

BARRED THE BANS

Sensational Episode in a Church.

A WEDDING INTERRUPTED.

Excitement Caused by a Woman in Black.

SHE ACCOMPLISHED HER END.

The Marriage of Miss Celina Circiat and John E. Gassman Indefinitely Postponed.

A woman in black sat quietly in one of the front pews of the French church on Bush street, between Dupont and Stockton, last night, waiting to see a wedding ceremony performed.

The handsome auditorium of the church was filled with people and the pastor was awaiting in his study the arrival of the high contracting parties, who were late in making their appearance. The bride that was to be, Miss Celina Circiat, was being arrayed for the nuptial rites at her aunt's house at 735 Broadway, whence her intended, John Eugene Gassman, was to accompany her to the presence of the priest.

The woman in black sat patiently waiting. Her face was pale, but she was calm and motionless. She stayed there until 10 o'clock, when the pastor came out and announced that the wedding had been indefinitely postponed. There were about 500 people present and some excitement during the evening, but the friends of the bride and groom fled out of the church as the wedding party was about to be announced.

The woman in black had been the immediate occasion of it all, Gassman himself the primary cause. It was a story of a woman duped and a love forgotten by a man that she told after the hasty at the church.

She is known as Mrs. Gassman and claims to be the wife of John Eugene Gassman, who was about to wed the handsome Miss Celina Circiat. Mrs. Gassman said: "Over three years ago I was a patient in St. Mary's Hospital, where John Gassman came there and we met. We became friends and after I left the hospital Gassman visited me and we were married by contract. We were about to be married, never do anything for the support of our child until he was taken sick. He then took the little boy from me and I have never seen him since. My father is proprietor of a laundry at 406 Union street, and John drives one of his wagons. Yesterday I heard from one of the girls who worked in the laundry that John was about to be married to Celina Circiat at the French church, and I determined to go there and see the ceremony. I went to the church, the priest of the relations which existed between Mr. Gassman and myself.

"I did inform him, and he said that the names had been read in the church a week ago, and that any person who knew of a reason why the marriage should not be celebrated had had plenty of time to make it known. I assured him that I had but just heard of it during the day.

"I left the priest and went out to the front of the church, where I stood talking to a friend. In a little while the elder Gassman came up with a policeman and said, 'arrest that woman; don't permit her to enter the church.' He told the officer that I was married and that I had come there to shoot his son, who was about to be married.

"I informed the officer that I was not married; that I had come there to see the wedding. The gentleman that I was talking to added that I had a perfect right to enter the church, and protested against any interference on the part of the police. The officer told Gassman that he would not arrest me and went away. I then went back into the church and waited to see if the wedding would take place. It did not and I went away.

"John Gassman and his wife did not come to the church at all. Some of the ladies employed in the French church were there, and had come to make trouble. The old man immediately rushed off to the old City Hall and reported that story to Sergeant Dwyer at the same time asking that an officer be sent to the church to investigate. The Sergeant sent the officer, with the result I have just stated.

Mrs. Gassman's father, George Gassman, was, or always claimed to be, prevented from marrying her regularly by his relatives, and that he had placed the child in the hands of the doctor, whom she did not think fit to have control of it.

The controversy over the child took place in October, 1892, and was then the cause of considerable notoriety for all the parties concerned.

BY MASKED MEN.

A Gambler's Clerk Robbed on Eddy Street.

"Patsy" Wolf Relieved of \$700 in Kennedy's Card and Crap Rooms at Noon Yesterday.

"Patsy" Wolf was robbed by three masked men in a gambling room at 68 Eddy street shortly after 12 o'clock yesterday and the robbers escaped unnoticed with \$700 in gold coin. Wolf was disturbed by the exciting occurrence he got sick in the afternoon and had to seek his bed and rest.

The place where the robbery was committed is an old two-story house two doors east of Mason street, on Eddy. On the lower floor is a cigar store, with a barber shop kept by Ben Levy behind. Overhead are gambling rooms where poker and crap games have been conducted by "Billy Kennedy," the proprietor. Harvey, who runs wheels of fortune at fairs and races, and had various wheel concessions at the Midwinter Fair. The firm employs Wolf as a confidential man, putting him to handle cash and manage wheels.

