An article published in ENTERPRISE last week, stating that Mr. E. T. Nock, Philadelphia, had sold his commission and shucking business to E. P. Timmons, Chincoteague, was a mistake. Mr. Nock has not sold out but has associated with him in the business, Messrs D. J. Wheaton and E. P. Timmons, under the firm name Nock, Wheaton & Co. We cheerfully make the correction and in connection therewith take pleasure in recommending the new firm, which the old firm has so long enjoyed. The old and new members of the firm, individually and collectively have our hearty endorsement, and are in all respects worthy of the favors of the public.

NEIGHBORHOOD NOTES.

Mappsville.

Mr. John W. Gillespie went to Baltimore, last week, to attend the baptism of his son George, who is at school in that city.

Mr. George White, flour merchant of Baltimore, recently visiting relatives in this village, shows his confidence in our continued prosperity, by investing in farming lands in our county.

The organization of a brass band was effected here last week. Judging from the personnel of the company its success is beyond a doubt. The combination is irresistible—money, talent and energy are bound to win.

Our young people have been recently greatly entertained by the "spirit table rappings." The table has brought several messages not altogether encouraging to some of our young candidates for matrimony.

Our village seems to be prospering, beyond any year of its existence. All trades and professions are crowded with work, and we have plenty of room for two or three more good men who understand shoemaking, cart-building, etc. The parsonage is the only building without an occupant, and it will probably be soon occupied.

Physicians strongly recommend salt water baths in winter, using a handful of salt thrown in a tub of hot water, but the Rev. Richard Walsh disdains such an artificial contrivance and has during the week been trying the virtues of Nature's great bath tub, the briny Atlantic.

The first Saturday in February, 2 p. m., is the regular meeting day for the election of officers for the ensuing year, of the Mutual Live Stock Insurance Association. All and every member is expected to be on hand, as several important measures will be introduced looking to the enlargement of the business of the company, making radical changes in the business methods and aims hitherto prevailing in the company.

Chincoteague.

Mrs. Bettie Holaway, the oldest inhabitant of the Island, died on the 1st, aged 98 years.

Mr. Charles Dale, of Bishopville, Md., has accepted a clerkship with Mr. Archie Jones.

The advance agent of the Rein family was here this week and "billed" the town for an entertainment on 16th inst.

Miss Annie, daughter of Lambert Jester, after a sojourn of several years in Philadelphia, has made Chincoteague her home again.

Rev. J. W. Turner has resigned as pastor of Union Baptist Church, to the regret of all its members and at a meeting Monday night his resignation was accepted. He will preach his farewell sermon Sunday night. Re-announcement is to be his next home.

The order of Heptasophs, 75 in number, had a grand feast on Wednesday night, at town hall, honored by the wives, sisters and sweethearts of the members, as guests. It was voted a delightful affair by all in attendance.

Arrivals at the Atlantic hotel, this week: Louis Phillips, Phila.; W. H. Tidestone, Rochester, N. Y.; J. D. Mears, Balt.; E. R. Sipple, Georgetown, Del.; Peter Scarborough & Son, Girdletrce, Md.; D. B. Boggs, Dover; Alfred Chessor, Thos. C. Kellam, Accomac.

Capt. Benj. Sharpley arrived here in his schooner, Monday, and reports that he found a valuable prize off Great Egg Harbor, on 23d ult. The schooner Calvin S. Edmonds, bound from Norfolk to New York, loaded with lumber, with no one on board, was found and taken in charge and delivered by him to tug Idelwilde, to be taken to New York.

The leading business men of the principal towns from here to Georgetown, Del., waited on the officials of the P. W. & B. R. R., a few days ago and demanded an extra passenger train. It was shown that the business of the road entitled them to it. Their demands were acceded to and an extra train is to be put on the route, to leave Franklin city, 1 p. m., at an early day.

If you wish the best brick on the Peninsula at bottom prices, apply to M. H. German, Delmar, Del.

Belle Haven.

A postoffice will be established soon at Willis' wharf, with Mr. J. Alfred Ames, as postmaster.

Mr. and Mrs. Wm. S. Ashby, of Baltimore, are in our town, on a visit to Mr. and Mrs. Dick Taylor.

Mr. William Bird and Miss Lillie Drummond, were married at Franktown, February 4th inst., Rev. W. J. Twilley, officiating.

A protracted meeting has been in progress in our M. E. Church, South, for the last two weeks, conducted by Rev. W. J. Twilley. Rev. C. D. Crawley was expected to assist, but so far has failed to put in an appearance.

The population of our town is still on the up-grade, the enterprising citizen contributing to its wealth and prosperity this time being Mr. A. J. Ward. The youngest and oldest inhabitant (with one or two exceptions) in our village, now reside in the limits of his castle.

