

Crescent City News

Personal and Social.

Mrs. Frank Gautier and Mrs. A. S. DeVeau spent Monday in Palatka.

M. H. Read was confined to the house most of last week by a severe cold.

Chase & Co. are again shipping fruit from the big junction packing house.

The season has been so dry that even the town pump has gone out of commission.

S. G. Salls is one of the most popular salesmen ever employed at the Preston store.

Miss Helen Tillinghast, who has been visiting in Savannah, is expected home this week.

Frosted Florida fruit, not too badly damaged, is bringing a good price in the New York market.

Capt. S. M. Labree has put on a hack between town and the junction to meet all trains; this in addition to the regular trips of the boat.

A. P. DeWolf visited Palatka on Monday. Mr. DeWolf was one of the heaviest losers by the late freeze, having some 6000 boxes on the trees at the time.

Miss Lula May Hunter is among the leaders in the Jacksonville Metropolitan prize contest. If she had a larger field she would surely prove a winner—and may be yet.

And there are a couple of shacks in the school house grounds that belong to the eye-sore class. As they have outlived their usefulness might be a good idea to raze 'em.

Mr. and Mrs. C. D. Smith left last week on a tour of the state in their automobile. They arrived in Tampa on Sunday morning in good shape and had a very pleasant trip.

The street committee of the town council, headed by the expert, Alderman Turner, has been setting out oak shade trees on certain streets. Good work that's being well done.

Mrs. A. D. Lounds returned some two weeks ago from a four month visit in New York and Philadelphia at which latter place her son, Albert, is taking a post graduate course in pharmacy. She reports a most enjoyable time.

Mr. and Mrs. J. W. Earle of Prairieville, Mich., who spent the season here two years ago, at which time they occupied the Phillips cottage, returned last week and are at the Turner House. All their old friends are pleased to see them again.

The family of Dr. William Pipe, prescription clerk at Lounds Drug Store, arrived last week from St. Clair, Mich. Dr. Pipe and family are at present staying with Mrs. F. S. Crotty, but will eventually go to housekeeping in Mr. Borson's flat.

Mrs. Jas. J. Horton of Attleboro, Mass., arrived last week and has opened up her home at the corner of Central Ave. and Summit St. Mrs. Horton has been spending her winter seasons in Crescent City for many years and her coming is always a source of pleasure to a large circle of admirers and friends.

The Lounds drug store calls attention to spring garden seeds, of which it now has a full supply. There should be more gardens in Crescent City, and that would mean that we would all have a more varied diet. Any man can have the garden if he will buy his seeds of Lounds and get some good cull'd man to plant and hoe and—water. The increase is natural.

Postmaster Lounds wants it known that the outgoing Sunday mail, both for the north and south, closes at 10:45 a. m. Both mails go to the train at the same time, and it is the only mail outgoing for that day. The Sunday mail arrives about 1:15 p. m., and the post-office is open for one hour after its distribution. This is the only mail received on Sundays.

The present would be a good time for the people of Crescent City to petition congress for an appropriation for a government building. Congressmen are just now feeling in a mellow mood as all will have to stand for re-election this year, and many bills are being introduced for public buildings. To be sure the post office here is only rated as fourth class, but that is the fault of the rating. It is really conducted in a first class manner, considering the lack of building space.

There was a disastrous freeze throughout the orange belt in California on the 2, 3 and 4th inst. and great damage was done the fruit, a large part of which is badly frosted. According to the New York Packer the ground at Riverside is literally covered with seedlings. Last year Riverside shipped 500 cars of seedlings and a man who handles this variety exclusively said he did not think there would be a single car of seedlings shipped from Riverside this year. All over the orange belt more or less damage has resulted both to the fruit and the trees, while navals and other varieties probably suffered more in proportion in the Riverside and Colton districts than any other.

The ladies of the V. I. A., who have engaged Mr. Allen Holton, the gifted impersonator for the evening of February 2d, will have additional numbers on a program that promises an evening of rare and delightful entertainment. Mr. Holton will present "Ingomar," a story of the love of a bandit chief for a beautiful Greek maiden, who, of course, was more or less kittenish and didn't want to be loved, and Mr. and Mrs. C. P. Hale have promised to sing at least two numbers. Dr. King, one of our newest winter residents, has also promised to sing. The full program will be ready next week. Tickets, to be on sale at Lounds, will be 50¢ and 25¢ seats.

