

The Cortland Road Cart.

CONSTRUCTION

In the manufacture of this wonderful cart, only the very best quality of everything is used. Wheels, Keeney patent, A 1 grade; axle steel, double collar, 2 1/2 inch shafts, best second growth hickory, thoroughly seasoned, XXXX quality. The seat and body frame is constructed of T steel side pieces; bottom made of veneered wood, three thicknesses. The cart is fitted to side pieces. The side pieces are connected in front under shafts with a joint, and are supported by double riveted to side pieces. These springs are made from best of steel, and twelve feet coiled in each, oil tempered, laminated wood seat bottom; forged iron seat rail; finished in the whitest paint, and full leather trimmed. This cart guaranteed in all parts.

- CAREFULLY NOTE THESE POINTS.**
1. This easy riding cart has no seat levers to climb over in getting in or out of the seat. This makes it desirable for all classes of people.
 2. It is the only cart that can be adjusted to suit the road and the weight of the rider. Five seconds will produce this great result.
 3. The bottom is solid, in preference to slats so commonly used, which protects driver from dust and mud.
 4. Where other carts have from 2 to 3 foot springs, the spiral has 24 foot springs, giving more elasticity than any other cart made.
 5. It is the lightest draught cart in the market.
 6. It balances perfectly.
 7. It is free from horse motion.
 8. A perfect beauty in appearance.

TO HORSEMEN

A TEST.—Place 2 or 4 scantlings 8 or 10 feet apart on a road, and then drive over them as fast as your horse can trot or run. We will guarantee that the rider shall not be moved from the seat by such a severe test. Try any other cart and watch the result.

We guarantee the springs for 5 years. Should they break, we replace them free of charge—also guarantee shafts 12 months. Ask any other manufacturer to give you such a warranty and see what he will say.

If you are told that other carts have no horse motion, it is only when the horse is standing still, for with such carts, you surely get a very unpleasant jerking motion, that is entirely avoided with our spiral spring cart.

We have this cart with double seat only. Always buy a good article.

L. H. Ames & Son,
PUNGOTEAGUE,
Farm for Sale.
As I shall give up farming and go into another business, I now offer for sale my farm situated on Chincoteague Island, Accomac county, Virginia. The property is very desirable and consists of about forty acres of improved land, with a good house containing four rooms, and a good fence nearly one-half mile and white oak posts. There are two pastures, one fresh and one salt, and a creek running within one hundred yards of the house, and a public road running through the farm to the business centre of the town and to the steamboat wharf. The property is in all good condition and will be sold at a bargain to any good farmer. It is well adapted to corn or trucks of any kind as it is excellent level land, and not more than half a mile from the steamboat landing of the town. The farm will be sold on reasonable terms. For further particulars apply to