No family is enjoying the comforts of life within their reach that are without a good reclining chair. The Onancock Furniture House can furnish you with them—suitable for the sick-room, parlor, sitting-room, piazza or lawn, or any place where solid comfort is desired, light, flexible, durable and handsome, and operated with perfect ease—have more desirable points than any reclining chairs to be found for a moderate price. Call and see them.

Correspondence.

Mr. Editor—The time is at hand when the Democratic Chairman of the county will call for a Convention. The object of this meeting will be to fix upon the mode and time of nominating candidates for the ensuing Spring elections. Your correspondent believes he speaks advisedly when he says that a majority of Democrats in the county desire a change from the mode usually adopted. The system of primaries is entirely open to objections, among which the following may be mentioned:

1. The plan is cumbersome; it not only involves the people in the political strain of two elections, but is an unjust and burdensome tax upon candidates.

2. For the above reason it narrows the choice of available candidates, excluding men who might otherwise be the choice of the people, but who are naturally unwilling to enter a political muddle involving two canvasses.

3. The plan is unjust and unfair, not only to the party but to the public, inasmuch as it involves the possibility of a single candidate who would necessarily receive the nomination, however incompetent or unavailable. In any event, the candidate must seek the office, and not the office the candidate.

4. There is no issue which can be made in a primary that is not either personal or factional—a deplorable result in either case. Such a canvass therefore must necessitate the agitation of questions not only dangerous to the candidates themselves but to the harmony and welfare of the party.

5. Though claiming to be the only fair test of the will of the party, it is more than doubtful if it always is so. In view of the above facts, the following outline of a plan for making county nominations is submitted for the consideration, not only of party leaders, but of the rank and file:

1. That nominations for county elections be made by a county Convention.

2. That this Convention be composed of delegates sent from precinct meetings, on the basis of one delegate to every Democratic voter, no delegate to cast more than his individual vote.

3. That the county Convention be called for a Monday, at the Court House, and the precinct meetings be held on the preceding Saturday.

It will be seen that the object of the above plan is to place nominations in the hands of representative Democrats from all parts of the county, and to confine the discussion of factional issues, and personal questions of fitness and availability within strictly party lines. That such a representative body of men could so faithfully and wisely reflect the will of the people as is generally done by a primary election will hardly admit of doubt.

While there is manifestly, much truth in the charge that Conventions are subject to the devices and tricks of political wire-pullers, it is equally true that primaries are not above reproach. No one will pretend to deny that culpable indifference, unfair misrepresentations, bull-dozing and even vote-buying are the occasional fruits of such elections, and that the result often depends more upon the skill and assiduity of the canvasser than upon his fitness and claim to the nomination.

A DEMOCRAT.

Mr. Editor—We have seen in the columns of your paper, a communication of Capt. W. James Somers, saying that we endorse every line of Capt. O. A. Browne, which appeared in ENTERPRISE of January 3d, which we bitterly disapprove, have to say in reply, that we know nothing of the Association, named by Capt. Somers. The Association further declares, that in their judgment, it would be starvation for the poor laboring class of the oystermen of this Commonwealth to lease or sell her "Water," and ask the oystermen of Tidewater Virginia, to carefully consider the matter.

COUNTY COURT PROCEEDINGS.

January Term, 1891.

The jury empanelled for the trial of George Richardson for the larceny of the money of Mr. Francis T. Stockley, returned the verdict of one year in penitentiary, with a recommendation to Governor for executive clemency, in consideration of the age of the boy, his previous good character and the unusual temptation in his way to commit the theft. In pursuance of the verdict, a petition setting forth the facts, signed by every member of the jury, Judge of county court, clerk, sheriff and Commonwealth attorney, will be taken to the Governor by Mr. U. B. Quinby, one of the attorneys of the prisoner, and application will be made for a commutation of the sentence to county jail, which will doubtless be granted and should be. It was in evidence that the boy was 15 years of age, heretofore was of exceptionally good character, had entered the store and taken money from safe both left open, was penitent as soon as he fully realized the crime and acknowledged the same.

In the case of the Commonwealth vs. Samuel Lewis, on trial for the murder of George Twyford, a verdict of murder in the second degree was rendered and term of imprisonment fixed at five years in penitentiary. A new trial has been granted him on account of error of jury in ascertaining their verdict. Ten of them being for five years in penitentiary and two of them for four years, they decided by lot the manner in which the conflicting opinions should be reconciled, by putting white and black checkers in hat and calling upon deputy sheriff to draw for one, the white representing five years, the black four years. The deputy drew the white checker—hence the verdict. The law does not recognize verdicts arrived at by chance.

In case of Commonwealth vs. Henry Watson and Louis Savage, colored, tried for entering a store in night time with intent to commit larceny, jury returned verdicts of five years in penitentiary in each case, and they have been sentenced accordingly.

Orders for its goods are respectfully solicited through its advertised agents.

Very respectfully, A. J. MORSE, Treasurer. Hoffman's Wharf, Va., Feb. 4th 1891.

