DEEP CRACKS FROM ECZEMA.
 Could Lay Slate-Pencil in One—Hands in Dreadful State—Disease Defied Treatment for 7 Years—Cured by Cuticura.

"I had eczema on my hands for about seven years and during that time I had used several so-called remedies, together with physicians' and druggists' prescriptions. The disease was so bad on my hands that I could lay a slate-pencil in one of the cracks and a rule placed across the hand would not touch the pencil. I kept using remedies after remedy, and while some gave partial relief, none relieved as much as did the first box of Cuticura Ointment. I made a purchase of Cuticura Soap and Ointment and my hands were perfectly cured after two boxes of Cuticura Ointment and one cake of Soap were used. W. H. Dean, Newark, Del., Mar. 23, 1907."

HELPFUL ADVICE

You won't tell your family doctor the whole story about your private illness—you are too modest. You need not be afraid to tell Mrs. Pinkham, at Lynn, Mass., the things you cannot explain to the doctor. Your letter will be held in the strictest confidence. From her vast correspondence with sick women during the past thirty years she may have gained the very knowledge that will help your case. Such letters as the following, from grateful women, establish beyond a doubt the power of

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

to conquer all female diseases. Mrs. Norman R. Barndt, of Allentown, Pa., writes:

"Ever since I was sixteen years of age I had suffered from an organic derangement and female weakness; in consequence I had dreadful headaches and was extremely nervous. My physician said I must go through an operation to get well. A friend told me about Lydia E. Pinkham's Vegetable Compound, and I took it and wrote you for advice, following your directions carefully, and thanks to you I am today a well woman, and I am telling all my friends of my experience."

FACTS FOR SICK WOMEN.

Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and has positively cured thousands of women who have been troubled with displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, that bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

Beware of Ointments For Catarrh That Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists; price, 75c. per bottle. National Game in West Virginia.

The Dingess Run baseball team came last Sunday and played Big Creek. A good crowd of baseball enthusiasts witnessed the game, which was interesting throughout. All present seemed to enjoy themselves very much. Luther Balsden did not play ball, neither did Robert Lucas, but they hokeyed "Hurrah for Bawoo!" and said many interesting things. Luther's voice gave out, making him unable to take an active part in the afternoon, but Robert's vocal organs served him well till the game was ended. John Thomas gave the boys some music and in the meantime Dr. W. H. Price came walking up all jubilant and smiling because he was holding an umbrella over Miss—Bawoo correspondence Logan Democrat.

Burglar Was Too Late.

We owe an apology and an explanation to the burglar who opened our office window at the week end, sought the drawer of the cashier—and was disappointed. We do not like to appear inhospitable, but on Friday night we all of us do our own thieving and there is nothing left for visitors. Any other night we will try to give another sort of surprise.—London Chronicle.

FOSSIL CAMEL BONES.

Wild Horse Remains Also Unearthed on Chesapeake Bay.

The discovery of the fossil remains of a number of animals never before supposed to have existed in the eastern States is the result of the work of exploration conducted along Chesapeake Bay by Dr. F. W. True and William Palmer, of the Smithsonian Institution.

"While we have not, as yet, compared the specimens obtained, we are looking forward to some noteworthy additions to our knowledge of the prehistoric animals of the United States," said Mr. Palmer. "We found the remains of a creature of which no specimen has, to my knowledge, heretofore been found in America, although it belongs to a group well known and still existing in Europe."

"Some of the bones found may belong to a species of wild horse once common in this region. The leg bones of this creature closely approximate the modern zebra. Other bones have been supposed to be those of a prehistoric camel. Remains of fossil horses or camels have never been found in this region, though several species of both are known to have been once common in sections of North America."—Washington (D. C.) correspondence of the New York World.
