A Short-Time Investment For Idle Funds.

Almost every business man finds himself at one time or another with a large sum of money lying idle on his hands, but which he cannot afford to tie up in an investment that may not yield him his principal at just the moment he needs it. It is then that he feels the want of an investment that is absolutely safe, that is convertible at a moment's notice, and yet which will net an attractive interest return after a short period.

Our Savings Certificates of Deposit Bearing 4 per cent.

fill this want exactly. The certificates are issued for any amount desired and bear interest from the date they are issued. They are payable on demand and may be cashed at banks everywhere throughout the country. They are transferable and negotiable. Issued by
