The Oregon volunteers sailed for home from Manila last week.

The editor of the Arodisia Champion treated his readers last week to a fine illustrated edition.

Pittsinnons who was knocked out by Jeffries last week should have an appreciative sympathizer in Col. Bryan.

Ten were killed in the cyclone at Herman last week, in the north eastern part of the state and many more were injured.

The efforts of the people in the eastern part of the state to provide relief for the cyclone sufferers at Herman last week is highly commendable.

Congressman Bland of Missouri, who has been a leader with the democrats in congress for years is dead, having passed away Thursday of last week.

In our list of pop candidates last week, the name of Jas. Stockham was omitted, whom the Beacon publishes as a candidate for clerk of the district court.

One of the civilian America commissioners in the Philippines, Dean C. Worcester, says 80 per cent of the natives want peace. Mr. Worcester is familiar with the islands and is the author of the best book yet written about them.

In five months fifty new cotton mills have been built or projected in the South and thirty-nine mills in that section are to be enlarged. Manufacturing on a large scale is no longer a novelty in the Southern states.—Globe Democrat.

The Sunday Bee contained in addition to its regular features a pictorial department, containing a number of prominent persons, including a picture of the scene of Col. Stotsenburg's remains lying in state at Lincoln on its return from Manila.

Here is an opportunity. The World-Herald announces that it will receive subscriptions on the installment plan, to raise a democratic campaign fund. All gold and silver republicans should send to their contributions at once, and help their democratic friends raise funds to capture the rest of their crowd.

The quarrel of a few weeks ago between Aguinaldo and General Luna has resulted in the assassination of the latter by the body guard of the former. General Luna objected to Aguinaldo as a dictator, holding that there should be a republican form of government. For this he was murdered at the instigation of "the Washington of the Philippines."

It will be a matter of pleasure to the many friends of Judge Kinkaid that he has decided to be a candidate for congress in the Sixth district. His ability and character is so favorably known to a large per cent of the voters of the district, that should he receive the nomination his support will not be confined to the republican ranks. Many of other political parties who prefer to vote for a clean man will vote for him. In his own judicial district he has always been able to carry by majorities ranging from 1000 to 2000, where ordinarily the fusionists had majorities.

Judge Kinkaid has not only proven his strength as a vote getter in his own section of the district, but is well and favorably known throughout the entire district, and the Hub does not believe that a stronger candidate could be nominated. He has been considered a possibility since 1892 and there have been several times, both in 1892 and since, that he could have been nominated if he had made the unqualified declaration that now comes from O'Neill. It is perhaps not wise at this juncture to say that he is the only one with whom the republican party might succeed, or who ought to be nominated, but it must be admitted that he has exceptionally strong claims and should be shown the utmost consideration by the republicans of the district.—Kearney Hub.

Who would dare hazard an opinion on what the condition of the country would be today, had Bryan and his free trade and free silver been successful in 1896? Imagine this country with a war on its hands, a depreciated dollar, and depleted treasury and free trade. Contrast the condition of the country under democratic rule and the Wilson free trade revenue measure, when the government was borrowing money to pay running expenses, and the conditions of today under republican rule and the Dingley tariff, when the country is prosecuting in a foreign country a war for humanity and equal rights. The national treasury is in a condition to meet all the obligations of the government with no thought of a bond issue. It is no wonder that the sober thinking, intelligent voter is gradually leaving the party of obstruction and casting his lot with the party of progress and the poor man's friend.—Falls City Journal.

Judge Kinkaid for Congress.
Judge Kinkaid, of O'Neill, who has frequently been mentioned as a possible candidate for congress, has consented to make the race subject to the wishes of the republican congressional convention of the Sixth district. Judge Kinkaid was the choice of a large per cent of the republicans of the Sixth district five years ago, when Kem was elected on his second term, but he failed to receive the nomination. It would give the Republican pleasure to see him nominated. We do not believe there is another man in the republican ranks who would be as sure of election as Judge Kinkaid. The northern part of the district has never been allowed to furnish a candidate, and that section is un-

doubtedly entitled to name the man, should they claim the honor. The O'Neill Frontier, in speaking of Judge Kinkaid's candidacy says:

The Judge consents to become a candidate at the earnest solicitation of many friends throughout the district. The Frontier has been watching the congressional horizon with much interest, hoping that a candidate would come to the front, and we could be no better pleased in announcing the name of a candidate than that of Judge Kinkaid.

There are several reasons why the nomination should go to the Judge. It is conceded that the northern end of the district, geographically speaking, is entitled to the nomination. Judge Kinkaid is the peer of any man in the district in ability and integrity. He is live, wide awake and up to the times, and immensely popular with the voters of north Nebraska. He has been successively elected to the district bench for three terms and during the popularistic troubled campaigns has come out with majorities ranging from 1,000 to 2,000. His long years of experience in public affairs, his level head, sound wisdom and reproachless character make him all that can be desired as a representative in congress.

