

will yet save politics. I know the charge that she is responsible for the ruin of her race, since she first ate the forbidden fruit in paradise, but I think there is a chapter in that matter of Edenic fruit not written. I think that Adam when he saw Eve eating that apple asked for a bite, and getting it into his possession at the most of it, and he immediately took the tree for more apples and has been eating ever since. If woman did first transgress, I cannot forgive her the introduction into the world of the only being who has ever done much toward saving it. Woman has started for suffrage, and she is a determined and persevering creature, and she will keep on until she gets it. She may yet decide the elections in England and elect presidents for the United States, as already she is busy in the political affairs of New Zealand. I was surprised also in those regions to find how warmly loyal they are to old England. I had heard that they had become somewhat impatient of their governmental mother. But this is not so. They practically have things their own way, electing their own parliament, and all governors sent out from the old country are such men as are agreeable, and the people are required to pay no tax to the British crown, and they are in good humor with the British flag.

LADY THOMSON - - - STRAWBERRY.

This fine Strawberry originated in Wayne county, North Carolina, with Mr. Thomson, whose name it bears, and has more excellent points than any berry now grown, being early, very large, a perfect bloomer, and a good grower and shipper—has perfect shape, good color and fine flavor. It yielded 100 quarts per acre in 1893, and has proved its adaptability to adverse as well as favorable surroundings. In unusually dry seasons while other berries have succumbed to the drought and many plants died, the Lady Thomson has held up and yielded a full crop of large, fine berries. In North Carolina they are ready for market early in April, several days in advance of Hoffman's and have been shipped with profit from 20 to 40 days, when market was broken and other berries were worthless. Plants can be set from September 14 to April 1st.

The following testimonials from well known commission merchants furnish ample proof of their superiority over every other berry:—

Dear Sir:—The "Lady Thomson" berry is my favorite on our market and holds all other berries in its own hands. The best criterion of our high opinion is, that we expect to order plants for our own farms and to recommend them to our friends.