Lucius Butler, son of Rev. E. P. Butler is spending a couple of weeks with his father and sisters. The young man comes from Cleveland, Ohio, where he has a responsible position in the Studebaker automobile works. This is his first visit to Florida, and the Crescent City people whose pleasure it has been to meet him hope it will not be the last.

The special meetings held at the Presbyterian church during the first two weeks of the month were so successful that Dr. Work was persuaded to continue them through the present week. The attendance has been large, the audiences at the evening meetings generally taxing the seating capacity of the church. There have been quite a number of converts. The meetings will probably end with the present week.

Mrs. H. L. Tebbets of Lynn, Mass., arrived last week Thursday and will be the guest for the season of Mrs. J. F. Rhoads. Mrs. Tebbets formerly lived here and was a social leader. She was one of the charter members of the V. I. A. and an active worker in that organization. She moved to Massachusetts in the spring of 1895 and this is her first return visit. Naturally, therefore, her coming is a real pleasure to her host of friends who remain.

K. Borson took a large party of men on a hunting trip to Salt Springs last week, going over on Tuesday and returning on Saturday. The trip was made on Mr. Borson's commodious launch. Those in the party were Messrs. Posey and Long of South Carolina, Messrs. Borson, Jas. Padgett Jr., O. M. Newbold, George Neal, Samuel E. Neal, J. E. Lortick and C. J. Hunter. One deer was killed and one other badly scared. But the party had lots of small game and fish, and what's better still, a bang-up good time.

Dr. J. W. Inches of St. Clair, Mich., who has been the guest of Dr. and Mrs. G. E. Henson for the past three weeks, is a great sufferer from rheumatism, and during much of his stay here has been invisible to the public because of that misfortune. Dr. Inches was here much of last season and is pleasantly remembered by a large number of people, several of whom had the advantage of his medical skill in recovering from illness. All hope that he will receive benefit from his own ailment in the milder climate of Florida.

Readers of this department will kindly bear with the editor for a mistake made last week in reporting the building of a new home on the Borson lot for Cashier King. That will come later, we understand. But seeing a pile of lumber on the lot and the carpenters at work, the News' editor jumped at conclusions. He has done it before. Instead of the house the carpenters built a small shack. Speaking of shacks reminds us that at least two dozen citizens have called the attention of the News to the unsightliness of this particular one. It is nearly on the street line, and is of a style of architecture that ought never to have been permitted, especially in the center of town. The town ordinances define a limit in which building permits are required to be issued by the town council before a party can build any kind of a frame structure. Enquiry reveals the fact that this formality was dispensed with in this case. No permit was asked and none granted. It is the business of the mayor to enforce town ordinances. In fact he took an oath that he would do so. And because of this independence of authority, and neglect of official duty, the town of Crescent City has been saddled with a "shack" on its prettiest street, and in the center of town.

Mr. and Mrs. J. W. Earle of Prairieville, Mich., who spent the season here two years ago, at which time they occupied the Phillips cottage, returned last week and are at the Turner House. All their old friends are pleased to see them again.

The family of Dr. William Pipe, prescription clerk at Lounds Drug Store, arrived last week from St. Clair, Mich. Dr. Pipe and family are at present staying with Mrs. F. S. Crotty, but will eventually go to housekeeping in Mr. Borson's flat.

Mrs. Jas. J. Horton of Attleboro, Mass., arrived last week and has opened up her home at the corner of Central Ave. and Summit St. Mrs. Horton has been spending her winter seasons in Crescent City for many years and her coming is always a source of pleasure to a large circle of admirers and friends.

The Lounds drug store calls attention to spring garden seeds, of which it now has a full supply. There should be more gardens in Crescent City, and that would mean that we would all have a more varied diet. Any man can have the garden if he will buy his seeds of Lounds and get some good cull'd man to plant and hoe and—water. The increase is natural.

Postmaster Lounds wants it known that the outgoing Sunday mail, both for the north and south, closes at 10:45 a. m. Both mails go to the train at the same time, and it is the only mail outgoing for that day. The Sunday mail arrives about 1:15 p. m., and the post-office is open for one hour after its distribution. This is the only mail received on Sundays.

The present would be a good time for the people of Crescent City to petition congress for an appropriation for a government building. Congressmen are just now feeling in a mellow mood as all will have to stand for re-election this year, and many bills are being introduced for public buildings. To be sure the post office here is only rated as fourth class, but that is the fault of the rating. It is really conducted in a first class manner, considering the lack of building space.

