO AGENTS. INSTRUCTIONS TO AGENTS.

WASHINGTON, Nov. 22.—Acting Indian Commissioner Belt has sent a circular to all the Indian agents, except the agents of tribes in Dakota, in regard to the "ghost dance." He says: "It is very important, in view of the tendency of such excitement, to obtain a general hold upon the Indians and that this office be kept advised as to the condition of affairs at each agency, with the view to the adoption of all proper precaucondition of affairs at each agency, with the view to the adoption of all proper precautionary measures to prevent an outbreak of Indians and enforce obedience by them to all the regulations of this department. You are therefore instructed to keep this office fully posted, by letter or by telegraph, if the emergency should require."

UNDER CONTROL. Acting Commissioner Belt has received the following telegram from Agent Dixon:
"The Indians at Crow Creek and Lower Brule are under good control. We have had three leaders from other reservations under arrest at Crow Creek and discharged them under their promise of good behavior. The Indian police is sufficient protection under the present indications. There are no Indians away from this reservation, so far as the police can ascertain." REPORT DENIED.

said to-day that he had received no notificasaid to-day that he had received no normal tion from the War Department regarding troops for the Indian country, as reported last night. He also said he thought there was no danger of an uprising. CANADIAN INDIANS. OTTAWA, Nov. 22.-An Indian rising is

not anticipated in the Canadian Northwest, although ugly rumors are affoat. The mounted police force of 1000 men is capable of quelling any revolt. A patrol is being maintained along the boundary. A FIGHT IN MEXICO. SAN ANTONIO (Tex.), Nov. 22.-A gentle-

man who arrived here to-day from Chihua-hua, Mex., states that a band of the Seris tribe of Indians of Sonora recently attacked a detachment of troops stationed on the frontier, and in the battle that ensued sev-eral Mexican soldiers and four Indians were killed. He states that the Seris savages are cannibals.

KOCH'S RIVAL.

A New York Physician Claims to Have Used Lymph for Years. NEW YORK, Nov. 22.-Dr. Lester Miller, a cousin of Senator Warren Miller claims to have discovered a lymph for the cure of consumption several years ago. He says: 'The only reason my discovery has not become generally known is because I did not have the funds to push it, but I have continued to use it on all my consumptive pa-tients. In preparing my virus, the system differs somewhat from that employed by Koch. My method, in brief, is to take virus from an animal affected with genuine tuberculosis, and by a special cultivation, the details of which I do not care to disclose now, I prepared it something after the manner in which the vaccine used to prevent smallpox is prepared. I introduce the virus into a consumptive with a hypodermic syringe, and its effect is the same as that which Koch claims for his lymph, which is to kill the microbes which have fastened themselves to the lungs. I do not claim to be able to effect an entire cure if the microbes have been allowed to mutilate the lung, but until the disease has advanced to this stage I do claim to be able to effect an entire cure.

MINERS' DEMANDS.

Eight Hours a Day and Without a Reduction in Wages MINNEAPOLIS, Nov. 22 .- A Butte (Mont.) special to the Tribune says: The Miners' Union has demanded a reduction of work to eight hours a day, with no reduction in wages. The union is one of the strongest in the country, with a membership of 5000, and working a force of over 3000. Employers prevails. will reply Monday.

Heavy Stock Investments. NEW YORK, Nov. 22.—The following is published: Jay Gould is again the master spirit in Wall street. Recent events in the great speculative centers have revealed his unmistakable presence and influence. The great financial depression brought the values of corporate securities down to a very low level. Gould believes great profits can be made in purchasing securities at existing prices, and his belief and his restored health are causes for his return to Wall street. From reliable information it is learned that Gould within one week expended \$10,000,000 in the purchase of stocks. There is no telling to what length Gould will continue his

Threatened Strike. NASHVILLE, Nov. 22 -- Six thousand coalminers and nine-tenths of all the miners in

Alabama will probably go on a strike. Representatives from every mine in the State have been in session here the present week three days, and they demanded an increase of wages, to date from December 1st. The demand has been refused by all the mineowners, and a strike seems certain. Last July the miners signed a twelve months' contract. They now propose to break it. An Insane Delusion.