Friday night Kennedy and Harvey had \$700, which Kennedy placed in the safe of a safe at the corner of Eddy and Mason streets. This money was needed for use at a country fair. About noon yesterday Wolf got to the room, the saloon-keeper, and went upstairs to the gambling rooms next door, where he intended tying the coin up in a parcel for shipment to the interior. Hardly had he passed the door upstairs when three men pointed pistols at his head.

"Turn your face to the wall and throw up your hands," one of them exclaimed. Wolf obeyed with the agility of a dancing-master, and once he had struck a dramatic attitude with the picture turned toward the wall he was bound hand and foot. The robbers then relieved him of the \$700 he carried and left him to contemplate his misfortune.

Tied as he was Wolf succeeded in rolling over on the floor and reaching the stairs, which he slid down with a startling noise. The barbers below were frightened at the racket and, on rushing into the hall, stumbled over Wolf, then loudly calling

for help. Levy cut the cords that tied Wolf, who soon afterward told his strange story. The hero of this little play forgot to mention what the robbers looked like, but claims he was not given time to make observations, and was too badly frightened anyhow to think of appearances.

Harvey is reputed worth half a million dollars and Kennedy has about \$100,000, so they went miss the money particularly, as roulette is in vogue at present.

CHINESE CASES.

The Police Dissatisfied With Judge Campbell's Decisions.

Chief Crowley and Captain Dunleavy, who is in charge of the Chinatown squad, have been very much dissatisfied with the way in which Police Judge Campbell has been disposing of Chinese lottery and gambling cases. It has of late been the Judge's invariable rule to summarily dismiss the cases or continue them for weeks, thereby rendering the efforts of the police to suppress lottery and gambling games abortive.

Last night Captain Dunleavy and his squad raided 627 Pacific street, where a lottery drawing was in full swing. They arrested Ah Wan, keeper of the lottery, and Ah Sing as a visitor, and captured the whole outfit. They allowed a small boy, who was making the drawing, to depart after scaring the life out of him. Both prisoners were taken to the City Prison in the patrol wagon.

MIDDAY ROBBERY.

Fosana's Jewelry - Store Looted.

Sixteen Gold Watches and a Tray of Diamond Rings Stolen—No Claw to the Thief.

P. A. Fosana's jewelry-store, 1230 Dupont street, was entered at noon yesterday by a burglar, who walked away with sixteen gold watches and seventeen diamond rings. Fosana, as is his custom, left the store at 12 o'clock to get his lunch at a restaurant a few blocks distant. He carefully locked the rear door that opens into a passage leading to Hinkley alley and after bestowing an admiring glance on the array of watches and jewelry in the front window closed the door and walked away. There were about twenty gold watches dangling from a string in the window, and just beneath them was an octagonal velvet tray studded with rings.

Half an hour after the jewelry departed the bootblack who has a stand on the other side of the street saw a hand in the window. It took down each silver watch and gold watches dangling from a string in the window, and just beneath them was an octagonal velvet tray studded with rings.

Fosana returned at 1:30 o'clock and took in the situation at a glance. Sixteen watches and seven of the best rings were gone, and the octagonal tray of purple velvet lay upside down on the counter. An inspect on the back door showed that it had been forced. It was evident that the burglar knew the place and the habits of the proprietor. The watches and jewelry taken were valued at about \$1000, but the thief showed some consideration for the unfortunate jeweler, in that he left behind the watches that had been brought to the store to be repaired. Only one of them was missing and it was a gold watch studded with diamonds.

Fosana reported the burglary to the police, neither they nor he have the faintest clue to the robber.

THE BIG TUG-OF-WAR.

Looking Forward to the Event Next Friday Evening.

All the lovers of strength and healthy sport are looking forward with intense interest to the mammoth tug-of-war contest to be held at Central Park next Friday evening.

As will be seen in the artistic display advertisement in this issue all the arrangements are most complete. Mr. D. R. McNeill, superintendent of the park, has arranged for sixteen teams of men, each representing a separate nationality, and specially picked for strength and training. Admirers of physical culture will see the human form divine at its best in the hands of the champions, who are representatives of the international teams. Great muscles will strain and broad backs be bent in order to win honor for some favored nationality.

