On Saturday evening the young people of our town met at the Town Hall for a few hours of fun, at a "Tacky Party." Some of the young ladies were dressed in the flouery their grand-mothers wore in the early sixties, while others by the use of bright colored ribbons and gay calicoes, made a picture that caused many a sober face to break into smiles. A good barber is badly needed at this place not only for the convenience of the people here but of the surrounding country. A first-class tonsorialist would find with us abundance of work and a field for labor which would yield him a satisfactory income. A competent man in that line of work would receive a cordial welcome to our midst.

Great excitement prevailed in this community last Monday morning, when it was reported that two of the pupils of our High School were sick with scarlet fever. It did not last long, though, as Dr. J. H. Hiden, the physician in attendance upon them, after a careful diagnosis of the cases, reported later in the day that there was no danger of the other pupils contracting the disease, as too much time had elapsed since his patients had been withdrawn from school. The Board of Health, however, concluded it was best to close the school for a week, which will be reopened on next Monday if no other cases are reported, and up to noon of Wednesday none had been.

Mrs. Simmerman's Musical.

The musical given by Mrs. Simmerman, at her home, in the afternoon of January 20th, was much enjoyed by those present. Of course the mothers there felt proud of the progress the young people are making under the careful training of their efficient teacher. Even the casual observer could not fail to see marks of persistent patience on the part of the instructor. One thing especially commendable was that the pupils noticed carefully their music and not their fingers. The keys of the piano are found by instinct, which, in this case is the product of practice. Only he or she whose eyes follow the music can be a musician. X.

Letter From Countyman in the Sunny South.

Dear Mr. Editor:—A few weeks ago, I wrote and told you of my trip to West and South Florida. Now, I wish to say a few words about the East coast of Florida. I spent last Sunday in the beautiful city of Miami. It was my pleasure to deliver addresses there in the First Baptist Church and two Methodist Churches on last Sunday, and the churches were just filled to overflowing each time.

Miami is a very, very pretty little city. I thought I had never seen anything to equal it, as I rode through her beautiful streets, and gazed upon her palms, cocoanut groves, beautiful gardens and yards, all laden with tropical fruits and flowers and then I visited the Royal Palm Hotel and I learned that in size, it was thought to rank second to but one, and the furnishings on the inside were just grand, and as I took in the beautiful lawns, walks, shade-trees, flowers, grass and trees around and about this hotel, I said I do not believe that it can be surpassed in beauty. But Mr. Editor, I am now at Palm Beach, and I have been through the "Royal Ponceanna Hotel" and all others are as nothing scarcely in comparison with this, the largest hotel in the world.

The Ponceanna has 200 rooms, and her dining table will seat 1,800 people all at the same time, and I am assured that very often every table is filled. Then I went through the sitting rooms, parlors, and I have never in all my life seen anything to compare with the grandeur and beauty that is spread about the rooms of this great hotel. Then I went through the yard and gardens, and never saw such beautiful flowers in all my life. Then we passed through the halls again, and I was just like walking on "downy pillows," as we walked on the fine Brussels carpets, such as I had never seen before, although, it has been my pleasure for years to be time and again entertained at the homes of the wealthiest in the land in the different States that I have visited. Then we went to the Flagler residence. You never saw anything like it in all your life. And then we strolled down the marble walk to the edge of the old ocean, and I once more took a look at the mad billows as they came rolling in from the old Atlantic. And then I thought of home, sweet home, and of the billows there that come and kiss the lovely shore of our dear old Accomac. God bless the home of my infancy, my childhood and my manhood. I love her sacred soil.

If I should live, I will be on my native soil again on January 30th. But Mr. Editor, I don't expect to make another speech in my native county, but I am going home to take a rest. But how sudden will be the change to that climate? Here, so warm, no snow, no ice, no frost, all sunshine. I go to Daytona to lecture in 3 churches on next Sunday. Some say it is a prettier place than Beach. I have not been there, but I don't believe it can be. From there I go to De Land, and thence to Palatka, and from Palatka to St. Augustine, and on Friday of next week, I will start for Norfolk, Va., where I will speak on Sunday morning, January 29th, for Rev. Dr. Blackwell, of the First Baptist Church in Norfolk, and in the afternoon at the Y. M. C. A.

