

BRIEFS AND PERSONALS.

My bachelor's den is a queer little den, In the midst of a great city's den, O'erlooking the tide that goes ebbing out And the flow that comes rushing in.

'Tis cheerful and bright, 'tis a home unto me— A quiet and peaceful place— Tho' I never knew the warmth of a woman's heart Nor the light of a woman's face.

Not in the dusk as the sun goes down And smoke in a dreamful way, And gaze at the paintings that hang on the wall— Of faces and friends far away.

And one is the face of a fair young girl, As bright as the morning skies, Who smiles at me ever with angelic love From the depths of her dark blue eyes.

She was my first and only love; Forget her I never can; For her love has followed me all through life, And made me a better man.

Her's are the lips I first tenderly kissed, With a love as deep as the sea, And the last lips I kissed, as I fade home farewell, Were the lips that are smiling at me.

Alas, methinks, my love for you never grew dim Through the years of my toil and unrest, And I love you to-day as I did long ago, When you bid me to sleep at your feet.

Mr. Alfred Hawkins is in town for his health. Now for tomatoes and corn, and corn field peas. If you want advice consult a disinterested party.

Judge Watkins is receiving congratulations. It is a boy. Mrs. M. M. Moore, of Richmond, is visiting in Prince Edward.

There has been no glut in the peach market as yet. Bring them in. Miss Gettie Sutherland, sister of Mrs. H. H. Hunt, is visiting Farmville.

They tell us that the torrid heat of this summer has passed us by for good. Mrs. E. H. Russell, of Bristol, is on a visit to her mother, Mrs. J. R. Whitehead.

The military company is drilling every week at the Randolph Warehouse. Shall Farmville organize a Bryan-Stevenson club? If so some one must lead off.

Mr. Geo. Hazlegrove had the first watermelon of the season in town last Saturday. The Fair catalogue will soon be ready for distribution. Look out for the special premium list.

Call at the HERALD office and examine the New York World's monthly Magazine. We would like to have your order for next month's edition, 25 or more pages for only 5 cents.

We again ask attention of the town authorities to the dog law which is neither enforced or repealed. One or the other would be better please our citizens. Be it remembered that under an ordinance of the town, it is not the dog, but its owner that the officer has to catch. But little expense remains for detection in this law.

Every child in this section ought to be enrolled as a contributor to the Soldier's Monument Fund. If not a dollar, let it be half the amount; or even five cents will list you among other contributors. Send your donation to the HERALD and you will receive proper credit.

Where an advertiser trusts entirely to the compositor to arrange the display of his advertisement, he is very apt to be disappointed in the way it will look when he sees it in the paper. The very line which he wished most prominent will probably be set in small type, whereas something that he is not particular about calling attention to is shown up in big letters.

Of course, to have knowledge of proper type in which to set advertisements requires thought and attention until one has drilled himself into the correct ways. Deed of Assignment.

Mr. C. W. Gills a merchant of Farmville, who for some months past has been doing business in the Harvey store, made a deed of assignment last Tuesday to Mr. S. P. Vanderveer, trustee. The schedule of accounts in the deed is as follows, which show an indebtedness of \$519.27: E. L. Morris, \$150; Rorer & Co., Petersburg, \$191; J. A. Gills & Co., \$51.27; N. B. Davidson, \$48; Farmville Commercial Co., \$32; Holman & Oysterhout, \$9.00; Geo. Richardson, \$9.00.

The deed requires that all the goods are to be disposed of as the trustee thinks best within the next four months. Correction. FARMVILLE, VA., July 23, 1900.

Editor Herald:—I sincerely desire to correct an error which occurred in my communication to your paper last week. In it I stated "that to my knowledge not one of our country friends had contributed one cent toward the building of our monument." In this, in one sense of the word, I was mistaken. We have had two large and a few small contributions from that source, and I would call names, but have been requested not to do so.

In each case and in justice to myself and them, permit me to say, the parties contributing live so near, and their every interest is so closely identified with our town, that I considered them one of us. For this reason I made the statement. I trust my country friends who were so seemingly slighted will accept this my apology for same. Far be it from me not to give credit where credit is due.