The manager guarantees absolute fairness of sport as far as is humanly possible, and the names of the referee and treasurer, who will be the same, are high municipal authorities, should be sufficient to render the public perfectly safe in this respect.

Special accommodations will be provided for ladies and children, and it is expected that during the progress of the contest the big tent at Central Park will be the most popular evening resort in the city.

Rifle Competition Postponed.

By general order of Brigadier-General Rager the commencement of the rifle competition at Vancouver has been postponed to September 20 next. Competitors will report at the Vancouver Barracks not later than September 18.

Clubb'd a Woman.

Phillip O'Reily, a resident of the Western Addition, was fined \$60 in the Police Court yesterday for beating his niece, Cora O'Mara, with a cane. He had quarreled about a financial transaction.

A Dishonest Collector.

Archie Lockhart, a collector employed by Goldberg, Bowen & Lebermann, was arrested yesterday and charged with embezzling \$20 which he had collected for his employers.

JOHN CRAIG'S VICTIMS.

The Three Bodies Interred in Evergreen Cemetery. LOS ANGELES, July 28.—The funeral of William Hunter and his wife and that of Mrs. Emily Craig, the three persons murdered by ex-Police-man Craig a few nights ago, occurred to-day. A large number of friends attended the ceremonies at Evergreen Cemetery. George Hunter, a brother, also shot by Craig, is much better to-day.

Ran Her Against the Bank.

EVANSVILLE, Ind., July 28.—The steamer Edwin J. Wood struck a log and sank this afternoon about six miles above here. There were fifty passengers on board, but the captain ran the boat against a bank and all got off safely.

Special Baggage Notice. Round-trip tickets on sale at one of our offices (only) at reduced rates. One trunk, round trip, 50 cents; single trip, 25 cents. Keep your baggage checks until you have received your ticket. The largest transfer company, offices, 31 Geary, 408 Taylor and Oakland ferry depots.

REDUCED WAGES.

Poor Prospect for Santa Fe Employees.

NO STRIKE IS EXPECTED.

Combinations Made and Broken in the North.

MAY AFFECT FREIGHT RATES.

The Oregon Railway and Navigation Company Makes a Radical Change—Its Local Aspect.

The rumor that the Atchison, Topeka and Santa Fe Railway may be involved presently in another strike over a proposed reduction of wages in all departments received little attention from the officials of that company in this city. It was stated that the engineers, firemen and conductors would refuse to work rather than submit to the circular issued last week by the Santa Fe announcing that existing contracts would be abrogated.

The Santa Fe system has gone in seriously for retrenchment. Before the A. R. U. strike was declared the receiver had issued instructions to reduce service of freight and passenger trains wherever it was possible to do so. New time schedules on all divisions were in preparation to take effect July 1. The strike, however, interfered with this plan, though after two weeks' delay the Santa Fe train service was completely changed. Thousands of miles in the running service have thus been saved and an important step toward retrenchment taken, a large number of employees being dispensed with.

The next step will be to reduce salaries, and circulars were distributed among the men telling them that contracts would be broken and less money paid for their services. In many cases, so it is said, engineers, conductors and firemen have threatened to strike if an attempt to cut wages be made, and that within a day or two.

"We have received no notification of an expected strike," he said. "If there were any serious talk of striking orders would be sent to this office not to take perishable freight. But we have not received such information, and that leads me to believe that no trouble is feared. We are receiving all classes of freight in the order reserved, which would not be the case were a strike impending."

The Oregon Railway and Navigation Company has parted company with the Union Pacific and hereafter will seek freight and passenger business on its own account in San Francisco. W. H. Hurlbert, who is general local agent of the Union Pacific here and in Portland, and has been appointed general passenger and ticket agent of the Oregon company.

He appointed J. J. Connor as general passenger agent of the Chicago, Milwaukee and St. Paul Railway and was general agent of the Southern Pacific until a year ago in San Francisco. His knowledge of this company's business will prove valuable to the Oregon company, as the Great Northern was until a year ago the independent concern. Both Hurlbert and Connor are looking for a centrally situated office in this city, with the intention of beginning their work at once.

