

AT THE JAMES-TOWN EXPOSITION

A Visitor Tells How to Get Your Money's Worth.

ALL ARE AFTER THE NICKLE

Florida Legislature Made No Mistake in Putting to Make Appropriation for Exhibits—Everything for Sale Except Government and State Exhibits.

(By Dr. L. Montgomery.)

The A. C. L. from Florida lands on across Elizabeth river into Norfolk at 8:30 a. m. If you wish to see the Exposition without interruption, when you land in Norfolk it is best to go up Main street a few blocks to Church street; there take a Fine Beach car, which will carry you for 25 cents to the main entrance. Go right into the grounds and stop at the Inland Inn. This hotel fronts on Hampton Roads, and the rates are \$1 a day for room, or \$4 a day for room and meals. Out of this they get what otherwise would be your extra entrance fee to the Exposition.

You can stay on the European plan for a day (for room) the best places for meals for the money you pay at the "Old Gunwater Mill Restaurant," the "Old-Time Tavern," or "McNeill and Benson." These are the best places I found inside the grounds to get a meal, but the service in all parts, as you will be sure to see when you get there. The food is generally good, and the service the garbage of the Nation.

The standard is very poor. The service of many of the exhibits seem to be about most of the time. At the twenty per cent of the exhibits are showing there without any person to explain or tell you anything about them. There is attendance upon exhibits seems to be there more in the vicinity of children and women than elsewhere, as very nearly everywhere you see is far sale. This does not apply to the Government nor to the State buildings, but it does apply to the buildings in which all the exhibits (except Florida) have exhibits. Florida has no exhibit except in the grounds for the railroad. I think the attendance was also in not making the exhibits. You see people everywhere, but never stop to see what State they are from.

If you go there to see things, you get value received for your money, but if you go there to learn things you will get lost. For instance, in the baby incubator building I was talking all about it. A woman from South Carolina asked him what temperature they kept the incubator. He said 97 degrees. He said it was normal, but they kept it two degrees above normal.

One thing you want to see in the exhibit map showing the back route and topography of the Panama Canal. It shows you every foot of land and water from the Atlantic to the Pacific. It is made of earth-stone and water and represents the real thing. It is 60 feet wide by 120 feet long.

The building of the States is the most instructing. The Smithsonian Institute is good. The educational display is splendid, equal to anything of the kind I ever saw. Not much machinery, very little manufacturing, no picture gallery, no livestock worth looking at. The cycloramas, battle between the Monitor and the Merrimack, is splendid. The second battle of Manassas is good, and the Battle of Gettysburg is fine. Be sure and go on a warship when you feel rested. You will be tired when you come out. From start to finish you will ascend and descend sixteen stairways, and be in all temperatures short of being cooked. Sometimes 20 feet below the water and sometimes 20 feet above water. Be sure and go in the Kitchen and see how they cook, particularly making soup in a 100-gallon kettle stirred with a boat oar, but be sure and don't fall in. If you do you will be in the soup, and that will be the end of you.

Be sure to be at the band stand at the foot of the Government pier, from 7 till 9 p. m. Besides the music you will have a full view of the electric display, which is beautiful.

The Philippines building will not come up to your expectations. The Japanese display is good, and they are in for every nickle they can get out of you.

Of the State exhibits in the general States building the exhibits of North

Does Your Heart Beat

Yes. 100,000 times each day. Does it send out good blood or bad blood? You know, for good blood is good health; bad blood, bad health. And you know precisely what to take for bad blood—Ayer's Sarsaparilla. Doctors have endorsed it for 60 years.

One hundred cases of bad blood to a single case of good blood. This is the reason why Ayer's Sarsaparilla is the best blood purifier. Keep the bottle open with Ayer's Pills.

Carolina, South Carolina, Virginia, Missouri and California were the best. Really, the exhibits were extra good. Georgia, Kentucky and other States had good exhibits, but nothing to come up to the first five mentioned.