The Old Reb, S. W. PAULETT. Letter from Bryan. In reply to a letter of congratulation which was sent him by a 16 to 1 admirer of Farmville, the following was received: LINCOLN, NEB., July 17, 1900.

MY DEAR SIR:—I thank you for your congratulations. We enter the campaign of 1900 with every prospect of success, but whatever may be the result I shall be grateful for the confidence and good will manifested by my countrymen. Yours very truly, W. J. Bryan.

Mr. W. H. Hubbard moved to appropriate \$50 to the Prince Edward Fair Association. The motion was lost by the following vote: Messrs. Hubbard and Burton in the affirmative, and Messrs. Dupuy, Haskins and Scott in the negative.

Mr. N. H. Garland, superintendent of poor, submitted his report for the year accompanied by satisfactory vouchers. From it appears that the total expenses of the poor farm were \$1,147.29 and the total receipts \$751.95, making actual costs to the county \$395.34. Of this amount a considerable portion was expended in permanent improvements. The report was approved and ordered to be filed.

The treasurer's report was received and approved. It will be published in full in another issue of this paper. No Coat. Editor Herald:—Is there any reason why a farmer when he comes to town during the heated term should not leave his coat at home? No coat in the cornfield and coat and vest on the hot streets of town make town visiting a burden. What say you?

FARMER. Not a bit of it. Leave your coat at home and your vest. You can bring your pocket book in your pants pocket. Glad to see you, coat or no coat. There is quite a brisk demand for real estate. If you have any to sell you will do well to consult us. Farmville Farm Agency. Excursion. The Masonic excursion from Farmville to Norfolk on August 1st, will be run on the following schedule: Leave Farmville, 7:00 A. M.; Rice, 7:16; Burkeville, 7:30; Crewe, 7:40; Nottoway, 7:51; Blackstone, 8:03; Wellville, 8:13; Wilson, 8:20; Fords, 8:32; Church Roads, 8:42; Petersburg, 9:10. Returning, leaves No folk August 2nd, at 7:45 P. M.

His reply was, and in that to me is the mystery and not the cruelty of present financial conditions, "because the bank will pay back our money on demand and our neighbor will or cannot." That this farmer spoke the exact truth I have abundant testimony of recent date. Take such example as this: A farmer who has been renting land and saved some money, wants to buy land and own his home. Laudable and noble we all say, and when he finds the place to suit him he has only enough of ready cash to pay one-third of the purchase price. But the party who offers to sell wants all cash.

The would-be purchaser hears of a farmer reported to have some money. He goes to him, explains the situation and offers to give first lien on the land to secure balance of the purchase money, and to pay 6 per cent for its use. The excuses for not accommodating him run in this wise: "Just invested all my surplus," "Just bought a piece of property myself and it required all the ready cash on hand to pay it." "My money is all tied up," &c., &c. A little deeper probing elicits this reply: "The fact is I am afraid of my neighbor with real estate security, and prefer to put my money in bank at 3 per cent, pay 1 per cent to the tax gatherer and feel safe." My brother, that's your high privilege, but when you have exercised it, it does not become you to complain of the city richer and the country poorer. You help to make it so. I believe that the time is coming in this country when the earth, out of which we dig our living, and in the bosom of which we will rest after death, will be considered the best security known to man, and I could give the reason for my faith but that these letters are consecrated to farmers and farming interest and Farmville rather than to finances. Not one line of politics in them.

"S. D." reminds me that reporting the wheat yield by the acre and by the bushel are two vastly different things, and so we confess. Will be more careful in future. Speaking of town and country, while I have been noting a number of improvements in each, I have failed to call attention to the striking contrast between Farmville's old-time and Farmville's present-day printing office. When I first entered the Journal office I found an antique printing press, moved only by hand, and from which, by hard and persistent work, one side of the usual edition of the paper could be gotten out during a long summer's afternoon. With the new press, moved by water, the same results can be attained in 20 minutes. An order for 5,000 posters, with a job press moved by the foot, struck terror to the heart of the printer, but now you can do nothing which so delights him as to order by the tens of thousands. With such an office, and a full stock of paper, bill heads, envelopes, &c., to select from, I do not see how the people of Farmville and surrounding country can afford to send away to have printing done, and pay express charges.