Southern Pacific officials deny that there will be a war of rates through the new combination. Assistant General Freight Agent Sprague stated that the Union Pacific and Oregon Railway and Navigation Company remain on friendly terms. Should the freight combination be broken he said that the Southern Pacific would not be such a determined manner that business rivalry would become wearisome for the Oregon company. This means that if freight was delivered in San Francisco by the Oregon company's steamers at a reduced rate the Southern Pacific Company would lay down freight in Portland, Or., at a rate that would run its competitors.

STRIKERS MOVING.

Fruitvale Incorporation Is Again Beaten.

The Course of Councilman Dow, While Acting Mayor, Is Commended.

OAKLAND.—The strike is over and in a very few days it will be officially off. Many of the strikers men have pulled up stakes for new fields, and the married men are anxious to get back to work.

In speaking of putting men back to work Master Mechanic McKenzie said yesterday: "We will take back as many of the strikers as we can find places for, provided there is no charge of violence against them. But many places have already been filled with other men, and these we do not propose to discharge for the sake of men who voluntarily left us and now wish to return."

The machine-shop in the yards, which employs fifty men, will be kept closed for awhile. They are skilled men whose places are difficult to fill.

Engineer Jeffers has tumbled into velvet by the strike. He is now general assistant in the yards, and has supervision over the locomotives and their drivers. This will come in the nature of a surprise to the engineers who turned Jeffers out of their office. He can now lord it over them a little.

Charles Hall, the one-armed tower man, who was the oracle of the A. R. U., left for the East last night to attend the meeting of the A. R. U. in Chicago on August 2. He goes as a delegate from this union.

Incorporation Defeated.

People of Fruitvale favoring incorporation were again grievously disappointed yesterday, when their petition was voted down by the Board of Supervisors.

A meeting held by the incorporators on Thursday night it was determined to request the Supervisors to reopen the matter of incorporation, which had been laid on the table, and a committee was appointed to ask another hearing.

Yesterday the board met again to consider the subject, attorneys for both sides being present. The whole matter was argued thoroughly, and the board finally, after a conference in committee, decided not to take the matter from the table. This was a severe blow to the incorporators, as they had built high hopes on a reconsideration. They left much incensed, and another indignation meeting is talked of.

Councilman Dow Honored.

At a meeting of the Twenty-third ward Republican Club, held on Friday evening, the following resolutions were introduced and unanimously adopted: Whereas during all the exciting and critical periods of the recent election in this city it has developed upon our immediate representative in the City Council, W. A. Dow-

of the organizers and always one of the most active and useful members of this club—to execute the duties of chief magistrate in the enforced absence of the Mayor; therefore, be it

Resolved, That we extend to Mr. Dow our most sincere and hearty congratulations for the wise and courageous course he pursued as acting Mayor in the discharge of his duties during the city under very aggravated conditions, and preventing what seemed to be the most imminent and disastrous destruction of a vast amount of property.

Wants \$25,000 Damages.

Suit has been commenced against the Santa Fe Railroad Company by Mrs. Mary Tobin with William Tobin for \$25,000. The complaint on file alleges that on the 30th of April, 1893, Mrs. Mary Tobin boarded the train of the company at West Berkeley to ride to the electric station, and that in alighting at the latter place the cars were suddenly started, when Mrs. Tobin was thrown down, sustaining two broken ribs and other injuries of a serious character, which she thinks entitles her to damages in the above amount.

Cavalrymen on a "Time."

About 11:30 o'clock last night five cavalrymen made a tour of the East Oakland saloons. They were found up in Orlander's place at 629 East Twelfth street, where their merriment was diversified by a little pistol practice. One of the gay troops fired a shot which struck a slot machine. Emerging to the street the revelers were commanded to halt by a policeman, who sent a bullet over their fleeing heads. In the darkness they escaped, but a patrol wagon arrived. The Oakland police will investigate the affair to-day.

Commerce Street Sale Off.

The Superintendent of Streets has deeded the Commerce street assessment off in pursuance of the Superior Court, which declared the assessment void. Nearly \$1200 was paid in assessments, and this will probably be paid back to those paying it, providing the City Attorney, to whom the matter has been referred, so holds.

Drew in Oakland.

