It seems that rape is a bailable crime in the District of Columbia. A negro who confessed the crime, his victim being a respectable white woman, was offered bail in the insignificant sum of \$1,000 by a Washington judge. This is the sort of thing that increases lynchings.

It is called "The Holy Ghost and Us Society."

DRYFUS CONVICTED.

On last Saturday evening the telegraph flashed the news that Dryfus had been convicted; the farce called a courtmartial had come to an end. The news caused a wave of indignation over this entire country, and his conviction means a disgrace to France through all the ages. The whole civilized world has had its eyes on France during this celebrated trial. Drevfus is to get ten years imprisonment, unless executive clemency inter-

ALTGELD ON DREYFUS VERDICT.

Chicago, Ill., Sept. 10.-Ex-Governor Altgold declared list night that the second verdict of "guilty against Dreyfus will play an important part in the national campaign.

"The influence of the finding of that court-martial at Rennes," the ex-Governor said, "will not be confined to France, but will be world-wide. Its significance in this country will be understood readily when the imperialistic policy of the Republican Administration is exposed fully. It will carry home to the people the danger of a great standing army, which must be maintained if a nation will be imperial. Dreyfus is a vicarious sacrifice to the alleged honor of the army of France."

THAT STATE REFORMATORY.

There was a bill passed by the legislature of this State in 1897 authorizing the building of a State Juvenile Reformatory and an appropriation made for building and equipping same. After a lapse of time the site was selected, contract let, work commenced, and at last said to be finished. Now we find the following in the Tallahassee correspondence of the Times-Union and Citizen:

Times-Union and Citizen:

The S. S. Leonard Company has tendered the State Reformatory buildings, and Hon. L. B. Wombwell, Commissioner of Agriculture, visited Marianna this week for the purpose of inspecting the same. He says the location is a good one, and the buildings show up nicely as one approaches them. He found the brick work generally good, but the wood work does not look so well. In the flooring and wainscoting a great deal of inferior lumber seems to have been used, and the work does not have the appearance of being done by skilled mechanics. The plastering does not seem to be done in a workmanlike manner. Mr. Wombwell will make a report to the State, and the matter will be taken up for consideration.

Mr. Lou. B. Wombwell of Tallahassee, arrived on Wednesday in response to a summons by the local board, to determine the class of work done on the two buildings near here. In an interview with Mr. Wombwell he said that the work is not satisfactory. The contractor has locked the doors and gone to Jacksonville, as the board in Tallahassee refused to pay them more money until the buildings were properly finished.

The U. S. Dept. of Agriculture has issued a Bulletin (No. 95) on this subject, which is alive with subject matter for the consideration of every one interested in good roads, and from which we extract the following:

The series will be called "The Theatre and Its People," and will run through seven numbers of the magazine, lavishly illustrated with pictures made by twelve different artists. These articles will treat of every phase of the theatre, the play and the actor, from the inside, and will tell how a theatre is managed; the actual money which plays have made; how an actor is trained and wnat the actors are actually paid; how a play is written and what the authors receive; how a play is rehearsed; the first night of a play; how the actresses "make up" and what they use; and in a minute BILL way the two last articles will show what goes on behind the scenes on the stage during a performance It is a curious fact | NOTE that this will be the first time that the theatre and actor have been exhaustively treated in a magazine, and there is no book on the subject in existence.