NEW YORK, Nov. 22.-Caroline Taylor, who arrived from Seattle a bw days ago, is still at Bellevue Hospital, suffering under the delusion that she is under somebody's hypnotic influence. She says she has not been troubled so much here as in the West by her termentors, and that only occasionally her ghostly enemies dare molest her.

A Prospective Excursion. THE CURE OF TUBERCULOSIS.

Experts Agree That Koch's Remedy Is Uncertain.

Fully a Year of Constant Treatment Necessary to Establish Its Merits.

A War Cloud Dispelled by the Prompt Action of the Triple Alliance - Kutno Railway Murder.

BERLIN, Nov. 22.-The bestowal by Emperor William of the Grand Cross of the Order of the Red Eagle upon Professor Koch was gazetted to-night. This is the first time this decoration has been bestowed upon any one who did not possess the preceding classes of the order. Though confidence in the ultimate value of Koch's discovery does not abate, public disappointment over the immediate results of the treatment grows daily. Professor Koch's assistants and others estimate that 17,000 cases have already been-treated, the greater number of whom are suffering from exterior tuberculosis. There are comparatively few cases of tub ercles on the lungs.

Experts are beginning to concur in the opinion that the cure of this disease is uncertain. Professor Koch blames the press for raising exaggerated hopes of instant benefit in every form of tuberculosis. Many physicians are expressing opinions. Some say the possibility of the cure of lupus alone has been proved, and it is not scientifically established that lu; us arises from the same bacillus that is associated with lung tubercles. Dr. Uliman, an eminent authority on bacteria, says it will take fully a year of frequent injections, besides treatment under the right sanitary conditions, to enable one to form reliable opinions as to the curability of consumption, either in advanced or early

stages. The opinions expressed by others are varied, but nearly all advise conservatism until further experiments make more positive the effect of the remedy.

A crisis in the Eastern question has been sprung on the Triple Alliance by the sudden adhesion of the King of Greece to a project to foment openly and assist a rising in Crete simultaneously with risings in Epirus and Macedonia. Chancellor von SAN ANTONIO, Nov. 22.—General Stanley, commanding the Department of Texas, the event of measures being taken tending toward war with Turkey that a Dreibund squadron would blockade the coasts of Greece and leave the Hellenic army to take solated action on land against the Turks. The decisive character of this stopped a

blaze of war over Europe. Details received regarding the railway ourder at Kutno show that when the train left Lomioz Station all the passengers save the murderers and their victims had quitted the compartment. The murderers threw a uantity of insect powder in the eyes of their ictims and dispatched one with a knife and he other with a bludgeon. The bodies were thrown out of the carriage, and the murder-

ers sprang off the train as it was slowing up. RESTLESS SAMOANS.

Dissatisfied With the Delay of the Govern-

ment. APIA (Samoa), Nov. 7.-Reports from several of the outlying districts indicate that the natives are becoming impressed with the idea that the Chief Justice appointed by the three powers under the Berlin Treaty is not coming to Samoa, and they are applying to redeem their firearms, which were pledged to store-keepers after the war for food supplies. The laws are strict against the sale of firearms or ammunition to the natives, yet the latter manage to secure both. Several minor disturbances on the outlying islands have been reported. A public meeting of the residents of Apia was held Octo ber 29th, and resolutions were adopted expressing dissatisfaction at the delay of the powers in carrying out the provisions of the treaty and establishing a permanent government in Samoa; also protesting against the further leaving as a permanent the same as a second further levying or collecting of duties or taxes until the establishment of such gov-erament, and requesting the Consular Board not to disburse or expend any further pornot to dispurse or expend any further por-tion of the public money without first con-sulting the tax-payers as to the proposed expenditure and obtaining their consent thereto. The Consuls were also requested to communicate to their respective governments by cablegram the necessity of at once establishing an effective government on the islands. United States Consul Sewall was absent at the time, being at Savari with absent at the time, being at Savari with Henry Adams, the American historian, and La Farge, the New York artist. The Ger-man and English Consuls, however, received the deputation and agreed to comply with the requests contained in the resolutions. Since then word has been received that the Chief Justice is on his way here via England and the United States, and an easier feeling

A PERILOUS JOURNEY.