Drew and his brilliant American company will open at the Macdonough on Monday, August 13, for four nights and a Wednesday matinee. The plays presented last two nights in Oakland have given the town no great satisfaction. Mr. Hughes has made no effort to hold up before him an impracticable ideal. Wishing to assist the poundmaster to become self-respecting, the Board of Trustees a few months ago abolished the system of payment for his services. Half a year ago he granted the officer a salary of \$60 a month. At the last meeting of the board its attention was called to the fact that Mr. Hughes part, who is a general local agent of the Union Pacific here and in Portland, and has been appointed general passenger and ticket agent of the Oregon company.

Hanniff Withdraws.

J. J. Hanniff Jr., candidate for Tax Collector on the Republican ticket, has withdrawn from the fight, giving as his reason the hostility of the A. A.

Wants Separation.

Lizzie Seidel has brought suit for separation from Pierce T. Seidel.

BEKKELEY.

The poundmaster seems to be in all localities a personage either utterly condemned by his office, or else one who condemns himself by his methods of conducting an obnoxious business. Berkeley's last two animal poundmasters have given the town no great satisfaction. Mr. Hughes has made no effort to hold up before him an impracticable ideal. Wishing to assist the poundmaster to become self-respecting, the Board of Trustees a few months ago abolished the system of payment for his services. Half a year ago he granted the officer a salary of \$60 a month. At the last meeting of the board its attention was called to the fact that Mr. Hughes part, who is a general local agent of the Union Pacific here and in Portland, and has been appointed general passenger and ticket agent of the Oregon company.

He appointed J. J. Connor as general passenger agent of the Chicago, Milwaukee and St. Paul Railway and was general agent of the Southern Pacific until a year ago in San Francisco. His knowledge of this company's business will prove valuable to the Oregon company, as the Great Northern was until a year ago the independent concern. Both Hurlbert and Connor are looking for a centrally situated office in this city, with the intention of beginning their work at once.

Southern Pacific officials deny that there will be a war of rates through the new combination. Assistant General Freight Agent Sprague stated that the Union Pacific and Oregon Railway and Navigation Company remain on friendly terms. Should the freight combination be broken he said that the Southern Pacific would not be such a determined manner that business rivalry would become wearisome for the Oregon company. This means that if freight was delivered in San Francisco by the Oregon company's steamers at a reduced rate the Southern Pacific Company would lay down freight in Portland, Or., at a rate that would run its competitors.

Munson Has the License.

On July 1 a three months' license was granted to J. A. Munson to open a saloon at Loria. This was signed by the president of the Board of Trustees and the Marshal. Later it was discovered that the action was illegal, and the board rescinded the license and called to Munson a notification of the illegality of his license. When Munson failed to close the saloon he was met by Munson with a license which certified that \$50 had been paid for the license. The license was recalled and the money is refunded the Marshal is helpless.

A Student's Bureau.

The Y. M. C. A. and Y. W. C. A. of the university have opened their usual bureau for the reception of letters and packages for students. People desiring to secure boarders are requested to fill out the information cards and send them by mail to the Y. M. C. A. building, at the corner of the Secretary of the Students' Aid Society, at room 17, South Hall (not Stiles Hall).

Peralta Improvement Club.

At the meeting of this club Friday evening it was reported that the request made by the citizens of Alameda for a new street in South Berkeley some time ago had not been attended to by the board. The club directed the secretary to call the attention of the board to the matter.

ALAMEDA.

As the excavation through the shell mound on the Sather property progresses many rare articles have been unearthed, such as Indian household implements, arrow heads and skeletons, and these seem to be a vast difference of opinion as to the people to whom they once belonged. The remains found are those of Indians who roamed over the country as late as 1850, while I. N. Chapman, the civil engineer, is of the opinion that they are the remains of a race that existed more than 100 years ago. He bases his opinion upon the fact that the bones were found in a position to substantiate the opinion of Mr. Chapman, who is quoted as saying: "If the bones belonged to a race that inhabited the central as late as 1850 there would be some evidence to that effect. There would be some remains ever been buried, but none have ever been brought to the surface. On the contrary, the deeper down we go the more preserved are the bones that for such a remote experience tells us that for such a remote accumulate as there is on the Sather property it requires thousands of years. All things have a life of antiquity to them. The oyster and the shell have nearly all been disintegrated, and all this requires much time, much more than 100 years ago."

Yesterday a skeleton was taken out in a good state of preservation and is thought to be that of a female. It doubtless is a further link in the chain of evidence that would be of great value to the scientist.

