Trees and Plants Must Have Phosphates It's Not in the Soil, It's in NATURSOWN

Each tree in every grove and each plant in garden or field must have a certain amount of phosphorus. Citrus and vegetable growers know this statement to be a fact.

Most soils are deficient in phosphorus, therefore, this plant food must be supplied. The question is which is the most efficient and economical method.

NATURSOWN Supplies All Needs

A few years ago the grower or farmer had but one recourse-the commercial product known as acid phosphate. Today, however, persistent enterprise and improved machinery have brought about the reduction of raw phosphate to particles so

fine that the farmer can do his own acidulating in the soil.

NATURSOWN is a high grade phosphate, which, because of its thorough pulverization and its 32 per cent phosphoric acid content, provides trees and plants with all the phosphorus required.

Growers Have Obtained Results

In experiments made at the Maryland experiment station, it was found that raw phosphate produced higher total acreage yields than acid phosphate, and at less than

A progressive farmer near Orlando plowed in NATURSOWN with his cover crop and made the best yield in sixteen years. Many others have secured big results with NATURSOWN.

MODEL RURAL SCHOOL BLDG, AND GROUNDS AT OWENS

Five Miles Southwest of This City. Members of the State Teachers' Association, Which Meets Here Christmas Week. Will Be Driven Out to Owens For the Purpose of Viewing This Building and Grounds as a Model for Rural Communities.

The new school building at Owens was dedicated last Friday night, A splendid program was given, which included an address from Captain George M. Lynch, a three-act play by members of the school, and a number of recitations by the pupils. A large crowd was present, estimated at over three hundred persons,

The school house is a handsome five room building erected at a cost of \$3,000, and is a credit to the progressive people of this community. The citizens are now beautifying the yards and grounds, next Friday being set as Work Day" for this purpose,

When the State Teachers' Association meets in this city Christmas week the state superintendent, state supervisors of schools, superintendents and teachers of the state will be driven out to Owens in autos for the purpose of viewing this building, which will will be exhibited as a model rural school building and grounds, Hurrah for Owens!

SHORT COURSE FOR CLUB BOYS AT UNIVERSITY

The grown up rarmers have their citrus seminar, live stock meet, and farmers' short course. Future farmers will have their own meeting this year at the University of Florida. The extension division has planned a short course for club boys. This meet ing will be held during the week of December 4. Expenses of most of the boys will be paid by scholarships won in club contests. The scholarships will include transportation to and from Gainesville and board and lodging during the course,

Each boy will exhibit ten ear samples of corn. It is expected that some pigs will be shown also. A series of lectures and demonstrations have been planned so that the boys may receive instructions that will aid them further in club work and future farm operations. Mornings probably will be spent in class work and the afternoons in laboratory exercises and demonstrations. Some field trips will be made in the vicinity of

The juice of grapes, apples, and many other fruits can be concentrated without heat by means of the freezing method developed by the United States department of agriculture,