Account of the Travels of Prince Henry Orleans and Party in Asia. PARIS, Nov. 22 .- A letter to the Tribune concerning the travels of Prince Henry of Orleans and M. Bonvalot in Central Asia during the past year says: The travelers made their way to the vast plateaus of Thibet, across a thousand miles of desert, at an altitude varying from 13,000 to 19,000 feet, and reached the south shore of Lake Tengrinor, a day's jurney on horseback from Lassa. Then they made eastward by a new route, and it was only at Tchang-cha that they rejoined the route formerly followed by the French missionaries.

"From Tchang-cha," says Bonvalot, "we went to Batang and by Li Tong to Ta Tsien Loo. We have traveled about 1500 miles in an unknown region nearly half the

Tsien Loo. We have traveled about 1500 miles in an unknown region, nearly half the way without a guide. We have had a terrible winter, quicksilver freezing, and we have been assailed by terrible storms, which took our breath away, which blinded us, and which made it still more trying to walk at so great an altitude. We lost some of our men and cattle and were in a constant state of apprehension. The oply combustible we had was the droppings of wild yaks and no water. For two months we made our tea with ice which was generally mixed with sand and earth. mixed with sand and earth.

"Every one of our camels and horses died of fatigue, thirst and hunger. After long negotiations with the authorities of Lassa we obtained what horses and yaks we re-

quired, and made eastward, keeping to the north from Lassa to Batang." Prince Henry showed himself a good traveler, enduring and courageous. The ex-plorers came out in Indo, China and made their way to Tonquin.

GLADSTONE AND PARNELL.

An Assertion That the Former Will Be Forced to Abandon the Irish Leader. NEW YORK, Nov. 22.—In discussing the crisis into which Parnell has precipitated the home-rule movement, the London correspondent of the Tribune says that if Par-nell continues to lead the Irish party, the present alliance with the English home-rule stroyed the most valuable part of the Bellaire Stamping Works this evening. Loss, whether, if he could decide for himself whether, if he could decide for himself, Gladstone would run on with Parnell, is a matter of conjecture. But Gladstone knows well that be cannot break with the majority of his followers. He split his party in two four and a half years ago for home rule, and it will not stand being split again. It comes to this, therefore, so far as one can judge

to-day, that if Parnell remains at the head of the Irish party, the Anglo-Irish coalition PLUNGED TO AN

PACIFIC ROADS.

Future of the Northern—The Reorganization of the Union System.

NEW YORK, Nov. 22.-James Colgate, banker, is thus quoted: "I think the Rockefellers feel as I do, that the great railroad of this country is to be the Northern Pacific, and this is due to the prodigious wealth at the other end of it. If ever taken out of the hands of speculative manipulators I on the roof of an extension, bounded off and don't see why it should not become the greatest railroad property in the world." THE UNION PACIFIC.

zation of the Union Pacific system. He admitted it was true that Adams was to remitted it was true that Adams was to resign, and perhaps at the meeting to be held Wednesday in Boston. His successor had not been definitely named. Adams will also resign from the directory, leaving two vacancies, which will be filled by the election of Gould and Russell Sage. Gould's interest is not strong enough to force a reorganization, and it has not done so. The balance of power rested with Ames. The change came as the result of an amicable agreement between Adams, Ames and Gould.

The latter have since bought 50,000 for themselves and another 50,000 for Gould. We are further told Gould's holdings of Union Pacific are very much less than the current report estimates them. The Vanderbilts have bought a large block of Union Pacific under 50."

