Making Money.

The average salary paid Toland graduates, after four years experience, is \$1,000 per year. The minimum amounting to \$40,000 in a lifetime of forty years. The average day laborer gets \$1.50 per day 300 days in the year, or \$450 per year. He earns \$18,000 in a lifetime. Making the difference between the average earning of a Toland graduate and a day laborer \$22,000. The difference between the earnings of a Toland graduate and a mechanic, or the average school teacher, is about the same, as both teachers and mechanics are idle a large portion of their time. Is not \$22,000 a pretty good profit on an investment of \$60,—the amount required to pay for a course in a Toland school? Many Toland graduates are now earning from \$2,000 to \$6,000 per annum. If interested send for proof. Address Nebraska Business University, Nebraska City.

Wm. McPherson, Prop.

'Phone 59 - Falls City, Neb.

The Baccalaureate sermon for the class of 1907 was preached at the Methodist Church last Sunday evening by Rev. Teeter of the Brethern Church. The sermon was fine and thoroughly appreciated by the large congregation of relatives and friends of the graduates that filled the Church. The music for the service was very good. Mrs. Anna Dorrington Ross of Chicago sang a beautiful solo, "King of Eternity" with splendid effect.

John W. Powell made a business trip to Auburn Thursday.
