

### FROM EXCITEMENT TO HAPPINESS

Was the Experience of Will Clark of High Springs.

#### COMPELLED TO KILL TWO MEN

To Protect His Own Life, Because He Had Spirited Away the Girl He Loved and Intended to Marry—Was Vindicated and Wed.

From the scene of a most exciting tragedy in which he was compelled to take the lives of two fellow-men in self-defense, from the embarrassing conditions which naturally follow such a deed, to the matrimonial altar, all in the short space of a few days, is the interesting experience of Will Clark of High Springs and one which he cannot forget, as it involved all that was dear to him.

Will Clarke was engaged to a Miss Mizelle—a handsome, fascinating young lady with cheeks as crimson as the summer rose and eyes as bright and sparkling as the morning dew—against the will of her uncle, I. L. Mizelle. There was no apparent reason for opposing the match, since young Clark was a moral young man; but at any rate the uncle objected, and it is said several times ordered him to cease his attention to the girl. Love and determination, however, went hand in hand, and it was arranged that Mr. Clark should take the young lady to relatives in Fort White, return for a license and marry the young lady. He did accompany her to Fort White, but upon returning to High Springs in company with another man he was met by Mizelle and his stepson, Pete Reddick, who informed him that they were looking for him and proposed to beat him to death. They dragged him from the buggy and proceeded to carry out their threat, and in the scuffle Clark managed to get hold of Mizelle's pistol, with which he killed both Mizelle and Reddick instantly.

Clark proceeded to High Springs, where he wired the sheriff of Columbia, in which county the tragedy occurred, that he was ready to surrender. He was taken into custody, but a trial by the court gave him his freedom and the following day he was married to the little woman who had been true to him to the last.

Mr. and Mrs. Clark are residing in High Springs, where they are quite popular and have many friends.

#### THE STATE UNIVERSITY.

A Pointed Reply to The Lake City Index Item.

The following item from The Lake City Index is replied to by a communication in The Palatka Times-Herald, which we publish below:

The people of Lake City owe a debt of gratitude to Senators Gillen and Adams for the successful fight they made for the University which they can never repay.—Lake City Index.

We have known for years of the existence in Lake City of factions, political divisions, strifes, and betimes disgusting scandals in connection with her school interests. The public generally has been apprised that a large part of the community were not in sympathy with the State University.

But with all this before us, we were not prepared for the above statement on the part of The Index. Senators Gillen and Adams voted for the bill that in one fell blow abolished the University of Florida located at Lake City, and The Index says that the people of Lake City owe a debt of gratitude to these gentlemen for their successful fight.

Is this a confession that the University is obnoxious to the people of Lake City? That they do not want a State institution of learning in their midst? What other interpretation can be given to these words?

Perhaps this is the method that they have adopted to serve notice on the board of trustees provided for in the Buckman bill, that they do not desire the new University to be placed there; that they feel grateful that the old one has been abolished and don't care to be annoyed with another? Certainly the board of trustees will not attempt to force upon the people of Lake City an institution that they do not want.

No school can thrive in an antagonized atmosphere. The establishment of a university is a momentous undertaking. The social, political, moral, religious and intellectual environment should all be favorable to its growth and development.

Let the board consider well the surroundings before fixing upon a location for the State University. A. C.

Nashville, Tenn., June 10.—Twenty-one guests of a local hotel were taken suddenly ill shortly after dinner. #### Cured of Bright's Disease.

Geo. A. Sherman, Lisbon Red Mills, Lawrence county, N. Y., writes: "I had kidney disease for many years and had been treated by physicians for twelve years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every fifteen minutes, day and night, and passed a brick-dust substance, and sometimes a slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." J. W. McCollum & Co.

Taken prisoner with Glick was his 3-year-old son, John, who was given in care of the Gerry society. Glick declared that his arrest was outrageous and he had a perfect right to take his own child if he did not see fit to leave it in his mother's care. Mrs. Glick and her husband's brother are on their way to Erie to this city.

## SCROFULA A Disease We Inherit

The tainted blood of ancestors lays upon the shoulders of innocent offspring untold suffering by transmitting to them, through the blood, that blighting disease, Scrofula; for in nearly every instance the disease can be traced to some family blood trouble, or blood-kin marriage which is contrary to the laws of nature. Swelling, ulcerating glands of the neck, catarrh, weak eyes, sores, abscesses, skin eruptions, white swelling, hip disease and other deformities, with a wasting of the natural strength and vitality, are some of the ways this miserable disease manifests itself. The poison transmitted through the blood pollutes and weakens that health-sustaining fluid and in place of its nutritive qualities fills the circulation with scrofulous matter and tubercular deposits, often resulting in consumption. A disease which has been in the family blood for generations, perhaps, or at least since the birth of the sufferer, requires constitutional treatment. S. S. S. is the remedy best fitted for this. It cleanses the blood of all scrofulous and tuberculous poisons, makes it rich and pure and under the tonic effects of this great blood medicine the general health improves, the symptoms all pass away, there is a sure return to health, the disease is cured permanently while posterity is protected. Book on the blood and any advice wished, furnished by our physicians, without charge.

Scrofula appeared on the head of my little grandchild when only 18 months old, and spread rapidly over her body. The disease next attacked the eyes and we feared she would lose her sight. It was then that we decided to try S. S. S. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return. 150 S. 5th St., Salina, Kan. Mrs. R. BERKLEY.
