And now comes a barrel of black bass from the far western lakes sent by Guy Greenwald. A four pound specimen reared his kindly head on the writers table Wednesday. There is but one thing better than eating black bass and that is catching them. The sight of the magnificent fish that graced my table brought visions of the placid waters of a lake, a taut, tugging line, the mad whirl of a reel and the glorious struggle between a worthy foe. The fishing fever is on and the longing for the rod and the reel has made irksome the labor of the day since Guy sent me one of the kings of his kind.