Oriental Combatants.

The China-Japan-Korean disturbance has extended to Alameda, as was manifest by the feeling exhibited on Park street between a Japanese and a Chinaman, who happened to meet on the street. The Japanese was carefully looking into a store window, paying no attention to passers-by, when along came a Chinaman. The Japanese, who was wearing a red and white plate-glass, turned suddenly and gave expression to his feelings, and snatching the word, sent the Chinaman's halfling around him eager to grasp was gathering himself together to make an attack upon Japan, when Japan dealt him another blow that sent China staggering.

DRY GOODS.

Trade Fetching Prices for Monday.

We are having a great sale of merchandise. We are turning out piles of merchandise at sacrifice prices. We are losing big money on what we sell. Selling to lose money, and glad to sell. We have been made famous by our prices and our wares. Seeing is believing. Don't be influenced by the envious. Come see what we keep, learn why at any hour of the day you find more people in THE MAZE than any store in town. This is the greatest sale we have ever inaugurated for meritorious merchandise.

25c.

We are closing out a line of ALL-WOOL NOVELTY DRESS GOODS that were 50c a yard. If in want of this price goods you'll never equal them.

25c.

FRENCH CHALLIS, all wool, sold earlier in the season at 75c and 65c, you know they are 50c to 75c the world over.

25c.

MOIRE SILKS in colors, no matter what they are, 25c is no price for them.

81-3c.

PRINTED DUCK SUITINGS, sold all over at 15c, 16c and 17c. For staple cotton fabrics this is a world-beater.

THE HAMBURGER COMPANY,

MARKET STREET.

HE DIED UNKNOWN

The Mysterious Death of a Stranger.

Probable Murder and Robbery—From a Cell at the Hospital to a Slab at the Morgue.

The body of a man, apparently 60 years of age, lies on a slab at the Morgue awaiting identification. The circumstances of his death point to a double crime, robbery and murder, but it is possible that it was the result of an accident. The police are at work on the case.

The unknown dressed in the garb of a laborer entered a barroom on Kearny street late Thursday night and called for a drink, telling the bartender that he had just bought a suit of clothes. He had money, but he was very drunk and the vendor of drinks gave him no encouragement to remain. An hour later the stranger appeared at a saloon on Sacramento street, where he had several drinks and where he gave the bartender a check for \$100. He was very drunk and the bartender understood that he was a minor. At 3 o'clock the next morning Patrolman Case found him lying at the corner of Merchant and Battery streets. He was unconscious and the officers summoned the patrol wagon and sent him to the Receiving Hospital.

The surgeons were unable to restore the stranger to consciousness. His face was bruised and bleeding and there were several wounds on his body. They thought he had been run over and placed him in a cell, where he was found dead yesterday morning.

The body was sent to the Morgue and placed on a slab, but of the hundreds who viewed it there was not one who recognized the features.

An autopsy showed that death was caused by hemorrhage of the brain, resulting from a fall or blow on the head. He was 5 feet 9 inches high, had gray hair and mustache and bluish gray eyes. There was a small scar on the chin. All the teeth of the upper jaw, except two, were gone. He wore a brown, striped vest, sack coat, blue overalls, blue flannel shirt, blue-striped cotton undershirt, heavy new brogans and a new brown hat.

BURLINGTON EARNINGS.

The Statement for June Shows a Heavy Falling Off.

CHICAGO, July 28.—The June statement of the Burlington shows a heavy decrease in the earnings all along the line, and this in the face of a heavy decrease in operating expenses for the month. Freight earnings fell off \$584,352, passenger earnings decreased \$351,625 and the gross earnings decreased \$929,321, compared with the same month last year. Despite the reduced earnings, operating expenses were reduced \$868,385, and the total net earnings of the road for the month were only \$1858, compared with last year of \$239,923. The total earnings of the road from January 1 to June 30 shows a decrease of \$369,500, compared with the corresponding month of 1893.

Sues Her Husband's Slayer.

BRAZIL, Ind., July 28.—Mrs. Marietta Kress, wife of Thomas Kress, who was murdered by Charles Cooper, June 12, 1893, has filed suit in the Supreme Court for \$10,000 damages against her husband's

DRY GOODS.

Prices Lower Than Known Before In Trade History.
