

LOCAL NEWS IN BRIEF.

Sausalito is to have a fire department. Generally fair weather expected to-day. Kowalsky was a winner at the racetrack yesterday.

THE DIAMOND ROBBERY.

The insurance rate war has only seen its inception. The Continental Insurance Company and the Board of Fire Underwriters of the Pacific are at odds.

THE MECHANICS' PAVILION IS ABOUT READY FOR THE BIG FAIR.

The preparations for the new French Hospital will be completed to-day, and all will be in readiness to-morrow night.

THE VALLEY ROAD.

An important meeting of directors will be held to-morrow. Although yesterday was rather a "off" day in commercial circles, the account in the Bank of California to the credit of the new valley railroad was swelled by \$3000.

THE LOUGHBOROUGH CASES.

Alexander Z. Loughborough was held by Judge Conlon yesterday to answer before the Superior Court on two charges of assault with a deadly weapon.

THE PACIFIC MAIL'S LAST RALLY AGAINST THE PANAMA COMPANY.

The index finger of C. P. Huntington is said to have been discovered in the railroad now being constructed from the city of Guatemala to the Atlantic.

NATIVE HENS CACKLING.

There is great joy and cackling among the hens of California at present. The hilarity has been produced by the cold weather in the East and the lack of attention to business on the part of the Eastern female fowl.

C. A. WETMORE OF THE VITICULTURAL COMMISSION IS SCORED. CALLED A CAMP-FOLLOWER.

Arthur P. Hayne criticizes his bill and exposes its "joker." The latest phase of the fight between the viticultural elements of the State and the Viti-cultural Commission as represented by their mouthpiece, C. A. Wetmore, seems to be as follows:

The little jokers in the bill have aroused the ire of A. P. Hayne, assistant in charge of viticulture at the State University as indignant.

"These men," he said, "turn over work that has cost them a minimum of \$15,000 a year for the past fifteen years to the viticultural department of the university, and they don't give us a cent to do it with."

"If we are to do the work give us the necessary materials to do it with. If the Board of Health or any other State institution was doing viticultural work it would not be so bad, but they are not. It is to satisfy the personal spite of Messrs. Scott and Wetmore against Professor Hilgard."

"The university has thus far taken no part whatever in any fight at all, leaving it to the wisdom of the Legislature to do what it thought right. When this bill was introduced things changed. We must see that the viticultural interests of the State are protected if we are to do any work."

"Wetmore calls himself the manager of the Viti-cultural Commission. As a matter of fact he is but a camp-follower; he is no way connected with the commission by appointment the expert chemists in the viticultural laboratory would be simply branded as incompetent, and that courts would not, nay, could not, accept their analysis as a valid fact of evidence. This is a fair sample of the gratuitous insults which have for years been bestowed upon the department and its chief, and which have been, until now, simply ignored by him."
