## CASES AND DEATHS

### Development in the Country With New Orleans and Activity Proves that the is Over.

Oct. 19.—With the successful federal campaign during the yellow fever near New Orleans is rapidly returning to normal conditions and it only remains to restore complete activity.

Quarantines have been recently lifted entirely by municipalities to permit large country people to come to town. Houses are also man-ning their men out into the country. Drummers are going first to the country which have removed from these sections to their respective territories.

Probably there will be some cases during the exceedingly low season. The probability is great that the complete disappearance of the disease makes its appearance. Authorities confirming that there is very little to be feared by the insignificant cases that are occurring.

Development in the country that in the city. In New Orleans there was but a single case at Patterson within the last 24 hours indicating that the disease is immuned.

Only 13 remain in the city. The disease spread from a wide stretch of territory.

Parish on the Mississippi which at one time reeked with the disease is now declared to be free.

At New Iberia are in one section of the city. The disease has been restored there and the taste of quarantine it is anxious to have all removed. At Lake Providence hospital has been the white hospital will go to the city this week. Nurses are being sent from New Orleans from that city who fled from the various parts of Louisiana at which the disease is now returning, being large to be past.

A large number of people are coming here for the president. Crowley expects to arrive on the 25th. On the Bayou La Prouve parish will remove the disease.

The League has decided to carry on lectures it gave during the summer and continue them through the winter. The idea is to combat with the desirability of infected mosquitoes have gone into hibernation.

Invitation to visit the Emergency hospital probably be cancelled because of the time he gets here. Dr. White will probably participate in the president's visit today one new case of disease and no death had been reported.

## RUSSIA TO FLOAT BIG LOAN.

### Czar's Government Will Borrow Over Three Hundred Million Dollars.

New York, Oct. 19.—Some details concerning the proposed new Russian loan of \$360,000,000 became known in this city today. The details came to hand in a late edition of the Paris Temps and some others were obtained from an authoritative banking source full detail of the program.

It was definitely said that it is the present intention of issuing the full amount of \$360,000,000 half of which it is proposed to place in France, with the balance divided in about equal proportions with bankers in London, Amsterdam, Berlin and New York. For a period of time said to be one year, the loan, which it is intended to be identical to all countries, will not be interchangeable or saleable outside of the country in which the various proportions are issued.

New York's proportion of the loan will be about \$50,000,000 or exactly \$15,000,000, if the plan of dividing the half not taken by France, is apportioned equally among the four other participating nations it was stated.

A syndicate is already forming here to underwrite the New York allotment which in all probability will be handled locally by J. P. Morgan & Co., which firm has sent Mr. Perkins to attend the St. Petersburg conference.

As to the issuance price of the loan, whether all countries will stand on the same footing, there is a difference of opinion, or at least the question has not as yet been definitely determined.

It is said, however, that the bonds would, in all probability, be a 4 per cent issue, and sold to the bankers at 99 less a commission of 2 per cent.

## POLICE SEEM POWERLESS.

### To Check the Italian Blackmailers in Their Operations in New York.

New York, Oct. 19.—More effective measures are being taken, it is admitted, by the police that they are powerless to check the army of 5,000 camorristi who infest New York.

So bold have these brigands become that the success of their black-mailing Italian merchants and escaping even suspicion of complicity in the crime that their demands are increasing at an alarming rate. So systematized has the campaign of brigandage become that, according to Sergeant Petrosino, who yesterday applied to Commissioner McAduff to have the force of Italian detectives at police headquarters increased from five to 30 and that members of the band are employed in many of the little Italian banks, scattered through the east side, to watch the deposits of the small merchants.

"At present we are helpless to a great extent against these desperados. They know the penal code from end to end. I have information that there are not less than 30,000 members of the camorristi in this country, working under twelve leaders stationed in the principal cities."

## WOMEN SOLD TO CHINAMEN.

### Traffic in Human Flesh is Exposed by Chicago Police.

Chicago, Oct. 19.—Traffic in young women, purchased in Chicago for practical sale in all parts of the empire of China has been discovered by local federal and police authorities, but thus far no law has been found prohibiting the exporting of American women to foreign countries.

The police are in possession of the names of two women, one in Chicago and another in Shanghai, China, who are thought to be leaders in the practice.

The plan used in the operation of the alleged ring was, it is believed, to first hire unsuspecting women, tempting them with lurid stories of wealth in the Orient. A position of maid or high servants in wealthy Chinese families is said to have been the bait offered. To bind the contract, the applicant for the position was told that her traveling and living expenses would be paid and all the clothing necessary furnished.

When the women reached China, they were immediately placed under guard and sent to the purchasers, who had previously paid from \$500 to \$1,000 for each.

Many are supposed to be held in palaces of wealthy Chinese under guard.

### Army Officer is Being Courtmartialled for His Matrimonial Venture.

Leavenworth, Kans., Oct. 19.—The divorce suit of Concepcion Vasquez, the Filipino woman, against First Lieutenant Sydney S. Burbank, Sixth infantry, which has attracted much attention in the army, has been decided in favor of Mrs. Burbank.

Word reached Fort Leavenworth today that Judge Bates, of the court of first instance at Hilo, P. I., had granted a divorce to Burbank's Filipino wife, and given her the custody of their daughter and allowed her monthly alimony.

Mrs. Burbank brought action after Lieutenant Burbank's return to the United States and after his engagement had been announced to a prominent young Leavenworth woman. The war department provided counsel for the deserted wife.

Lieutenant Burbank is now being tried by courtmartial at Hilo on the charges growing out of the case just decided.

### Will Carry the Cases of Their Clients to United States Supreme Court.

Macon, Ga., Oct. 19.—Attorneys representing the white man and four negroes now enjoying the writs of habeas corpus of the federal court make positive declarations that they will immediately carry their cases through the state courts and thence to the United States supreme court, in order to test the issue as to whether the Macon recorder has a right to impose chain-gang sentences without according trial by jury.

This is to be done because Judge Spear was reversed on the question of jurisdiction. Plans are being made for a long and bitter fight over this question.

Jackson will have recourse by appealing through the state courts, and this stay will be taken at once. The city council, through resolutions of thanks, expressed to City Attorney Wimberly tonight an appreciation of the manner in which the case was handled.

The departure from Washington was without incident. The president and Mrs. Roosevelt reached the train five minutes before leaving time. The French ambassador and Mme. Jusserand had been waiting at the station some time to say farewell and were at once invited to the president's car. The president was in a happy vein. As he alighted from his carriage at a side entrance to the train shed he assisted Mrs. Roosevelt out and then smiled and raised his hat to the half hundred spectators who had gathered to see his departure. There was no demonstration. Four white wings lined up at the curb and lifted their helmets. In the station the public was barred behind the gates several hundred feet away, and those who surrounded the last car of the special train were mostly depot employes. Their caps were in their hands as soon as the presidential party made its appearance and respectful silence reigned.

Just before the train moved out the president stepped from the observation room to the rear platform of his car and smilingly bowed acknowledgments to the flutter of handkerchiefs of the crowd.