The last Evening Post says: Nothing further is learned with reference to the further is learned with reference to the resignation of Adams, but it may be ac-cepted as an authenticated fact that he intended to resign, if he has not already resigned, and his resignation will be accepted. Gould said to a reporter of the Post that "Sage, Orr and Hyde will probably be among the new Directors. No one is definitely thought of for Vice-President and

AWFUL DEATH.

Horrible Suicide of a Brooklyn Woman.

She Jumped From the Sixth Story of a Hotel While Temporarily Insane.

Important Measures Considered at a Meeting of the National Commission of the World's Fair.

Special to THE MORNING CALL

NEW YORK, Nov. 22.-Mrs. Charles Coombs of Brooklyn, a daughter-in-law of Nelly, who was recently elected Congressman from the Third District, committed suicide in a horrible manner this afternoon. She went to the Pierrepont Hotel and asked for a room on the top floor, saying she was troubled with palpitation of the heart and wanted to be away from all excitement. The manager conducted her to a room on the sixth floor. Soon after she sent for a bottle of wine and later rang for a chambermaid. When the latter entered the room the lady was standing with a wine glass in her hand. Without a word she dashed the wineglass to the floor and rushed to the window and jumped out. She turned over and over and struck with terrific force landed on a large flower urn that was standing in front of the hotel and then rolled to the sidewalk. She was dead when picked up. Her mother is in a critical condition from the shock. The suicide had been married seven years and lately suffered from ill health and was undoubtedly temporarily damented.

COMMITTEE REPORTS.

Important Messures Considered by the World's Fair National Commission CHICAGO, Nov. 22.-The National Comission to-day adopted a number of committee reports, including that of the Judiciary Committee opposing a reduction of salaries. The report of the Executive Committee on the establishment of a bureau, and of the Tariff and Transportation Committee in re-

gard to apportionment, were referred to a special committee. Another important action was the decision of the question whether or not money awards should be granted to exhibitors. Live-stock men were demanding substantial awards in cash, and threatening not to make an exhibit unless their demands were comvada introduced a resolution that the directory be asked to appropriate \$200,000 for live-stock premiums. This was carried, and immediately thereafter the report of the Joint Committee on Awards was introduced, providing that there shall be awards, to consist of parchment certificates, accompanied sist of parchment certificates, accompanied by bronze medals, to be granted upon specific points of excellence or advancement, formulated by the Board of Judges or Examiners. In the opinion of the joint committee it is eminently fitting that the Government should furnish these certificates and medals, especially in the case of foreign exhibits, but there does not appear to be any provision made therefor in the existing appropriation of Congress. The report was laid over.

Then a more complicated matter came up

Then a more complicated matter came up on the question, "What are the lady managers here tor?" After some talk the Commissioners laid the matter on the table, and the ladies left to settle it to suit themselves. The Journal says this evening that the Local Board of Directors propose to take definite issue with the National Commission on the question of jurisdiction, they not liking the special report made to the commission yesterday.

It is learned to-night that the story is true.

The Directors, acting under the opinion of eminent lawyers, have formulated a document setting forth that the direction of the work, preparing the grounds and putting up buildings are entirely within the control of the local Directors, nor has the commission any right to exercise any general or other supervision exercise any general or other supervision over the construction of the buildings or the expenditure of money connected therewith, except to require the build-ings to be constructed in accord-ance with the plans adopted. The Directors hold that the capital of the corporation is not subject in any manner to the control of the commission. It is further declared that whi e Congress confers upon the commission the power of intercourse with exhibitors, etc., it does not perclude the Directors from establishing, at home or abroad, any agency for the purpose of pro-moting the interests of the Exposition. A conference will be held with a commission

committee Monday. CALIFORNIA RAISINS.

One of the Preminent Features in the Eastern

Markets.