Everybody is rejoicing at the coming of the magnificent rains. It is generally agreed that it is in time to save the tobacco but that much of the corn crop has been cut short and beyond the hope of relief. Still the promise remains, "Seed time and harvest." A number of our farmers have sowed peas, and they are now looking well. Those are wise farmers. ON THE GO. VIRGINIA NEWS.

Monday evening an altercation took place in Waterford, Loudoun county, between Warren C. O'Hara and Ernest Mullen, in the presence of a number of bystanders. After some high words the quarrel apparently subsided and O'Hara turned away. Mullen, however, seemed to suddenly become infuriated, and seizing a baseball bat that was lying near, struck O'Hara a terrific blow over the head, bringing him to his knees, and while he was in this position again struck him a heavy blow. O'Hara fell prostrate and died in about twenty minutes, never having regained consciousness. Mullen made off, but was hotly pursued by Deputy Sheriff D. H. Vandever and a number of citizens, and was finally captured and brought back to Waterford. O'Hara was about 26 years old, unmarried, and it is said, had served with the District of Columbia Regiment in Cuba. Mullen is apparently not over 22 or 23 years old and is also unmarried. He is a son of Mr. C. F. Mullen, a worthy citizen of Waterford, and had hitherto been a peaceable, quiet youth. It is said the difficulty grew out of derogatory remarks made by Mullen about a young lady friend of O'Hara's.

Lizzie Dandridge, colored, was shot in the abdomen in Newport News last Monday night. She claims that Ernest Jordan did the shooting. Her condition is very serious. Jordan escaped. The material for the long-distance telephone line up the Virginia peninsula from Lee Hall to Richmond, has been ordered, and as soon as it is delivered the actual work of construction will begin. The line from Newport News to Lee Hall has been in operation some time.

The Newport News grand jury, among other indictments, Monday, returned one against Frank Welsh and George Kennedy for highway robbery. They were arrested about June 1st for drunkenness, and while they were in jail the graver charge was made against them by A. F. Tressel. Mrs. Frank Phoebus Tuesday began suit in the circuit court of Elizabeth City county against her husband, Frank Phoebus, for absolute divorce, alleging desertion. The case will come up at the August term. Mrs. Phoebus is a well-known society woman of Hampton, and the case promises to be a sensational one.

A terrific thunder storm passed over York county last Sunday. While it was in progress Mr. and Mrs. George Hogge sat in their home, near Goodwin's Neck, engaged in conversation, their little child playing about the floor at their feet. A deafening crash of thunder, followed by a vivid flash of lightning startled them, and the next instant the bolt struck the chimney. It followed the masonry down into the room in which the family were, and glancing off, struck Mrs. Hogge. She fell from her chair dead. Her husband was stunned by the same bolt. A large glass vase on the mantle was shattered, and a fragment in falling struck the child in the neck, causing a perhaps fatal wound. Mrs. Hogge was about thirty years old, and was married only two years ago. Her entire body was burned and blackened. The lightning, passing through the floor, also killed a hen and eighteen young chickens, which had taken refuge from the storm under the house.

A bill recently passed by the Ohio legislature provides that in the absence of a contract agreement women shall be paid the same wages as men. In the attempt to enforce a similar law in Kansas last year many women lost good positions. Wages, in the case of both men and women, are regulated by something more powerful than legislation, to-wit, conspicuous effectiveness. A Chicago man jeered at a cyclist for riding in the mud, and when the criticism was resented beat the wheelman severely. The justice before whom the assailant was arraigned said sagely that a cyclist had a right to ride in mud if he wished, and the critic had to pay five dollars and costs for his forcible objections, and got off easy at that.

A crowd of Missouri politicians broke the rule recently and went to church. When the contribution box reached them the one on the end threw a silver dollar in it, and turning to the others, who were digging in their pockets for some change, he said: "Never mind, boys—this is all paid for." A Boston contemporary reports that a cemetery company of that city has decided to exclude automobiles from its burying ground lest the horseless vehicles should cause runaways, which might create havoc among the tombstones and monuments. A woman in Hinsdale, N. H., has been appointed assignee of the local savings bank.

Thousands Have Kidney Trouble and Don't Know It. How To Find Out. Fill a bottle or common glass with your water and let it stand twenty-four hours, a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.