If I live, I will come to Florida again. It is a land of flowers sure enough. It must be, or many men would not come here and pay \$1,000 per day for a room at the "Royal Ponceanna Hotel."

Yours sincerely, W. T. Bundick.

West Palm Beach, Florida, January 18th, 1905.

Deaths.

Mr. George G. Allworth died suddenly of angina pectoris at his home at Accomac C. H. on Tuesday, aged 44 years. In his usual health on that day until noon, in a few minutes after that time he had passed away to the regret of all the people of the town and community. He was a popular young man and worthy of the high respect and esteem in which he was held by his many friends throughout the county. He is survived by his wife and one child, one brother, R. L. Allworth, of Eastville, and a sister, Miss Christina Allworth, of Baltimore.

Funeral services were held over his remains at Makemie Presbyterian Church on Thursday and interment was made in Edge Hill cemetery. His pallbearers were: Jno. S. Parsons, Jas. H. Fletcher, Jr., Thos. W. Blackstone, Wm. P. Bell, Edward J. Ayres, Thomas H. Melson, Dr. J. H. Ayres and E. D. Waddy.

Mr. Ralph Burroughs, a worthy citizen of upper Accomac, in declining health for many years, died Sunday at his home, near Assawoman, aged 72 years. He was buried from the M. E. Church, South, Temperanceville, Tuesday, Rev. J. A. Winn, his pastor, conducting the services, and interment was made in the cemetery near that village. His wife, and son, Mr. W. C. Burroughs, and two daughters, survive him.

Three Light-house Bills Pending in Congress.

It is probable that Congress will pass three bills for light-houses at this session. They were all introduced by Representative W. A. Jones, of the First district. One of these bills is for a lighted beacon at the mouth of Pungoteague creek. It was referred to the committee on interstate and foreign commerce, which committee, after having taken the matter up with the department of commerce, reported the bill favorably to the house. A beacon light was established there in 1854, but it was carried away by the big flood of 1856. Since then there has been no government light there, though the river men between Norfolk and Washington have repeatedly asked for one. There has been a private light maintained, however, and the department says that where there is so much need of a light that one is maintained at private expense it ought to be provided for by the government. It therefore recommends that \$8,000 be appropriated for the light.

The second place that will be provided for by congress is at Ragged Point. The bill was offered by Mr. Jones and provided for an appropriation of \$30,000 for a light and fog signal station. The light-house board has recommended every year since 1896 that the appropriation should be made. The light-house board says that the point is a dangerous one and must be provided for.

The third light asked for is off Cherry Point, Piankatank river. It is said by vessel men that the craft of the Potomac find it difficult to navigate at this point after night unless equipped with search-lights, and both the light-house board and the department of commerce recommend that an appropriation of \$5,000 be made for the establishment of the light. The committee on interstate commerce has adopted the recommendations and sent them to the house. The three bills are now on the house calendar, and Mr. Jones will endeavor to call them up under unanimous consent as soon as he can. The three bills are the only light bills that are pending in congress from Virginia.—News Leader.

Letter to B. T. Melson, Accomac, Va.

Dear Sir: Messrs. Leachman & Edelin, Grafton, Va., had been selling a paint, which they thought well of; and this had occurred. They had sold a customer 12 gallons of it to paint his house. A few years later, they sold the same man Devco lead and zinc the same number of gallons to paint the same house. He had 7 gallons left. The point of the sale is: 12 gallons Devco paints an 18 gallon house. Do you want to sell it? Of course, that isn't all. Why does 12 gallons Devco go as far as 18 gallons of other paint? Because it is all paint, all true, no sham, and full measure. Do you want to sell it? But that isn't all. Devco lasts longer. No, no; you haven't got to wait ten years to find that out. Ten thousand people know it. We've got their names. Our agents know them; they think a heap of Devco. There's no difficulty in showing your townspeople what to expect of Devco. \$10 will paint a \$15 house; and the paint 'll last twice as long. Do you want to sell it? Yours truly, F. W. DEVCO & Co., New York.