The Alton Journal in speaking of a suitable man for the nomination for congress of the Sixth district says:

We are free to confess we have a favorite in the field. He is the peer of any man in the district in brains, in intellect, in integrity, in judicial or executive ability, and in all that goes to make the man of the hour, the leader under whom we can march to victory. He is pure in character, of spotless reputation, and no word of reproach has been or can be coupled with his name. The Star Journal is not authorized to speak for him, does not claim willingness on his part to take up the "white man's burden," but it does speak for itself and thousands of loyal republicans when it announces as its choice for congressman to be one whom the people have honored and love to honor; one who is and always has been true to their best interests, and whom they will be proud to place in the halls of congress.—Judge M. P. Kinkaid.

Farming Pays in Nebraska.
This is the way Morton's "Conservative" tells of the growth of value in Nebraska farm lands:

"Are all purchasers of farm lands fools? For more than six years there has been an organization of politicians and idiots in Nebraska preaching the impossibility of making even a living upon ordinary farm lands in this state. The populist party has proclaimed from every school house, court house and platform that the farmer in Nebraska is a down trodden, moneyless being, over which corporations hold gleeful orgies.

And yet this same supine son of toil pays his debts, schools his children, buys carriages, organs, sewing machines and pianos, and wears a smile brighter than an Easter morning.

Everywhere the farmers in Nebraska are paying off the mortgages which represented the larger part of the purchase money which was to be paid for their farms. These payments are created out of the sale of the products of the lands themselves after paying for the maintenance of the farm and family.

In every county, court house records show a steady, constantly increasing reduction of the mortgage debts upon farms. This is the truth. These records are facts. They stand up with unflinching eyes, look the populist press and orators of 1896 in their brazen faces, and say in almost angry tones:

"How you all did lie in 1896! Not a single forecast of calamity has been verified. The gold standard has been upheld. There was a bigger amount of circulating cash in May in the United States than ever before!"

And are people buying lands at advancing prices upon which no man can make a living and much less profits over and above a living?

How is it that farmers in Nebraska have nine times out of ten paid for their lands themselves, if populism teaches truth?

Was there ever before a constant and rising demand for land upon which nobody, according to the populists, could make a decent living under the gold standard?

Where is the farmer who wishes to find a buyer for his Nebraska farm at the same, or a less price than it cost the present owner?

TO THRESHERMEN,

And those contemplating buying a

Steam Thresher.

We are handling the Geiser Engine and Separator.

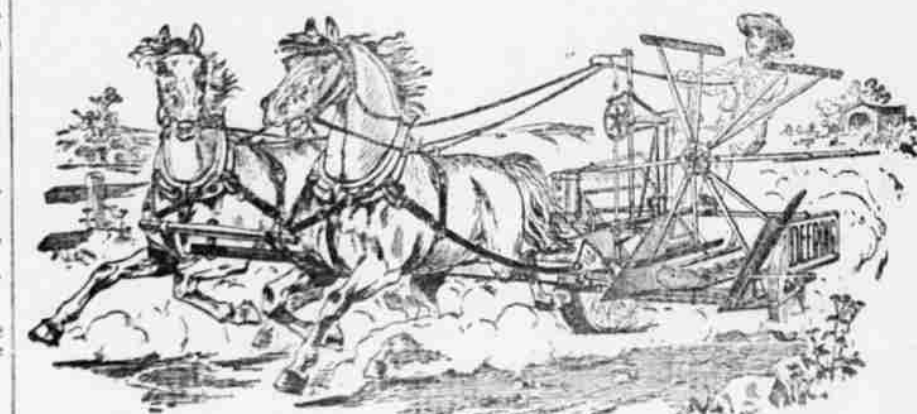

This Machine differs somewhat from other machines. The boiler has a device which prevents the water from becoming low in going down or up hill, keeping the crown sheet and flues covered, prevents them from being burned out. The Separator has no drive or anything to bother in changing from one kind of grain to another, which can be done without stopping the machine. If you are thinking of buying write or call on us, and we will send catalogue, which explains the machine thoroughly. We propose to start all machines sold by us, and see that everything is in good order. Remember if you buy of us you will not have to wait for an expert, two or three weeks. We will give you the best outfit ever sold in Custer county. We can also assist in getting a competent engineer. Can give such instruction as will enable any person of ordinary ability to run an engine in a few days. We are prepared to do Larbe Work and most anything that can be done in an ordinary Machine Shop.