Mr. E. E. Nock, representing Fitzgerald, Wedge & Co., Baltimore, is now in the county to supply our merchants with everything they need in the grocery line. The firm is beyond doubt first class and everyone will endorse Mr. Nock as a worthy representative who know: his men.

Mr. T. J. Powell, has just completed a tour of the county, in the interest of Wm. M. Powell & Co. It will be no surprise to anyone to say that their clever tourist was loaded with orders. His excellent firm has the confidence of all our merchants and he always gets them.

The Johnstown Jew has moved his stock of cheap clothing from Accomac C. H., to Onancock, and now occupies the building of Mr. T. A. Northam, opposite drug store. Customers are invited by him to call early as he offers too big bargains to linger long at a place—and proposes to stay there only a few days.

"Hiawatha" is the king of all high grade flours. [Continued on Second Page.]

Does it not seem clear to any reasonable and unbiased mind that the oyster industry is paying indirectly to the State its pro rata of tax? We feel confident that the lawmakers of this State will consider the matter fully before they act, and when they do act it shall be characterized by wisdom and foresight. We don't ask the State to appropriate any funds for the protection of the oyster beds, other than that paid in by oystermen in the shape of licenses, etc., for that specific purpose. And if the revenue thus derived is not sufficient to meet the requirements of the protecting force, then we are willing to pay more taxes to make it sufficient. We are not anarchists as we have been called, but freemen contending for our rights and privileges, which guarantee to us peace and plenty. We would be less than men, yes, entirely unworthy the name of freemen if we did not raise our voices in denouncing a proposed measure so detrimental to our best interests. No, Mr. Editor, we cannot remain silent while the forgers are preparing a chain with which to shackle our hands and then to pass us over to a set of monied masters, slaves, for all time. Mr. B. would hold out the idea, that our oyster law is a failure, and the oyster industry is dead or dying, but he cannot persuade us to believe it in the face of the fact, that there has been more money realized from the waters of Pocomoke Bay by citizens of Accomac for the past two oyster seasons than ever before in the same length of time. Consequently we do not feel the necessity of following the example of Conventions. All we require is an amendment to the present law so as to require oysters to be culled on the rocks, and the shells and unmarketable oysters be thrown back on the bottoms where they were spawned, and the industry will take care of itself. Connecticut's oyster industry has a capital investment of \$3,322,111. Her catch of the past year amounted to \$1,232,146, wages paid 1,024 laborers was \$262,562, or \$2.57 per employee, this includes skilled workmen also, leaving a nice little dividend to shove down into the pocket: if the monopolists, of \$968,584, or over 20 per cent. of the money invested. This beats traff out of sight, in making the "rich man richer and the poor man poorer," inasmuch as it takes the natural bottom from the multitude and places them in the hands of a few monied kings, and the State is to pronounce this state of things its protection and preservation of the industry according to Mr. Browne's theory, but we fail to see it in that light, and offer this our protest in reply.

UNITED OYSTERMEN. Mr. Editor—We, the oystermen of Mearsville Association, seeing in the columns of your paper, a communication of Capt. W. James Somers, saying that we endorse every line of Capt. O. A. Browne, which appeared in ENTERPRISE of January 3d, which we bitterly disapprove, have to say in reply, that we know nothing of the Association, named by Capt. Somers. The Association further declares, that in their judgment, it would be starvation for the poor laboring class of the oystermen of this Commonwealth to lease or sell her "Water," and ask the oystermen of Tidewater Virginia, to carefully consider the matter.

CAPT. T. R. CHASE, Chairman. LEWIS T. SHRIEVES, Secretary. Mearsville, Va., January 29th 1891.

Announcement. To My Fellow Citizens of Accomac: I hereby announce myself a candidate for re-election to the office of Commonwealth's Attorney at the election for county officers to be held in the Spring, subject to a primary election, or whatever method the Democratic party may deem proper to adopt for the selection of candidates.

I desire to be re-elected to said office, and if you think it to your interests to favor me by another term in office, I will most gratefully appreciate it; and hereby pledge myself to do in the future as I have done in the past—prosecute to the best of my ability every violation of law that is brought to my notice, without fear or favor to any man, and with an honest and sincere effort to act fairly towards all. And with the use of the additional knowledge gained from an experience of a little over five years in office, I beg to assure you that I am better qualified than ever to discharge the grave and responsible duties of said office.

Very respectfully, JAMES H. FLETCHER, JR.

Mr. P. Dalby, of Northampton, has accepted a situation with Smith Brothers, Philadelphia, and was in our town in the interest of the firm on Tuesday. He now represents one of the best and oldest wholesale grocery houses in that city, and is too clever a knight of the road to fail in convincing our merchants that it will be to their interest to patronize him liberally.

Hopkins & Bro. Onancock, are now prepared to furnish their customers with peas, reefer salt, all kinds of fertilizers, glass and merchandise generally.