After you have been there a day or two you will find the best way to get value received for your money is to have all the fun you can, and for this purpose you want to go on the War Path (the same as the Midway of other expositions.) During all my stay I never met but one man from Florida on the Exposition grounds. That was Dr. Alderman. He was on the War Path every time I saw him. Of course, I was there too. Now to have the most fun you want to go to the Wild West Show—similar to Buffalo Bill's, but better. The horsemanship of the Indian girls was remarkable. They all rode astride on men's saddles, and were not surpassed in activity or their management of their horses by any of the men. I believe that for health and happiness every girl should be taught to ride horseback, and if any man is bogged enough to think that she ought to ride a side saddle he ought to be made to ride a side saddle all the balance of his days. Why a girl should not ride astride, same as a boy, is a question that no reasonable person will answer in the negative. The excellence and worth of womanhood as a helpmate for men, is coming to the front in many ways that fifty years ago would have been considered out of place and un lady-like. Be sure and see the Destruction of San Francisco, and take a railway tour through Colorado. See the perfect, normally-formed little woman 27 inches high, with a baby 20 months old which runs all about, talks intelligently for a child of its age and is almost as tall as its mother. Its father is an intelligent dwarf just a little larger than its mother.

In the Liberal Arts building I saw a beautiful brunette Assyrian girl, 19 years old, born in Damascus, the oldest city in the world. She said she did not like American men because they were too cold-hearted. I told her that was only an expression of modesty caused by being in company. She laughed and said she was glad I told her—she had taken it to be the nature of the men. I told her if she would just stay over here she would find American men to be fully up to date.

If you will keep memoranda and go all through you will see at the Exposition fourteen different types of man. They all differ in color, in statue and in expression. They no doubt differ in natural disposition, but they are all alike in one thing—they are all after the nickle.

In the Mayor's Court.

In the mayor's court Thursday morning there were three cases. These were:

Ed Turner and L. E. Owens, engaging in a game of chance, \$7.50 and costs each.

Henry Beasley, drunk, \$1 and costs.

Butch Tisby, gambling, case was postponed until next Monday morning, owing to absence of witnesses.

The New Pure Food and Drug Law.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

BOUGHT PECAN GROVE.

Colson & Bowers Have Secured Fine Possession on Lake Santa Fe.

There was an important deal consummated in this city a day or two ago, when B. R. Colson and G. M. D. Bowers closed the trade by which they came into possession of twenty acres of fine land planted in pecan trees on Lake Santa Fe, near Waldo.

This trade was made with Dr. L. W. Murphy, owner of the property, who gave good reasons for selling. It is one of the finest budded groves in this section of the country, and the new owners are to be congratulated upon their possession.

CARD FROM DR. KELLEY.

Says School Will Not Open Monday, and Explains Reason Why. To Teachers and Patrons of Gainesville High School:

Owing to the resignation of Prof. McBeath, it will be impossible for the school to open on the 30th inst. I am hopeful that I can arrange for the opening soon, and, when ready, will give you notice through the columns of The Sun. Very respectfully, J. L. KELLEY.

Gainesville, Sept. 26, 1907.

Happy Home Marriage.

A happy home marriage was solemnized in North Gainesville on Thursday, the contracting parties being Walter E. Adams of DeLand and Miss Lola Dykes, daughter of Mr. and Mrs. J. B. Dykes.

The ceremony occurred at the home of the bride's parents, Rev. Thos. P. Hay, pastor of the First Presbyterian church, officiating. It was a quiet affair, only members of the family of the bride being present.

Mr. and Mrs. Adams left immediately over the Atlantic Coast Line for Trenton, where they will visit the groom's relatives. After a visit there of a few days they will return to DeLand, where Mr. Adams is engaged in business, and where they will make their future home.

Cures Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar in the yellow package, and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Plate Window Fell.

One of the large plate-glass panes on the upper floor of The G. W. Hyde Company's building in some way lost its position Wednesday night and fell to the street, a distance of twenty feet or more, breaking into a thousand pieces.

The crash was heard for several blocks, and attracted many people to the scene.

It was a fortunate thing that no one was under the spot where the glass fell at the time, as there would have been something serious to have told of the incident.

If Its a Reputation

You are after, White's Cream Vermifuge has a world wide reputation as the best of all worm destroyers, and for its tonic influence on weak and unthrifty children. It improves their digestion and assimilation of their food, strengthens their nervous system and restores them to health and vigor natural to a child. If you want a healthy, happy child get a bottle of White's Cream Vermifuge. Sold by W. M. Johnson.

Tremont House Improvements.

The Tremont House, corner West Orange and North Pleasant streets, recently rented by Mrs. Brown, is undergoing a thorough repair, and will soon be in presentable shape to take care of the traveling public. For many years the house has needed repair, and the conditions have grown worse. The location is good, but the condition the house has been a backset, which has been felt by everyone who entered the place.

Of Interest to Many.

Foley's Kidney Cure will cure any case of kidney or bladder trouble that is not beyond the reach of medicine. No medicine can do more. J. W. McCollum & Co.

CASTORIA
