Tariff Bill Reported at Last.

SENATORS TAKE A REST.

Under Protest They Adjourn Until Monday.

BLANCHARD HAS A KICK COMING.

The Sugar Producers of His State Have Not Been Properly Cared For.

WASHINGTON, June 29.—At the opening of the Senate to-day the joint resolution appointing Charles M. Anderson of Greenville, Ohio; Sidney G. Cooke of Herington, Kans., and A. L. Pearson of Pittsburgh members of the board of managers of the National Home for Disabled Volunteers was passed.

Senator Sherman's resolution of yesterday directing the Committee on Interstate Commerce to inquire into the advisability of regulating by law the use of sleeping or parlor cars was also adopted.

The tariff bill was taken up and Vest moved an amendment to the clause relating to the reciprocity feature of the McKinley bill. Agreed to.

Jones then asked unanimous consent to make a number of amendments overlooked as the bill was being considered. The amendments were agreed to as fast as read. Most of them were very important. The tariff bill was reported to the Senate at 5:45.

Senator Harris was so much under the influence of liquor to-day that he disgraced himself. His articulation was thick, his words caustic and his manner vehement. He moved to lay the Senator from Kansas on the table. The Democrats were anxious to adjourn over till Monday for reasons best known to themselves, but Harris would not consent. To humor him and prevent a scene they voted down Mander's motion to adjourn until Monday.

Afterward, in executive session, when there was no one in the galleries to observe Harris, Mander's motion was reconsidered and passed.

Senator Blanchard is making considerable trouble for the Finance Committee by his protests against the proposed changes in the sugar schedule. The Louisiana statesman is holding out especially for the continuation of the bounty for the present year. He also calls attention to the fact that the Finance Committee has backed out of its original proposition to abrogate the Hawaiian reciprocity treaty, which added the sugar product of that country to free entry and is reported as saying the sugar producers of his State would be greatly injured by the sudden reduction of the bounty as proposed by the committee. He has put forth the claim that the proposed change is in violation of the Democratic caucus agreement, and intimates in very plain language that if the changes are made as proposed the bill will not receive his support.

Senator White believes the tariff will get into conference by Wednesday. The Senate conference will probably be the Voorhes, Vest, Jones, Aldrich and Allison, if the membership consists of five, as seems probable, but if there are seven members, as in the case of the McKinley bill, Harris and Sherman will be added. It is remarked by California Senators that the representative of their State, not only the entire Pacific Coast, on the conference committee of either the Senate or the House, so if there is any disposition to change the fruit or wine schedule there will be none on the committee to speak for California.

At about midnight the flames were thought to be under control. The burned buildings were valued at \$75,000, while the value of their contents was \$1,000,000, making a total loss of \$1,075,000, said to be fully insured.

Allegations that we are in any way Villard's representatives are absolutely false. We may publish the above." DR. REISSER, Chairman first mortgage committee.

The bondholders' reorganization committee has sent this cable to Secretary Ell of the stock exchange.

HOSTILE TO SILVER.

England Not in a Hurry to Open the Indian Mints.

LONDON, June 29.—During a discussion on the closing of the Indian mints in the House of Lords this evening the Marquis of Lansdowne said the situation now was much better than in 1893, when it was known that the United States Government was about to repeal legislation which maintained the price of silver. The closing of the mints probably averted a catastrophe besides which the disturbance of the Indian trade in China and Japan sank into insignificance.

Lord Reid, in behalf of the Government, declared that it was determined not to repeal the mints until the present policy had received a full and fair trial.

NEW YORK, June 29.—In the second race at Sheepshead bay a great deal of delay was caused by Taral, who has been acting badly of late, and he received a well-merited suspension until July 4 and a \$300 fine. Many close finishes were seen, but the best was in the pony stakes, when Havoc, Prince of Monaco and The Commoner finished short heads apart. Havoc was well back, but went to the post at long odds. ARMOR PLATE FRAUDS.

All Corey Received Was Several Suits of Clothes.

WASHINGTON, June 29.—Superintendent Corey of the Carnegie armor plate frauds resumed his testimony to-day before the Congressional investigating committee. He was questioned regarding the care which the officers from the Navy Department gave to the inspection of armor work at the shops. He said that one and sometimes two officers came to the shops every day, except Sunday. They rarely came at night until after the investigation began.

Chairman Cummings asked Corey if he knew that the workmen presented a testimonial to Lieutenant Gill, one of the naval inspectors. Corey said he did not know.

Representative Talbot asked Corey if he had not made false reports on certain specified plates. He said he had omitted to furnish certain features of work to the Government officers. He disclaimed knowledge of Superintendent Cline's admission that he had changed reports in order to keep the Government officers from "fussing."

