

The Following is Extracted from the Frick Report Indicating the Superiority of the Annual Dividend Company:

"The Equitable, in common with several others of the larger companies issues the greater portion of its policies on the deferred distribution period plan. \*\*\* When annual dividends are paid the policy holder has an immediate and yearly recurring check upon the operations of his Company. \*\*\* On the other hand the holder of a twenty year distribution policy has no knowledge whatever concerning the earnings of his policy until the expiration of the twenty years. \*\*\* He entertains hopes for nineteen years, and, if dissatisfied with the realization at the end of twenty years, it is futile for him to protest. The incident is closed. \*\*\* The annual dividend Company is held to accountability every year. The deferred dividend Company is never held to accountability by the whole body of its policy holders; and is so held by its individual policy holders only when their opportunity for action has passed."

Some Seasonable Advice.

It may be a piece of superfluous advice to urge people at this season of the year to lay in a supply of Chamberlain's Cough Remedy. It is almost sure to be needed before the winter is over, and much more prompt and satisfactory results are obtained when taken as soon as a cold is contracted and before it has become settled in the system, which can only be done by keeping the remedy at hand. This remedy is so widely known and so altogether good that no one should hesitate about buying it in preference to any other. It is for sale by D G Smith and all druggists.

Daytona has passed an ordinance prohibiting saloons within the city limits.

A Judicious Inquiry.

A well known traveling man who visits the drug trade says he has often heard druggists inquire of customers who asked for a cough medicine, whether it was wanted for a child or for an adult, and if for a child they almost invariably recommend Chamberlain's Cough Remedy. The reason for this is that they know there is no danger from it and that it always cures. There is not the least danger in giving it, and for coughs, colds and croup it is unsurpassed. For sale by D G Smith and all druggists.
