CURRENT COMMENT.

The Birmingham News says: "Another Sunday lynching was averted in an Iowa town by the vigilance of the authorities in hustling the negro prisoner out of the community. It seems that they don't like a negro in Iowa, either, when he gets to be a notorious offender."

The Springfield (Mass.) Republican says: "Even though the sundry bill appropriation bill carries a Presidential salary item of \$75,000, Mr. Taft will be little or no better provided for in this respect than Mr. Roosevelt has been for a year or two. In this time the President has had at his disposal \$25,000 a year, additional to his salary of \$50,000, for use in part or whole, according to his discretion, for traveling expenses. Now the \$25,000 travel fund is merged into the salary from which the President must meet his transportation costs."

The Washington Post says: "By special invitation Mr. E. H. Harriman is to address the Legislature of the State of Texas. Here will be an occasion opportune with great import; filled with possibilities of reconciliation, and a chance for the assimilation of reason. The very real octopus is to speak to the most inveterate of the octopus chasers en masse. Will they listen to this wizard of the market place and give heed to his words of facts and practicability? or will they be deaf to the tale of progress, and whirl their brains with fads of legislation and fancies of wrongs never committed?"

The Charleston News and Courier says: "Harry St. George Tucker, one of the ablest men in Virginia, is a candidate for Governor of that State at the Democratic primaries, and he has the courage of his convictions. The other day he said flatly that if he should be elected Governor of Virginia and the Legislature should pass a State-wide prohibition bill during the term of his office, he would feel it to be his duty to veto it. We do not know what effect so plain and explicit and honest a statement will have upon the Virginia electorate, but it is better that Mr. Tucker should be right than that he should be Governor."

Instead of introducing a new education bill to meet the fate of its predecessors at the hands of the House of Lords, the British government is going to bring in a bill to disestablish the church in Wales. The bill will, without doubt, pass the Commons, but the Lords will probably throw it out. This, evidently, is what the government expects and, perhaps, hopes, as such action would strengthen its position by arousing the nonconformists and the nation generally against the Lords. As is well known, the slogan of the liberals at the next general elections will be "Abolish the House of Lords as at present constituted."

There are many glaring instances of the ease with which some business men, supposedly shrewd and well-balanced, are duped by designing sharpers. One of the latest and most astounding is that of Sir Julius Wernher, who paid Lemoine, the French "diamond maker," \$300,000 for the secret of his formula and who, as the result of the arrest and trial of Lemoine got but \$2,000 damages. The formula by which the financier was victimized was "take sugar, raise it to a sufficient temperature, and you will obtain diamonds." It is evident that knaves will continue to flourish so long as such easy victims can be found.

Some conception of the expensiveness of war may be gathered when it is known that it costs as much money to fire a 12-inch gun as an editor makes in two years.

"Who are the most hopeful people in the world?" inquires The Detroit Free Press. People who reconceive themselves annually that "Washington is going to win the baseball pennant next time, sure."

A new city hall, a city hospital, a new bridge across the Hillsboro and new paving and sewerage are among the extensive public improvements now contemplated by Tampa's city council.

HAIR NATURALLY ABUNDANT.

When It Is Free of Dandruff, It Grows Luxuriantly.

Hair preparations and dandruff cures, as a rule, are sticky or irritating affairs that do no earthly good. Hair, when not diseased, grows naturally, luxuriantly. Dandruff is the cause of nine-tenths of all hair trouble, and dandruff is caused by a germ. The only way to cure dandruff is to kill the germ; and, so far, the only hair preparation that will positively destroy the germ is Newbro's Herpicide—absolutely harmless, free from grease, sediment, dye matter or dangerous drugs. It allays itching instantly; makes hair glossy and soft as silk. "Destroy the cause, you remove the effect." Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.