New York, Nov. 22.—The Commercial Bulletin says: Upward of fifty car-loads of loose California raisins in bags have been sold in the Eastern market thus far this season. The total is greater than during any previous entire season, and the move-ment may be classed as one of the promi-nent features of the market at the present time. The persistent effort of some local time. The persistent effort of some local commission firm to encourage the handling of goods in this form, by Eastern jobbers, has doubtless contributed in no mean degree to the savorable results, but the successful introduction of the carten 1-pound and 2-pound packages has played a conspicuous part. These packages have been gotten out in a seat form and attractive appearance. The best fruit has been secured, and particular care has been taken by the most prominent packers that there shall not be the slightest shortage in weight. Already unmistakable evidence is given that carten unmistakable evidence is given that carton is becoming popular with retailers in avoiding waste incidental to weighing ordinary boxed fruit and effecting a saving of time in handling.

SIBERIAN EXILES.

The Petition Assoc a ton Favor the Publication or a Pericdica'. NEW YORK, Nov. 22.—A meeting of the Bureau of the Siberian Exile Petition Association was held this afternoon, and George Kennan advocated the publication of a pe-Residual for circulation in this country and Russia as a means of bringing to public notice the condition of Siberian exiles. He considered its influence would be felt in bringing the Russian officials to a sense of their disgraceful laws. It was announced that 100,000 names had been obtained to a petition to be forwarded to the Czar, with the view to induce him to set some of the Siberian exiles at liberty.

dead, his body being crushed under the heavy iron girders. The iron girders were too heavy for the brickwork, causing a collapse of one of the walls. Men are still being taken out of the ruins. Only one person was killed, George Barrett. Twelve Italian laborers were hurt, one or two of whom will die. The broken wall was too freshly built to stand the strain of the high wind which prevailed and the weight of the timbers.

VICTORIOUS HARVARD.

Yale Defeated in a Stubbornly Contested Game of Foot-Ball.

SPRINGFIELD (Mass.), Nov. 22.—Yale and Harvard foot-ball teams met here this afternoon. Twenty-five thousand people were on the ground, and there was much excitement as to the outcome. Yale was slightly the favorite. At the end of the first half neither side had scered. Harvard scored 2 touchdowns and 2 goals in the second half, making the score Harvard 12, Yale 6, Yale securing 1 touchdown and 1 goal. Harvard won the game. The score was: Harvard 12, Yale 6

won the game. The score was: Harvard 12, Yale 6.

Both teams played like clockwork and for the first half neither were able to score, though the Yales were the aggressors with a strong wind in their favor. In the second half the Harvards forced the fighting. The Yale men fought like fiends, but the crimsons' dogged defense held them down. The Harvard boys marched through the streets rejoicing, and red fire blazed from the top of the grand stand at the very instant time was called.

For the last few weeks the Harvard team has played a strong, steady game, and in many cases has run up large scores. The men constitute the strongest team ever seen at Cambridge, simply from the fact that no at Cambridge, simply from the fact that no team was ever worked so hard. Every practice game has been fought as hard as the men were capable of working. Captain Cumnock was criticized by many when more than half the team was laid up by injuries, but the work was just what was needed. The Yale men have worked this way for years, and as a result have always beaten years, and, as a result, have always beaten Harvard, even when Harvard possessed the better material. Now that this is changed, the result at Springfield to-day was different few the support of the sup ent from that in recent years. The Yale eleven is wonderfully strong and Harvard's players have worked harder than they ever worked before.

The team has been coached by George

Adams for nearly three weeks, and nearly every afternoon Joe Sears, '89 captain and full-back of the 'Varsity two years ago, was to be seen upon the field. To Captain Arthur Cumnock, however, the greatest praise is due, for to him the University owes the excellent condition of the team.

Failure of a Great Car-Building Firm. Bank Suspensions.

