NOT ALTOGETHER A WASTE

Westerner's Own Experience Proved That Some People Read High-Placed Signs.

For half a day a man from the west had been stumbling through downtown streets, studying the skyline of high buildings.

"I guess you don't have anything like that out your way, eh?" said a New York acquaintance.

"We've got the buildings all right," said the westerner, "but we have no people who are such blamed fools as to paint their names on the tenth-story windows. All the high buildings in this town have the names of business firms spread over the windows clear up to the top floor. They don't do that in any other city in the United States. Out west we'd call it a foolish waste of money to paint the names higher up than the fifth story. They don't do any good above that. Nobody can see them without putting his neck out of joint looking skyward, and very few people feel inclined to do that."

"You did," said the New Yorker dryly. "Possibly our business men and sign painters find it to their advantage to cater to the curiosity of fellows like you."—N. Y. Times.

FRANKNESS IN INVITATIONS.

Among curiosities which are models of frankness is the following:

"Lord and Lady Spencer request the honor of — company at dinner at half after six o'clock on —. An answer is particularly desired. Nobody waited for after seven o'clock." On many invitations the time was of course stated and "A polite answer requested," or sometimes "A reply would oblige," but the letters "R. S. V. P." were hardly ever used at this date, their first mention being in 1781, on the card of Lord and Lady Kerry, says the Windsor Magazine. Indeed till quite recently "An answer will oblige" was the most general formula, and it is only in the last 30 years that the French form has been at all generally adopted in this country.

HORSE KNOWS NUMBERS.

Whenever the fire alarm sounds in a certain Chicago engine house an intelligent gray horse, one of the veterans in the service, assumes a listening attitude, and seems to count the strokes. If it is the number that will call him out he at once starts, as much as to say "I'm ready for action." If some other number is struck he leans over and nibbles the ear of his mate in a manner that says, "It's nothing to us, old chap; we're not called for."

The firemen say that that horse counts just as accurately as a person could. It surely looks as if he did, and he never makes a mistake.

JUST OUT OF THE TUNNEL.

"Jacky, dear, do you know you kissed me on the nose just now?" "Oh, dear! that was entirely out of place, wasn't it?"

WHY SHE WEPT.

A man accompanied by a woman applied for a marriage license. While the document was being prepared, the woman began to weep.

"What is the matter?" inquired the clerk in surprise. "You ought not to cry on the eve of so much happiness."

"It isn't that, sir," sobbed the bride-elect. "I was just thinking of my first husband. He only died last Friday."

THE DANGER.

"Do you think the railways are ready to take the public by the throat?" asked the alarmist.

"Certainly not," answered Mr. Sirius Barker. "Nobody carries his pocket book in his throat."

The sermon at St. Thomas church Sunday evening was one of the best ever listened to in this city. Rev. Neide is certainly a scholarly man and a fine speaker and that he is appreciated is evidenced by his constantly increasing congregations. Not only was the sermon fine, but the music was of the very best. Beside the regular music, Miss Jessie Paxton sang a beautiful solo. This was Miss Paxton's first attempt as a soloist, and her effort was a revelation, as she possesses a voice not only sweet, but powerful. On next Sunday evening Miss Paxton has been prevailed upon to sing for the offertory solo, "Shepherd Divine" by Jerome.
