FEW HERE KNOW THIS.

Home-Made Treatment to Overcome Rheumatism.

When an eminent authority announced in the Scranton (Pa.) Times that he had found a new way to treat that dread American disease, Rheumatism, with just common, everyday drugs found in any drug store, the physicians were slow indeed to attach much importance to his claims. This was only a few months ago. Today nearly every newspaper in the country, even the metropolitan dailies, is announcing it and the splendid results achieved. It is so simple that any one can prepare it at home at small cost. It is made up as follows: Get from any good prescription pharmacy Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking in a bottle and take in teaspoonful doses after each meal and at bedtime. These are all simple ingredients, making an absolutely harmless home remedy at little cost.

Rheumatism, as every one knows, is a symptom of deranged kidneys. It is a condition produced by the failure of the kidneys to properly filter or strain from the blood the uric acid and other matter which, if not eradicated, either in the urine or through the skin pores, remains in the blood, decomposes and forms about the joints and muscles, causing the untold suffering and deformity of rheumatism.

This prescription is said to be a splendid healing, cleansing and invigorating tonic to the kidneys, and gives almost immediate relief in all forms of bladder and urinary troubles and backache. He also warns people in a leading New York paper against the discriminate use of many patent medicines.