BUSINESS EMBARRASSMENTS

CHICAGO, Nov. 22.—The United States Rolling Stock Company has been placed in the hands of a receiver. The liabilities are \$3,816,000jand the assets \$6,053,000. Attorney High of the company says that the failure was percipitated by slow collections and the depression in the money marker. The company is the largest builders of railway cars in the world, and has plants at Hegewisch, Ills.; Decatur, Ala.; Anniston, Ala., and Urbana, Ohio. The capital stock is \$4,000,000. The assets consists of the plant at Hegewisch, worth \$2,000,000; and the plants at the other places, which are mentioned as worth \$1,500,000. The other assets are in Car Trust Bonds, worth \$1,533,000; rolling stock leased to various railroads, worth \$300,000 due from various roads for the rent \$300,000 due from various roads for the rent \$300,000 due for the rent \$300,000 due from various roads for the rent \$300,000 due from various roads for the rent of cars. The property is put into the hands of a friendly receiver that this sum may be

realized on.

The company employs 2200 men and its cash payments to employes and for material are \$800,000 monthly. The stringency in the money market compelled the railroads which bought cars of the company to pay their bills in long-time paper instead of cash, and it has been extremely difficult to discount the rearrant. cash, and it has been extremely difficult to discount the paper.

Judge Blodgett of the Federal Court has appointed A. Hegewisch receiver. Hegewisch is the President. The Judge ordered the receiver to continue the works.

NEW YORK, Nov. 22. — Vice-President Roys of the United States Rolling-stock Company made a statement to-night confirmatory of that made by the officials of the company in Chicago to-day. He said company in Chicago to-day. He said auxiliary proceedings will be had in all the States where the company has property. All the creditors are satisfied with the arrangement for a receiver, which is to enable the company to tide over the critical point. A London committee advised it and this feeling has been fully reciprocated by the B ard of Directors in New York. CHICAGO, Nov. 22.—The private bank of W. L. Prettyman, on the North Side, closed its doors this morning. Prettyman could not be found, so no statement of the assets

and liabilities is obtainable. Many poor and habilities is obtainable. Many poor people's hard-carned savings are involved. Lyons Bros., dealers in crockery, have \$15,000 on deposit. This is believed to be the largest single loss.

This afternoon an assignment was made to the cashier of the bank, Johnson, and at the same time he was made assignee of the the same time he was made assignee of the North Division Lumber Company, in which Prettyman was the heaviest stockholder Prettyman also assigned his real and per-sonal estate. The assets and habilities of the two concerns and Prettyman's estate will reach, it is believed, \$1,000,000. Assignee Johnson refuses to make any statement of assets and liabilities either of the bank or lumber company. He said the cause of assignment was the tight money market and its bad effect on the lumber company. This concern and the bank were closely connected. One of the former depositors in the bank, however, who assert a pretty good knowledge of affairs, believe the liabilities of the bank will reach half the liabilities of the bank will reach half a million, and the assets are problematical. He said Prettyman has been speculating heavily this year in real estate and putting up houses for sale, and that the business has not proved profitable. A large number of depositors in the bank are poor people.

Wichita (Kan.), Nov. 22.—The Commercial Bank of Newton was closed to-day after a rush by depositors. The capital stock is \$75,000. No statement of affairs has been made. The Bank of Whitewater, which is a branch of the Newton and Oklahoma banks, is also closed.

The Pacific Coast Labor Union No. 1 received a report last night from its delegate to the Farmers' Alliance and Industrial Union that met last week in San Jose. The Union that met last week in San Jose. The substance of the report was that the credentials of the delegate were not received, but that the alliance took under consideration the proposition as to whether or not it would affiliate with the union, inasmuch as it is enlisted in a cause that has many common interests. The union will shortly put out its organizers and will establish new branches all over the Coast.

Fuhrman's Boycott.
The Executive Committee of the Brewery Workmen has arrayed itself against the Workmen has arrayed itself against the Trades and Labor Journal, published by Bushnell and Thurman, because of that paper's severe utterances against the committee's general secretary, Alfred Fuhrman, also President of the Federated Trades. At a recent meeting the committee levied a vigorous boycott on the paper, and decided to fine any member of the Brewery Workmen \$10 who is discovered patronizing it. Last night Branch 1 of the union held a meeting and fully indorsed the action of the Executive Committee. Executive Committee.