This is the only mail received on Sundays.

LAKE COMO.

Mr. and Mrs. Joel Jenkins have returned from Deland where they spent several days.

Miss Susie Carson and Mrs. Phebe Betts of Pomona were the guests of Mrs. S. Carson recently.

W. S. Prior and Capt. C. A. M. Tabor were visitors at Palatka, recently.

Mrs. D. B. Raybon, Mrs. Claude Monro and Mrs. John Rafferty have been quite ill, but are improving.

The Como Dramatic Club gave an "oyster supper" at the hall, Friday last. Quite a number were present and were pleased to see their Welaka and Fruitland friends. Dancing followed later in the evening and old and young had a jolly time.

The Como Dramatic club will give a minstrel show the last of the month.

Services were held at the M. E. church Sunday morning. Rev. Mr. Parrott filling the pulpit in the absence of the pastor, who is attending conference.

Rev. J. B. Crippin who has been attending the St. Johns River Conference of the Methodist Episcopal church at Eustis, has been reappointed pastor of the Lake Como Methodist church.

The Meaneast Man in Town is the one who always wears a frown, is cross and disagreeable, and is short and sharp in his answers. Nina cases out of ten it's not the poor fellows fault, it's his liver and digestion that make him feel so miserable, he can't help being disagreeable. Are you in danger of getting into that condition? Then start at once taking Ballard's Hordine for your liver—the safe, sure and reliable vegetable regulator.

Sold by Ackerman-Stewart Drug Co., and J. H. Haughton.

Birds' Songs.

A French writer says that notwithstanding the fact of their simplicity the songs of birds cannot be imitated with musical instruments because of the impossibility of reproducing their peculiar timbre. The notes of birds, while corresponding with our musical scale, also include vibrations occupying the intervals between our notes. The duration of birds' songs is usually very short, two or three seconds for thrushes and chaffinches, four or five seconds for blackbirds; but from two to five minutes for the lark.

For Sprains

Sloan's Liniment is the best remedy for sprains and bruises. It quiets the pain at once, and can be applied to the tenderest part without hurting, because it doesn't need to be rubbed—all you have to do is lay it on lightly. It is a powerful preparation and penetrates instantly—relieves an inflammation and congestion, and reduces the swelling.

Here's the Proof.

Mr. C. Rolan, of Hopedale, Cranston, Pa., says:—"On the 7th of this present month, as I was leaving the building at noon for lunch, I slipped and fell, spraining my wrist. I returned in the afternoon, and at four o'clock I could not hold a pencil in my hand. I returned home later and purchased a bottle of Sloan's Liniment. I used it five or six times before I went to bed, and the next day I was able to go to work and use my hand as usual."

Sloan's Liniment

Sloan's Liniment is an excellent anti-septic and germ killer—heals cuts, burns, wounds and contusions, and will draw the poison from sting of poisonous insects.

25c, 50c, and \$1.00
Sloan's book on horses, cattle, sheep and swine, sent free.

Dr. Earl S. Sloan, Boston, Mass., U.S.A.

The Balm That Failed.
"No, I don't go to church very often," the young man declared to the girl whom he had accompanied to a house of worship Sunday evening. "But when I do I make up for my absence by slipping a five dollar gold piece in the offering."
"I don't think I have been to church in six months, so that sort of squares me," he whispered when he dropped a coin about the size of the five dollar piece in the box as the usher passed it.

At the close of the service the minister arose and announced, "The collection for foreign missions this evening amounted to \$326."
The young man didn't have much to say on the homeward walk—Philadelphia Ledger.

What Tommy Said.
Mamma to a friend who is taking tea with her—I don't know why it is, but I always eat more when we have company than when we're alone.
Tommy (helping himself to a third piece of cake)—It is 'cause we have better things to eat.

Scientific Spanking consists in punishment only when a child is actually bad. Some mothers think that all crying is badness, it's not. When your baby cries, look for pins or some external cause. If you can't find them give the baby White's Cream Vermifuge as the chances are, it is suffering from worms which keep it hungry and cross all the time. Pleasant to take—sure in its action.

Price 25 cents.
Said by Ackerman-Stewart Drug Co., and J. H. Haughton.

An Established Business of 80 Years—
The Ackerman-Stewart Drug Co.,
(Incorporated)
Wholesale and Retail.
Competent—Reliable—

Why Suffer?