ALL ENTER DENIALS.

Lotan and Others Say Nat Blum's Story Is Not True.

PORTLAND, Or., June 29.—In the Chinese conspiracy case to-day, the defendants all took the stand and entered general and specific denials of the story told by Blum and Jackson. They also made many witnesses testify to their general good reputation and to the bad reputation of the Government's principal witnesses.

Ex-Collector of Customs Lotan denied having any conversation with Blum in his office at Willamette Iron Works. He talked with Blum in a cigar-store on First street at one time, when Blum said there was a chance to make some money by landing some Chinese. Lotan said it was his business to prevent any illegal landing of Chinese and he proposed to do his duty. He never had any agreement with Blum or with any one in connection with smuggling opium or Chinamen. No one ever said him any money for allowing Chinese to be landed.

The defense rested their case and argument will begin to-morrow.

MADAME: Although I have not the pleasure of knowing you personally I cannot refrain from writing to you and attempting to express the deep and sincere sympathy I feel for you at this terrible moment. I cannot find words to tell you how my heart bleeds for you and what horror and dismay I feel for the crime that has robbed you of a beloved husband and the whole of France of its most worthy and respected President. If universal sympathy can in any measure assuage your intense grief, be assured it is yours. May God give you the strength and courage, as well as the resignation necessary to enable you to bear such affliction.

HARNEY PEAK TIN.

Rich Englishmen Want to Know Where the Money Went.

Millions of Pounds Uselessly Squandered.

BUYING WORTHLESS PROPERTIES.

More Than a Suspicion That Some of the Gold Was Stolen.

NEW YORK, June 29.—Judge Lacombe has appointed Albert K. Latour temporary receiver of the Harney Peak Tin Mining, Milling and Manufacturing Company. The complaint accompanying the application for a receiver charges fraud against the trustees of the defendant company, Lewis May, James Finnegan, W. M. Dean, William Nelson, George Ehret, C. D. Desper, Herman Knobel, Louis D. Weber and W. L. Flanagan, the estate of Frederick W. Foote, the estate of Henry Clausen Jr., the estate of Daniel S. Appleton, Samuel Undermyer and the Farmers' Loan and Trust Company.

Complainant in the suit are Charles Fleischer, Henry L. Maud, Charles E. Danby, Edward M. Denny and John S. Falgout.

The history of the case as told by the documents is briefly as follows: The Harney Peak Tin Mining, Milling and Manufacturing Company was incorporated under the laws of this State on April 16, 1894, to do business in the Black Hills region of Dakota. The principal organizer of the company was James Wilson, and the trustees were William M. Dean, Charles Gesper, Herman Knobel, O. F. Berry, James Wilson and C. M. Field. An issue of \$5,000,000 of stock was made at once to purchase, as it is claimed, property worth only \$7,000. On January 31, 1885, a second issue of \$5,000,000 was made to O. P. Berry as trustee, and the following year a third issue of a like amount to Henry Clausen.

The English complainants afterward took part of the stock, which they now say was issued to the trustees as a blind and that books were so juggled that to make it difficult to discover the fraudulent conspiracy and gains which they allege were divided among a syndicate of stockholders.

In 1880 an agreement was entered into by Samuel Undermyer and Edward Sabine Baring-Gould, the Right Hon. Lord Curzon and the Hon. Taylor of Epsland and the Harney Peak Tin Mining, Milling and Manufacturing Company by which the Englishmen obtained 90,000 shares of stock at \$100 par value in addition to \$1,335,000. Only a small sum of money was paid, but two subsequent agreements were made by which the Englishmen were to issue £1,000,000 in bonds of an English company, giving security for the rest, which they failed to do, but £1,000,000 were put on the Black Hills property, for which stock was issued to the English company in part payment and partly as security.

Another £1,000,000 mortgage was afterward placed, and about 400 mining claims were purchased, but an attempt was made to work only twenty of them and the only tin mined according to an affidavit of George N. Hamilton was 1000 tons of ore which has never been treated. The Englishmen, who had invested over \$3,000,000, becoming suspicious, sent over agents to investigate and it is alleged, found that the American owners had put up only \$250,000 in cash for all the property. Not more than \$200,000, it is said, had been expended in working the mines and building the mills, and the English want to know where their millions went.

The books of the company were seized at 33 Wall street this afternoon and subpoenas served on the defendants.

The couple had only been married a short time. After committing the crime the negro fled, but was captured by the Sheriff's posse near a small station. He was conveyed back to Sulphur Springs, where an immense mob, after repeated attempts, secured the negro and swung him from a telegraph pole. Several hundred shots were fired into his swaying body.
