THE DAILY SUN, published every morning except Monday, delivered by carrier in the city, or mailed to any part of the United States, postage free, for \$5 a year; \$2.50 for 6 months; \$1.25 for three months; or 50 cents for five weeks—strictly in advance.

Reading notices in local column 10 cents a line for first insertion, and 5 cents for each additional insertion. Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for \$1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

The Oser hangs on to his job with as much tenacity as does Senator Depew.

They are now insisting on W. J. Hillman running for Governor, whether he wishes to or not.

Chanancy Depew must be getting quite deaf. He declares he has heard no good reason why he should resign.

The Panama canal appropriation carries an item of \$17,000 for laundry. There will evidently be a wash-out on the line.

The prospects for a Presbyterian college in Atlanta are good. They should have something to occupy their time between the State election and the 1910 exposition.

The man who eloped with the Connecticut woman who left her twenty-seven children behind ought to be made to live with the whole bunch and have them fed on bread and molasses.

Hetty Green keeps about \$800,000 worth of diamonds on hand at all times. She never wears any of them, but she knows that they increase in value at the rate of 3 per cent a year and holds them as an investment.

The Farmers' Club of Pasadena, Fresno county, is holding regular meetings. The farmers of every county should organize clubs and hold regular meetings, and they will find that an exchange of ideas will be very beneficial.

Mrs. Butler (Annie Oakley), the crack rifle shot, hit the bull's eye for fair when she got \$2,000 damages from The Metropolis. Other papers that claim they use the same telegraph service that The Metropolis does had better watch out.

There is plenty of room for factories in Florida, and the sooner they are started the better it will be for the country. The few canning factories that have been started have all done well. The brick factories are busy and there is a demand for more. Florida is booming.

The demand for laborers on the farm is good all over the State, and especially in the western portion, where men find employment in the lumber mills and on the railroads that are now being built. There is no excuse for idleness in this State, if a man is able to work.

The land owners of the State should spare some of the beautiful pine groves that are to be found in various places. The odor from these pines is very healthy, and they are much enjoyed by all who come here in search of health. Besides, their value for timber will soon be great.

The wires are ready to send out the messages of the races at the Daytona auto races. If a few accidents are not sandwiched in, it will be a wonder. But we sincerely hope none will happen, for the event is a great one for Florida as it will advertise the Ormond-Daytona beach throughout the world.

THE BUCKMAN LAW.

Editor Koonce of the Somter Times gives the following apt discourse on the Buckman bill, which, coming from one who is only interested as a good citizen, we deem worthy of consideration:

"We thought when the Buckman bill had been decided by the Supreme Court to be constitutional it would stop the discussion for awhile. But it seems not. The very peculiar thing is that some of those who were such strong fighters for it before the Legislature now discover (when the University was not located at Lake City) that it is such an awful bad bill and robs the people of so much money. We have never been disposed to discuss the merits or demerits of this measure. As a rule we do not favor sudden and radical changes, but we do not see the great injustice to the common people which the erstwhile supporters of the measure now see in it. We do not see where it interferes with or breaks up the country schools. On the contrary we believe the plan is an encouragement to the country free school, and we believe this fact is being demonstrated every day by the improvements in the county high schools and the increasing number of them. After all, isn't it better to have these high schools in each county, right at the poor man's door, than to have several so-called colleges scattered about over the State which are in reality but little if any better than the county schools? And all this talk about 'graft' is there more opportunity for two institutions to 'graft' than six? One would have to think so to find any reasoning in some of the articles printed. Mind, we do not say that the six institutions were up to that game; we like to think well of all people and if we think that the authorities in charge of six were honest we don't see why those in charge of two may not likewise be honest. All these general charges of 'graft,' plunder and extravagance sound fearful, but in this age we like to have something definite and specific. We dislike to see this question dragged into politics; we want to see the educational affairs of the State conducted and discussed in a more dignified and becoming manner. The charge was sudden it is true. Miss Florida was probably like the old maid who had her first offer of marriage. She said: 'this is so sudden.' At the same time she recognized that a change wouldn't be much worse and it might be lots better to try a new plan awhile anyhow."

"Will those who are so strenuously abusing the law, now that the University was not located at Lake City (and who favored it when it was up for consideration by the Legislature), on the grounds of expense, tell us something about the appropriations asked for by the various State schools last session, how much has been appropriated during the last ten years? And during all that time what standing in the educational world did a degree or diploma from either one of the State schools give? How did they compare with other State universities? Now that we have only one for boys and one for girls let us put up the standard and make them rank with any in the Union, and not be mere preparatory schools. Let's get together on this and have our preparatory school at home."

Mr. H. S. Chubb, receiver of the land office at Gainesville, and who is at the head of the Republican party in this State, passed through Ocala Saturday on his way to Tampa. Mr. Chubb makes a good official and has a happy way of making friends not only with his own party but with the Democrats as well.—Ocala Banner.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. F. J. CHENEY & Co., Toledo, O. Sold by druggists, 75c. Take Hall's Family Pills for constipation.

SHOW-DOWN ON RURAL ROUTES.

Postmaster-General Cortelyou in his reports made public recently outlines a policy of stricter adherence to the legal regulations of rural mail routes. Most important to rural route patrons is his intention to "discontinue without delay any route where it is found on inspection that because of a lack of appreciation of the service the expenditure involved is unwarranted," and the announcement that where patronage is insufficient to warrant a daily delivery substitution will be made of a every-other-day service. Not every route is appreciative and too many patrons look upon the service as something to which they have the same general right as they have to receive mail at a post-office. The \$14,000,000 deficit has brought the government to the conclusion that there is little sense in spending the people's money on those who do not appreciate it.

Marcus Braun's report says that Austria and Italy practically "farm out" their immigrants in this country, expecting them to send home their savings and retain allegiance to the mother. It seems to be a plausible explanation why so many of them do not become Americanized. And another thing should be known. The Austrian who comes to this country and saves up \$500 can return home and live in ease the rest of his natural life. The only thing they spend money for in this country is cheap clothing and food, except when they buy a foreign postoffice order to send money home.

Few people come to Gainesville that do not admire the city, and soon learn to appreciate the whole-souled hospitality of the people. There are many sections of the country, North and South, where you will find good people, but there are none better than in Gainesville and Alachua county. Those who come here to locate lands can get them cheaper here than in most places, and the products show the soil to be good.

Tampa expects soon to have a city hospital. So will Gainesville.

INSOMNIA

"I have been using Cascarets for Insomnia, with which I have been afflicted for over twenty years, and I can say that Cascarets have given me more relief than any other remedy I have ever tried. I shall certainly recommend them to my friends as being all they are represented to be."—Thos. Gillard, Elgin, Ill.