Are you one of the thousands of women who suffer from female ailments? If so, don't be discouraged, go to your druggist and get a bottle of Wine of Cardui. On the wrapper are full directions for use. During the last half century, Cardui has been established in thousands of homes, as a safe remedy for pain which only women endure. It is reliable, contains no harmful ingredients and can be depended on in almost any case.

Take CARDUI

It Will Help You

Mrs. Charles Bragg, of Sweetser, Ind., tried Cardui. She writes: "Tongue cannot tell how much Cardui has done for me. Before I began taking Cardui I could not do a day's work. I would work awhile and lie down. I shall always give praise to your medicine." Try Cardui.

Administratrix Notice.
Thirty days after date hereof I will apply by petition to the County Judge of Putnam county, Florida, for leave and authority to sell the undivided interest of Erma Farnley, a minor, in and to the following described land belonging to the estate of late J. Farnley, deceased, to-wit: Lying and being in the County of Putnam and State of Florida, and more particularly described as follows, to-wit:

Beginning at a live oak stump in the margin of the St. Johns river, being the northwest corner of the orange grove of G. G. Gillingham on a line north 70° east to a point in the line of the lot being the land conveyed by C. Gillingham and wife to Thomas James; thence on a line North to intersection of the Southern line of Section 48, Township 9 South, Range 28 East, thence following said Southern line easterly to Southeast corner of said Warak's land at a post about chains and 60 links, North 70° East from a bending cedar tree on the east bank of said river, and southwest corner of said Warak's land, thence from said point north to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point following the said creek line towards the southeast corner of said Warak's land to a point east of a branch or run of the creek, thence from said point north to the north corner of said James' land; thence north on the easterly line of James' land to his north corner, thence on a line South 70° West along northerly line of James' land to the St. Johns river; thence down the river margin about chains and 60 links, North 70° East, to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point north to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point following the said creek line towards the southeast corner of said Warak's land to a point east of a branch or run of the creek, thence from said point north to the north corner of said James' land; thence north on the easterly line of James' land to his north corner, thence on a line South 70° West along northerly line of James' land to the St. Johns river; thence down the river margin about chains and 60 links, North 70° East, to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point north to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point following the said creek line towards the southeast corner of said Warak's land to a point east of a branch or run of the creek, thence from said point north to the north corner of said James' land; thence north on the easterly line of James' land to his north corner, thence on a line South 70° West along northerly line of James' land to the St. Johns river; thence down the river margin about chains and 60 links, North 70° East, to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point north to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point following the said creek line towards the southeast corner of said Warak's land to a point east of a branch or run of the creek, thence from said point north to the north corner of said James' land; thence north on the easterly line of James' land to his north corner, thence on a line South 70° West along northerly line of James' land to the St. Johns river; thence down the river margin about chains and 60 links, North 70° East, to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point north to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point following the said creek line towards the southeast corner of said Warak's land to a point east of a branch or run of the creek, thence from said point north to the north corner of said James' land; thence north on the easterly line of James' land to his north corner, thence on a line South 70° West along northerly line of James' land to the St. Johns river; thence down the river margin about chains and 60 links, North 70° East, to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point north to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point following the said creek line towards the southeast corner of said Warak's land to a point east of a branch or run of the creek, thence from said point north to the north corner of said James' land; thence north on the easterly line of James' land to his north corner, thence on a line South 70° West along northerly line of James' land to the St. Johns river; thence down the river margin about chains and 60 links, North 70° East, to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point north to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point following the said creek line towards the southeast corner of said Warak's land to a point east of a branch or run of the creek, thence from said point north to the north corner of said James' land; thence north on the easterly line of James' land to his north corner, thence on a line South 70° West along northerly line of James' land to the St. Johns river; thence down the river margin about chains and 60 links, North 70° East, to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point north to intersection of a line passing from a bend in Saw Creek (by the meandering of the creek, about 25 chains from its mouth) to a point at the head of the creek where the westerly line of Section 48 passes thence from said point following the said creek line towards the southeast corner of said Warak's land to a point east of a branch or run of the creek, thence from said point north to the north corner of said James' land; thence north on the easterly line of James' land to his north corner, thence on a line South 70° West along northerly line of James' land to the St. Johns river; thence down the river margin about chains and 60 links, North 70° East, to intersection of a line passing from
