

Here Is Picture Churches Have Chosen As That of the Typical American Girl

SEEKING a poster which portrayed a picture of the typical American daughter to be presented at the Interchurch World Movement show the painting of Delano Fink.

This serious, calm-eyed, wholesome young woman was selected as the type of the daughters of America being reared under the influence of the Christian Church. Mr. Fink's painting shows her here passing as though waiting for her parents to join in restoring the complete membership attendance of this place of worship, one of the objectives of the Interchurch World Movement in which the evangelists of Protestant Churches are joined.

The poster has been prepared for distribution throughout the entire country for stimulating interest everywhere in extending the influence and ideals of the Church to men's souls here throughout the whole world.

an important task of the church in foreign fields Mr. Pierce says:

"There is now in progress throughout America a Home Survey, which includes an exhaustive study of the problems of the city. Some of these have been completed and are available as a demonstration of the thoroughness and system with which these co-operating denominations have sought to face the problems which the Church must meet in the American cities if they are to meet.

"In approximately 70 per cent of the countries throughout America the Home Survey is under way. Some countries have been completed and can be used as typical of the exhaustive nature of this study of rural problems. It is shown as a result of these studies that, while there are not too many churches, as has been often stated, there may possibly be a better distribution of these churches and of the ministers, who are the great to-day's lack of the Church. This matter of distribution is being referred back to the denominations for a policy to be determined by them."

BUDGET OF \$336,777,572 FOR 1920 ANNOUNCED BY INTERCHURCH MOVEMENT

Thirty American Denominations, Co-operating in Program for World-Wide Extension, Seek Fund to Be Raised in United Simultaneous Campaign From April 25 to May 3.

Co-operating in a program for world-wide extension of religious effort, thirty American denominations have announced their budget for 1920, to which they seek a fund of \$336,777,572. Of this sum \$17,485,540 is to be paid in this year. Announcement of the financial program is made through the Interchurch World Movement. The raising of the money will be undertaken in a united simultaneous campaign from April 25-May 3. Of the \$336,777,572 to be raised \$220,000,000 will be expended in America.

In addition to the thirty denominations which take direct active part in the co-operative religious effort, the following additional organizations have endorsed the program of the Interchurch World Movement, but do not take their part in the financial campaign:

The Foreign Christian Missionary Society (Disciples), the Christian Woman's Board of Missions (Disciples), the Association for the Promotion of Christian Unity (Disciples), the Board of Missions, Methodist Episcopal Church (South), the Freedmen's Church, United Presbyterian, the Woman's Missionary Association, United Brethren in Christ, the Society of the United Methodist for Propagating the Gospel Among the British, Mexican Church.

Of the sum of \$34,667,107 opposite the name of the Methodist Episcopal Church it is stated that \$7,000,000 already has been subscribed in the Ordinary Campaign.

In announcing the details of the financial program Lyman L. Pierce, director general of the united simultaneous campaign, said:

"The thirty denominational campaigns will be conducted simultaneously from April 25 to May 3, each following its own denominational channels and having full freedom of action. In addition, the campaign will be a united campaign as well.

Coincident with the announcement of the budget Dr. H. Earl Taylor, general secretary of the Interchurch World Movement, issued this statement:

"In presenting the budget the Interchurch World Movement asks nothing for itself. All of the expenses incurred will be paid by the co-operating agencies, not the Interchurch World Movement, to spend the result of all.

"The budget represents an earnest attempt on the part of thoughtful Christian men and women to make a study of the world's needs as viewed from the standpoint of the co-operating churches and to lay these needs upon the whole, the needs and the consciences of the people of America, thus placing the responsibility upon the individuals who make up that element of our republic who believe that the security of our democratic foundations has been because they have rested upon the Christian home, the open Bible, the free school and the free church."

"It is proposed in every community throughout America to call on this great, friendly constituency which is not directly aided with the church as members to take its share in the raising of funds. To this end in every community there will be a United Religious Financial Campaign Committee. This committee will organize a great Christian Thrift drive, to stand side by side with the denominational divisions in providing the financial objectives of each community.

