THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 six months; \$1.25 three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local columns 10 cents a line for first insertion, and 5 cents for each additional insertion.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

General Batinoff says "the Japs are tricky." Suppose he means they got the odd trick.

Joseph Jefferson, the venerable actor, died at his winter home at Palm Beach Sunday night.

To the Northern tourists in our midst: Read the weather reports before you pack your grip for home.

A few more electric street lights in different portions of the city would be of much convenience to pedestrians.

The war news of the past week has not been sufficient to keep the numerous strategy boards at their desks.

It is hoped that the battleships will soon leave Pensacola, so that the Legislature can get down to business.

Rojevstevsky says: "If this be treason, make the most of it; but, as for me, give me neutrality in preference to hostility."

The apple without a core will be an attraction at the Portland, Oregon, fair. It has no seeds, and the codling moth will not trouble it.

Atlanta will have a May musical festival. An auction sale of city lots was held in time for the leading baritone to test his voice for the festival.

The investigation going on must be costing the beef trust some money, as it has made an assessment to meet expenses—raised the price of meat.

The Jacksonville Times-Union is making a special feature of legitimate sporting news, and its reports of the baseball games are sought by the fans.

Some of the papers that favor government ownership of railroads are kicking quite hard because the government owns a print shop and does a little job printing.

Good roads will have a tendency to hurry up the free rural mail delivery in this State. In some places the distances generally allotted carriers could not be covered in time on account of the heavy roads.

The industrial developments in the South for the first half of the current year will surpass all previous records. There is also a wonderful diversity of industries, and the figures are swelled by the new fuel and lumber companies.

Several of our State exchanges speak in highest terms of praise of the reception given members of the Old Fellows' order, at the meeting of the Grand Lodge in Gainesville last week. They assert that the beauty of Gainesville is only exceeded by the hospitality of its people.

The Republicans realize that there is need of an increased revenue, but dislike the idea of increasing the tax on beer and whiskey, owing to their ever watchful care of our infant industries. Hence a tariff advance on tea and coffee will be shared by the whole people and at the same time maintain their devotion to the cause of protection.

## EAST FLORIDA SEMINARY.

The bill before the Legislature asking for State aid for the East Florida Seminary in this city is certainly a most deserving one and should be wisely considered by our State solons, as it is a recognition of one of the most carefully conducted institutions of learning in the State of Florida, which is rapidly advancing along this line. There are many points in favor of this school, which are apparent to all: The location of Gainesville in the healthiest portion of Florida, where all are free from infectious diseases of any nature; the pure water with which the city is supplied, and the moral atmosphere of the city, which is free from any resorts which have a tendency to allure our young men and women from the path of rectitude.

Another notable feature is the high educational qualification and moral standing of the faculty of the Seminary. Each member is devoted to the work in hand, and the interest manifested in the students and the moral influence given forth, cannot help but arouse the nobler ambitions of those who are seeking knowledge at their hands, and excite in them an effort to attain the higher gifts to be enjoyed by a thorough and practical education.

Other schools may be seeking the same noble ends, but the East Florida Seminary we are familiar with, hence have no hesitancy in singing the praises it so richly deserves as an institution of the higher education of those seeking after this end—a credit to Florida.

## GOOD MR. ELKINS.

Few people realize the tender sympathy the great Senator Elkins has for the people. His conduct causes much alarm among his friends, lest his noble heart cease to beat for suffering humanity. A Washington correspondent says:

"The Senate committee on interstate commerce has gotten to work and is holding daily hearings on the subject of railway rate legislation. As a starter Senator Elkins, chairman of the committee, invited nearly fifty railway men to appear before the committee and testify as to why the government should not attempt to fix railway rates. When the railroad men have concluded their testimony 'such others as may desire' will be at liberty to testify. To the unprejudiced observer it will appear as if the committee was more anxious to hear the railway men than the opposition. Of course the railway men who come to Washington will have all their expenses paid by their companies and their salaries will go on just the same, while the shipper or other opponent of the present system must come here at his own expense, often leaving his business to suffer in the meantime."

The guile of this great and good man is enough to cause a smile of derision on the countenance of any who know his methods.

A Georgia paper says that State needs a few men of brains in the Legislature. How this fact was discovered is more than one can conceive, having always depended on something else. A cash register would be the thing.

The Orange County Citizen "trows" a small fit because there is talk of pensioning policemen. But the policemen are pensioned by the municipalities where they have served, so The Citizen will not be taxed for that purpose.

**PISO'S CURE FOR**  
CURES WHERE ALL ELSE FAILS  
Best Cough Syrup. Tastes Good. Use in time. Sold by druggists.  
**CONSUMPTION**

The meeting of the American soldiers of '61-'65, the Blue and the Gray, to be held at Washington, D. C., May 11th and 12th, will bring together the survivors of the two greatest armies that were ever drawn up in line of battle, the armies of citizen soldiers who faced each other in one of the most desperate struggles ever known to history. And the best of all is that these brave soldiers of the two contending armies meet at this time as brothers, in a united country, with all imaginary sectional lines obliterated, ready to stand shoulder to shoulder in defense of their common country. We are too busy now, and we hope too sensible to hold anything but a brotherly feeling for our friends of the North, and the South is every day manifesting this feeling toward those who come into our midst to recuperate their failing health.

## Drummer Jumps Out of Window.

Birmingham, Ala., April 24.—A special to the News from Hattiesburg, Miss., says that W. H. Wilhelm, a Chicago drummer, under the impulse of excitement, leaped from the third story of Weidmann's hotel this morning, broke his leg and sustained injuries which are expected to prove fatal. Before leaping from the window Wilhelm beat his nurse, Henry Gross, into insensibility with a chair and both were taken to the hospital together. Wilhelm has a family in Chicago.

## Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work. Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.
