

# Roosevelt Trial On At Syracuse

Hearing Begun Of Libel Suit Brought  
By William J. Barnes, Jr., Against  
Former President

**ASKS \$50,000 DAMAGES**

Expect Trial Will Be Sensational And  
Unearth Many Political Man-  
oeuvres In New York

Syracuse, N. Y.—The trial of William Barnes' \$50,000 damage suit against Theodore Roosevelt for alleged libel began in the supreme court here. Attorneys put the final touches on their cases and both sides said they were ready.

Politics will undoubtedly enter the case when the talesmen are called for examination. And when the taking of testimony begins there will be inaugurated what may, if the court permits it, develop into a rehearsal of certain instances which have occupied the attention of politicians and others during the past ten years or so.

The suit, trial of which was moved to Onondago county from Albany on a change of venue, is based on a statement issued by Colonel Roosevelt during the campaign last summer of Harvey D. Hinman for the Republican nomination for governor. In that statement Colonel Roosevelt referred to Mr. Barnes as controlling, with Charles F. Murphy, of Tammany Hall, the "all-powerful, invisible government responsible for the maladministration and corruption in public offices of the state." The statement also contained other references to Mr. Barnes "as a boss."

### A Cur. for Sour Stomach.

Mrs. Wm. M. Thompson, of Battle Creek, Mich., writes: "I have been troubled with indigestion, sour stomach and bad breath. After taking two bottles of Chamberlain's Tablets I am well. These tablets are splendid—none better." For sale by all

### When It Is Darkest.

By his own observations on thousands of nights W. F. Denning, the English scientist, has proved that we are scientifically correct when we say that it is "always darkest just before dawn." He has found that before dawn a great darkness invades the scene, which were plainly observable during the previous hours of the night are blotted out, and a nervous feeling is sometimes induced by the dense opacity of the air.

### IS FACING TRIAL

**THEODORE ROOSEVELT.**  
Former President of the United States, who now faces charge of slander and alleged libel in a \$50,000 damage suit brought by William J. Barnes, Jr., of New York in the supreme court at Syracuse.

### DIVER FINDS SUBMARINE

Lost U. S. Submarine F-4 Found At  
Depth Of 288 Feet In  
Pacific

Honolulu.—Chief Gunner's Mate Crilley, went 288 feet under water here and walked along the top of the submarine F-4, which disappeared on March 25. The depth is said by naval officers to be a world's record.

Crilley found the F-4 lying on a smooth, sandy bottom with no coral growth to impede hoisting operations. She lay on her starboard side, her bow pointing shoreward. Two parted lines were found attached to the craft.

The diver went down in an ordinary diving suit and the recompression chamber designed to reduce pressure on him was not used.

Deafness is a terrible affliction to men who like to hear themselves talk

# DONN M. ROBERTS BEGINS PRISON TERM

Terre Haute Mayor And His Associates In Election Frauds Go  
To Leavenworth

Indianapolis, Ind.—Headed by Mayor Donn M. Roberts, fifteen prisoners convicted in the Terre Haute election conspiracy cases and sentenced to the Leavenworth penitentiary, started on the trip to prison.

While the men were being put in line in the jail yard to march to the railway station, the eighty-two men given jail sentences for their part in the conspiracy shouted goodbye and joined in passing jests back and forth.

None of the wives or relatives of the prisoners were permitted to accompany them from the jail to the station. Many relatives had been to the jail during the morning, and several prisoners wore flowers on their lapels.

### Roberts Names Treasurer

Terre Haute, Ind.—The Terre Haute station was crowded when the train bearing Mayor Donn M. Roberts and the fourteen other federal prisoners convicted in the election fraud cases arrived here. The curtains of the prison car were drawn, but just before the train departed Roberts leaned from the window and announced the appointment of Frank B. Stiley as treasurer of the Democratic county committee to succeed Maurice Walsh, who, with five others, left here earlier in the day to begin serving their sentences in prison.

# ZEPPELINS RAID ENGLISH TOWNS

About Twenty Bombs Were Dropped  
and Some Fires Were Caused.  
No Loss Of Life Reported

London.—The tension among the British people has been maintained by a German Zeppelin's raid on the Tyne district of Northumberland. The airship dropped bombs on small towns and villages.

It appears that the Zeppelin reached Blyth from across the North sea at about 8:10 o'clock at night, passed over Blyth and Cranlington and proceeded to the neighborhood of Seatonburn. Bombs were dropped on several villages passed by the airship—five at Choppington, three at Wallsend, two at Seatonburn and one at Bedlington.

Bad breath, bitter taste, dizziness and a general "no account" feeling is a sure sign of a torpid liver. HERBINE is the medicine needed. It makes the liver active, vitalizes the blood, regulates the bowels and restores a fine feeling of energy and cheerfulness. Price 50c. Sold by Ackerman-Stewart Drug Co.