"The raising of the \$336,777,572 will be equitably and fairly distributed among the states. Each state will make quotas in the same fair ratio to each county. The county will make quotas to the community, and the community will raise the funds through an organization made up of a number of districts. Each local church will maintain its identity and be a unit in its denominational effort."

After explaining that the Foreign agency of the Interchurch World Movement is designed to distribute the

U. S. GOVERNMENT BUYS INTERCHURCH COUNTY MAPS FOR TRADE PURPOSES.

The federal government is coming to the Interchurch World Movement for information.

Charles Josiah Galpin of the Office of Farm Improvement of the Department of Agriculture has constructed for a copy of each one of the completed county maps.

Mr. Galpin, who formerly was a professor in the Wisconsin State School of Agriculture, and who is the author of many books and pamphlets and a pioneer in the study of the trade community, found in the Interchurch maps, differing the results according to trade communities instead of townships or other units, found them a great help in his governmental work.

This whole plan of work, Mr. Galpin said, has been laid out according to the scheme, but will follow the map furnished by the Interchurch Movement.

ELGIN WILLIAMS' COMMISSIONER SHINE VOICES WISDOM

Lordburg Telephone Company Are After Increased Rates.

This cause was brought to the attention of the commission on May 15, 1919, wherein the manager of the Lordburg Telephone company asked the commission to allow them to increase their local rates, and after considerable correspondence, particularly between the commission and the citizens of Lordburg, and conferences at various times held at Lordburg, the increase as requested were allowed with satisfaction that better service would be furnished the subscribers. The matter drifted along, but the service was no better. The commission then held a conference in Lordburg, endeavoring to get the Lordburg Telephone company and the Mountain States Telephone together in order to furnish better service to the patrons of that community, but Mr. Allen, proprietor of the Lordburg Telephone company, refused to have anything to do with the Mountain States Telephone company and they disconnected from their exchange, using a long distance line in one of the business houses at Lordburg which was not at all satisfactory. The commission then took the matter up with the Mountain States Telephone company and Mr. Allen to try to compel these two companies to exchange service and give that community a better telephone service as they had done in other towns. In taking the matter up with these companies they were advised that Mr. Allen had divorced his company and had sold the same to Mr. R. W. Aldrich and in doing so the Mountain States Telephone company were agreeable to consulting with the Lordburg Telephone company as soon as the manager of the Lordburg Telephone company was a working agreement. The agreement was signed on March 15 and everything seemed to be going along all right and this information was submitted to the citizens of Lordburg and the commission was advised by letters from the responsible business men of Lordburg on March 22 and 23 that the telephone connection between the Mountain States and the Lordburg Telephone companies is now handled in a satisfactory manner, and thanked the commission for its efforts in obtaining this needed service, and with this the cause was closed April 3, 1920.

Deadly—A young boy found a deadly yellow fever, Marburg's yellow fever, in the neighborhood of the river bridge, and brought the apparently dead man into town for treatment. Further investigation disclosed the presence of a white man and in the same neighborhood in an even worse condition and the fact that the two had been dined by an automobile party on route from Los Angeles to New Orleans. Both men are being held at the county jail for observation and Dr. P. M. Reed, county physician, is of the opinion that they are suffering from an overdose of the Mexican drug, mescaline, the white man by such an extent that he has not yet been able to give his name or any unimpaired account of himself.

RELIGION CURES

Religion is prescribed as a cure for most of the world's present-day ills by leaders in every walk of American life.

Presidential candidates, cabinet members, senators, congressmen, labor leaders, university presidents, governors, mayors and prominent business men all agree that in order to bring a return of right living and sound thinking and to check the dangerous social and economic tendencies of the times, we must have a revival of the spirit of Christianity, or, as some express it, a spiritual revival.

Attention was first called to the idea that anything as old-fashioned as religion might be the solution of a problem as new-fangled as Bolshevism by some London correspondence in the financial columns of a New York newspaper. The correspondent declared that "hard-headed business men" in England were looking either to strong governmental suppression or to a "quietist revival of religion" as the best hope of checking the Bolshevik spirit of the times.

The Federal government is coming to the Interchurch World Movement for information.
