

When  
the Old Wagon  
Breaks

Come in and get one of our line of Studebaker wagons—the kind that stands up. If you have much hauling to do a Studebaker will pay for itself in a few months by saving you time and trouble and the expense of constant repairs.

**You Know the Studebaker Wagon**

For more than fifty years its reputation has grown better every year. This reputation is due to the good quality that has always been a part of the Studebaker Wagon. Each part is made from the lumber that is best fitted for that part. New England black hick makes the best hubs—the Studebaker hubs are made of it. Built oak, second growth black hick—very in the best for axles—Studebaker axles are made of it. Selected white oak is best for spokes and running gear—that is what is used in the Studebaker Wagon. The Studebaker Wagon.

That is why we sell it. Come in and let us talk it over. We have some interesting wagon books for every one.