# Leo M. Frank Loses Appeal

SUPREME COURT SUSTAINS THE  
GEORGIA JURIST'S DENIAL  
OF HABEAS CORPUS

Appeal To Prison Board And Clemency  
Of Governor Believed Only  
Hope Left

Washington.—The United States Supreme court sustained Judge W. T. Newman of the Georgia federal district court, in denying Leo M. Frank's application for a writ of habeas corpus.

This decision by the federal Supreme court is taken here to mean that Frank has exhausted all his remedies in both the state and federal courts and that his only hope to escape the death sentence lies in an appeal for clemency to the Georgia prison commission and Governor Slaton of Georgia.

The mandate of the United States Supreme court will be transmitted to the federal district court of Georgia within the next few days, and, after its arrival in Atlanta, the judge of the Fulton superior court will be at liberty to fix a new date for Frank's execution.

# BRITISH SUBMARINE E-15 RUN AGROUND

England Suffers Loss To Offset  
Damage Done To Turkey,  
Is Latest Report

London.—The British, as an offset to their success in destroying a Turkish torpedo boat which attacked the transport Manitou, off Chios, lost the submarine E-15, which, while carrying out a difficult reconnaissance in the Dardanelle mine field, ran aground on Kephez point, the crew being made prisoners.

According to the Turkish report, seven of the submarine crew are missing.

In Egypt, British airmen have dropped bombs on the Turkish encampment near the border, while a French cruiser, the fire of which was directed by a seaplane, has been throwing shells on the Turks near El Arish, where the army for the invasion of Egypt has its headquarters.

These operations were undertaken presumably to harass the Turks.

### Revolutionary Daughters Convened

Washington.—Delegates gathered here from virtually every part of the country for the twenty-fourth annual congress of the Daughters of the American Revolution. President Wilson's address of welcome and the annual message of the president general, Mrs. William Cumming Story, will feature the opening session. Campaign leaders for the rival candidates for president general began to round up their followers. Mrs. George T. Guernsey of Kansas opposes Mrs. Story.

### Deny Japanese Report

Washington.—Commander Noble Irwin of the cruiser New Orleans reported to the navy department that he had investigated the Japanese naval activity in Turtle bay, Lower California, and found no indications of other than salvage work on the stranded cruiser Asama. The commander's report was sent by wireless to Admiral Howard, commanding the Pacific fleet, who telegraphed that "the Asama is still aground in San Bartolome bay. Only other vessel present one repair ship and two colliers."

### WHAT IS ELECTRICITY?

It Seems to Be an Effect Produced by  
Energy on Matter.

It is a curious fact that although evidence of electricity in a primitive way was observed as long ago as the sixth century B. C. and its manifestation has become one of the greatest factors in our modern civilization, no one knows just what it is.

At different times it has been thought to be a form of matter, a thin, weightless fluid, a kind of force, a variety of motion and a disturbance in the ether—which is supposed to fill all space, including pores in most solid metals. Electricity is not something created by man. He has simply discovered ways of turning its manifestations to practical account.

From the time that Thales observed, centuries before the Christian era, that amber, after being rubbed by silk, had the property of attracting light bodies like bits of paper, discoveries of electric phenomena were made from time to time, but they were detached from a realization of the great possibilities brought to light in recent years.

Electricity becomes evident when rendered active by some molecular disturbance, such as friction, rupture or chemical action. Scientists today regard it as neither energy nor matter, but, like heat, light and sound, it is an effect produced by energy on matter.

It has been discovered that electricity is a self-existent property, by which we are everywhere surrounded, and human as well as inanimate bodies can be charged with it. From this we can understand that many more remarkable discoveries of its application will be made.—Rocky Mountain News.

Remorse is memory that has soured.

### MRS. T. B. HOWARD

Mrs. Thomas Benton Howard, wife of Admiral Howard, commander-in-chief of the Pacific fleet, has been entertaining lavishly at Coronado Beach, Cal., where many society folk were gathered for the polo contests.

### Parliament Convenes Again

London.—The British parliament reassembled. The house of commons sat for only 35 minutes, and expressed statement of the ministers on the questions of liquor prohibition, the acceleration of the output of munitions and the general progress of the war were postponed. The under secretary of war's statement that there was no present intention to prohibit the sale in the army canteens of beer, the only alcoholic liquor now sold at these establishments indicated that restrictions will not be so drastic.

### Yellow Fever Vessel Lands

Morgan City, La.—Two cases diagnosed by marine hospital officials as yellow fever were discovered on board the American schooner Persis A. Colwell, which arrived at quarantine here from Demerara, British Guiana. One member of the crew, the cook, died March 25, and was buried at sea, Captain Follett said. The vessel was anchored off the quarantine station and the situation reported as soon as the captain could get in touch with the port officials.

Farmers and others who live at a distance from a drug store should keep in the house a bottle of BAL-LARD'S SNOW LINIMENT. It may be needed at any time for cuts, wounds, sores, sprains or rheumatism. It is a powerful healing and penetrating remedy. Price 25c, 50c and \$1.00 per bottle. Sold by Ackerman-Stewart Drug Co.

And many gems of thought turn out to be paste.
