

ALACHUA COURT SEEMS VERY SLOW

Decision Has Yet Been Rendered in Sessions Murder Case.

SESSION SINCE MONDAY

Court Being Conducted Behind Closed Doors, and None But Those Connected With Same Are Allowed Entrance—Little Excitement at Alachua.

While no definite particulars are reliable evidence in the killing of young Sessions at Old Newsansville some during Saturday night have been learned, parties from Alachua state that a young white man, N. Slaughter, and two negroes, Lewis Sullivan and Jackson, have been arrested in connection with the case.

Just what time the killing occurred is not known. About 10 o'clock Sunday morning a colored man went to the home of Robert Davis, Newsansville, and told Mr. Davis that a man was lying drunk or sick in the road a few rods in the rear of his (Davis') house. Mr. Davis, in company with Love and the negro, went to the scene, when they recognized Sessions and discovered that he had been murdered.

A coroner's jury was empanelled and upon the case Sunday afternoon. Monday, the defendants were arraigned before Justice Caswell at Alachua. The decision of the court has not yet reached this city.

An Alachua Report.

Alachua, July 18.—The trial of N. Sessions, charged with the murder of Sessions, is still on. The trial is being heard before Judge Caswell, and has been in progress since Monday afternoon at 2 o'clock. No one but those directly connected with the case are allowed in the court room, hence it is impossible to learn how the trial is progressing.

A great many people are here to attend the trial, but there is very little excitement. It is thought probable the trial will close tonight, but the outcome cannot be forecasted.

MR. CARTER IS PLEASED.

Deeply Impressed With Gainesville and Located Family Here.

Among the prominent South Florida settlers to Gainesville is W. J. Carter of Tampa, who is extensively engaged in the lumber business at that point. Mr. Carter is well pleased with Gainesville, especially since it has been decided to locate the University of Florida here, and has sent his family to reside here permanently on account of educational facilities. Mrs. Carter and children are pleasantly located in the Fiewellen cottage, East Main street, and are perfectly contented.

Mr. Carter is one of the leading and most prosperous citizens of Tampa. He owns and operates a large saw mill near Lakeland, in Polk county, where he cuts his own lumber for the market. He has secured the contract for furnishing the lumber and erecting the immense buildings for the Florida State Mid-Winter Fair, which will be held in Tampa from November 15 to 30 of the present year.

"The Florida State Fair is going to be the finest thing that ever happened for the State as far as advertising is concerned," remarked Mr. Carter. "The officers and directors are determined to make it a winner, and are working to that end. The main building will be 910 feet in length by 95 feet wide, and will contain 72 exhibit apartments, with a wide hallway between and an elevated platform above, so that visitors may get a bird's view of the situation. The material to be used will be first-class, as the Fair Association has a lease for five years, and propose to erect substantial buildings."

Mr. Carter is also a stockholder in the Fair, and has great confidence in its possibilities for benefiting every section of the State.

Feel Impending Doom.

It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried several physicians without relief. Only one bottle of Foley's Kidney Cure cured me." Geo. W. Moyer, McColl.

A DIFFERENT VERSION.

J. H. Stark Claims That Nelson Was the Aggressor in Altercation.

Editor Sun: In your issue of July 13 appeared an article under the head of "Nelson in Trouble." Please allow me space to correct this most gross misstatement of facts. I am a subscriber to your paper and have been for years, and cannot believe that knowingly you would permit the publication of such an untruth to gratify the malice of Nelson, at whose instigation the article must have been written.

Now, the facts in the case are these: There had been a little argument and cutting about a cow previous to the shooting, and not after, as Nelson states, in which he was the aggressor and cut me first. After a little we were parted and, in company with my family and some friends, started home. Nelson lives on the west side of Campville, but instead of going home after the trouble he proceeded to his father's house, the east side of town, in the direction of my home, procured a gun and cut off my retreat. The first notice I had of trouble was when I saw Nelson with his gun raised to his shoulder to fire, ordering me to stop. My wagon was loaded with women and men, and I fired at him fearing that he would kill some of us. After the shooting he got down from the horse and ran and we never got near enough to harm him after the shooting and did not try to. Why should we go to Nelson's house and tell his father that we had murdered him when we knew he was alive? In either case it would have been the work of a fool. We understand Nelson's little game. I am to have a hearing next Wednesday and he thinks that little piece will influence the court and jury, but he is mistaken. J. H. STARK.

NEW YORK TEMPERATURE.

Reached 104 Degrees in New York, While We Were Comfortable.

New York City must be a warm proposition at this season of the year, for C. W. Chase telegraphed Col. H. F. Dutton yesterday that the thermometer stood at the highest 104 degrees. People in Florida would make a strenuous "kick" at the weather clerk on this temperature. We summer "stay-at-homes" who cannot afford to leave our business for various reasons are compelled to sleep under cover at night, while those who go North for "comfort" must recline under an electric fan in order to breathe with ease. Our advice to Northerners is, come to Florida to keep warm in winter; come to Florida to keep cool in summer.

OFF TO CUBA.

J. O. Andrews Departed Tuesday for That Republic for a Few Days.

J. O. Andrews left Tuesday for Havana and other points in Cuba, where he will remain for the next two or three weeks. He will go direct to Havana, where he will join a party from Louisiana and Arkansas, who are looking for homes. He is agent for lands, and expects to place a sugar growers' colony in Santa Clara Province, and a colony from Arkansas in the Province of Pinar del Rio.

Hill Denier of High Springs accompanied Mr. Andrews on his trip.

Moonlight Parties.

Moonlight parties seem to be popular fads at this season, those inclined for a good time taking advantage of the full moon. On Monday evening a party of young people participated in a moonlight drive to Newnan's lake, and last night another party comprising Messdames J. S. Bodiford, C. A. Nichols, Chas. Allen and J. W. McCollum, and Misses Jessie Bodiford and Kattie LaFontsee, with a number of other friends, visited the same place. The moon was bright and the party enjoyed the ride and the outing immensely.

Change of Schedule.

A change of schedule will go into effect on the Atlantic Coast Line today, which will effect two trains leaving this city. The train for Jacksonville, which has been leaving at 2 o'clock in the afternoon, will now leave at 1:50, and the train which has been making its departure for High Springs at 6 o'clock p. m. will, beginning today, leave at 3:10 o'clock. The traveling public will be governed accordingly.

Cheerfully Recommended for Rheumatism.

O. G. Higbee, Danville, Ill., writes, Dec. 2, 1901: "About two years ago I was laid up for four months with rheumatism. I tried Ballard's Snow Liniment; one bottle cured me. I can cheerfully recommend it to all suffering from like affliction." 25c, 50c and \$1. Sold by W. M. Johnson.

Cotton Climbing Upward.

New Orleans, La., July 18.—The cotton market was active today with the prices mounting upward as rapidly as they went down last week. The general belief that the new government acreage report will show a reduction of at least 15 per cent compared with the report of June of only 11.4 per cent, and the unprecedentedly bad crop reports, were the causes of the rise. At one time the range of prices was about 80 points higher than the lowest of the reaction of last week.
