

## NOTES ON THE FASHIONS.

Linen Parasols Go with Plainer Shirt-Waist Suits and Lingerie Styles Harmonize.

The most fascinating hats and parasols have come out, seemingly planned and made to go together, yet in reality happening upon that effect in nine cases out of ten.

Lingerie styles are responsible for much of it—the whole wide range of lingerie ideas echoed and reechoed in the parasols; in fainter, though no less exquisite, tone in hats. Some one has glibly prophesied the passing of the fluffy parasol, claiming that instead will be carried the plainer types.

Yet lingerie dresses grow more popular all the while, and ruffles are piled upon ruffles, seemingly without end. That prophecy is bound to be wrong, for, so long as the summer girl holds court dressed in the sheerest, softest of gowns, which billows and froths about her, just so long will she, in spite of fashion's dictums, twirl, in lieu of a scepter, the airiest, most useless, but wonderfully picturesque and becoming parasol.

Those plainer styles will be carried more than the fluffy ones without a doubt—just as shirt-waist suits and the many attractive models of linen suits are more in evidence in sun times than those billowy, beruffled, beribboned things. But each will have its place and each will be carried—you might almost say worn—with the sort of gown it best suits.

And hats of linen and of linen and lace will go with them.

For the plainest shirt-waist suits the prettiest linen parasol is made, plain except for a rather large motif embroidered in each panel, or perhaps in only one, with the initials cunningly interwoven, so as not to be too conspicuously plain to anyone—more in the nature of those clever seals which look like an old eastern charm, but which are really the three initials made into a cabalistic sign.

Eyeclet work holds its own in the parasol world, and insertions of lace are even more popular than ever, both cluny and Irish lace used in lavish profusion.—Chicago Record-Herald.

## IRONING-BOARD CASE.

Fine to Take Away on a Summer Vacation, Makes You Independent of Expensive Laundress.

One of the most acceptable presents to make for your friend's summer trip is the case for a very small ironing board, with the little board inside. Get a smooth board about 14 inches long by five inches wide, and cover it with a thick soft flannel, placing over this a piece of fine muslin. Sew it on securely and smoothly. Then cut your cover a little larger than the board, and in the form of a long envelope, with the opening and flap at one end. Bind it with ribbon or galloon, and make a button-hole in the flap, with a button to correspond on the cover. Put, also, on the cover a pocket, large enough to hold a small ironholder, made of ticking, lined with thick flannel, and covered with the same material as the cover, which should be of a bright, flowered cretonne. Small charcoal irons can be bought that are easily carried and heated. With this outfit your friends will be independent of laundresses, as far as collars, cuffs and small articles are concerned.—Chicago Inter Ocean.

## WHEN HANGING PICTURES.

Study suitability of subjects when assigning pictures to their position, as a picture that is suitable in one room may be entirely out of keeping with the general character and purpose of another.

Do not crowd pictures. Too few are preferable to too many, and plain spaces are restful in their effect.

Oil paintings, water colors, and line drawings show the artist's work and what he meant to depict much better when hung flat against the wall—not tilted.

Never hang a glossy picture opposite a window, and never hang any picture so high that it is hard to look at.

Do not hang pictures in pairs, and do not hang two from one hook if the wire on both shows—the oblique lines made by the two wires are very objectionable.

A picture which shows heavy shadows should be hung with the shadows, away from the window, to make the shadows seem natural ones.

Pictures are less apt to get skewed when dusting, or by other means, if hung on two hooks instead of one. The lines of the wire are less objectionable, too, as they are horizontal and perpendicular, as are the lines of the frame. When the wires can be entirely behind the picture, out of sight, the best effect is secured.—Prairie Farmer.

## Soft Gingerbread.

Break a fresh egg in a bowl, stir with a fork, add a tablespoonful of melted butter and fill the bowl half-full of sour cream. Fill to the top with New Orleans molasses, turn into a larger bowl, beat and add a cupful of flour into which has been sifted a level teaspoonful of soda. Add a teaspoonful each of ginger, allspice and cinnamon, and a little salt. Bake in a sheet.

## Mousse.

A mousse is a smooth ice, usually prepared with whipped cream. For a "coffee mousse," drip enough best grade of coffee to make a cupful quite strong, but very clear; boil this to a syrup with a cup of sugar, and when cool mix into a pint of whipped cream; put into a mold and pack in ice and salt a couple of hours.

## Resolutions.

Resolved, That these resolutions be spread upon the records and our charter be draped in mourning for sixty days and a copy be furnished the bereaved family, and to the press of the city for publication.

## Cheap Farm Land.

Southwest Offers Best Opportunities For Securing Homes.

Many farmers in the Northern and Eastern states are selling their high priced lands and locating in the Southwest. Many who have been unable to own their homes in the older country are buying lands in the new country.

Unusual opportunities exist along the lines of the Missouri Pacific-Iron Mountain Route. The rich, alluvial, delta lands and river bottom lands of Southeast Missouri, Eastern Arkansas,

Louisiana and Texas, capable of producing 60 bushels of corn, a bale of cotton, 4 to 6 tons of alfalfa 150 bushels of potatoes, and other grains, vegetables and hay crops, can be bought for \$7.50 to \$15.00 per acre. When cleared and slightly improved will rent for \$4.00 to \$6.00 per acre cash.

Uplands more rolling, lighter soil, adapted to fruit growing—peaches, pears, plums grapes, berries—also melons, tomatoes and other vegetables, can be bought for \$5.00 to \$10.00 per acre in unimproved state. Many places with small clearings and some improvements can be bought very cheap.

Write for map and descriptive literature on Missouri, Arkansas, Louisiana, Texas, Kansas or Indian Territory. Very cheap rates on first and third Tuesdays of each month.

# MAJESTIC BAKING DEMONSTRATION

## ONE WEEK, MONDAY, NOVEMBER 12, '06

We heartily invite our friends to call any day during the above mentioned week and we will demonstrate the superior qualities of the

### Majestic Malleable and Charcoal Iron Ranges

The MAJESTIC MALLEABLE and steel range as formerly turned out by the Majestic people has been considered throughout the country as par excellence, and far ahead of any other range made. But with the NEW CHARCOAL IRON BODY in place of Steel, making it double its value, and the fact that it is the only range in existence made of Malleable and Charcoal Iron, you can readily see that if quality is considered, the Majestic leads by a big margin. WE WANT YOU TO CALL at our store during this week, and let us explain this new feature—CHARCOAL IRON BODIES; let us explain why it is the best material for range bodies, and incidentally why it is not used on other ranges. We want you to call if you intend to buy or not, as the information gained will serve you in the future.

### HOT COFFEE AND BISCUITS FREE

Come any day during this week and have buttered hot biscuits and hot coffee. Biscuits baked on a Majestic in three minutes while you wait.

### HANDSOME SET OF WARE FREE

With every range sold during this demonstration we will give absolutely FREE one set of Majestic ware worth every cent of \$7.50. This ware will be on exhibition at our store. Everything useful, ornamental and durable. Come in and see it, and you will agree with us that it cannot be bought for a cent less than \$7.50 and it is cheap at that.

Come in any day. You are welcome whether you intend to buy or not.
