The parcels post sale held in the hall Friday evening, for the benefit of the V. I. S. was an unqualified success, both socially and financially.

The regular Sunday morning services have been resumed in St. Andrews church. An excellent choir with organ and violin accompaniment, insures good music for the winter, and a large congregation marked the opening service, last Sunday.

The usual Christmas entertainment will be given by the Congregational Sunday School, and the young people are formulating plans to make it a most delightful occasion.

Mrs. Ryan, with her daughter, Mrs. Frances Merritt, and little grandson Harry left last week to make their home elsewhere in the state during this winter.

A pretty home wedding took place last Sunday afternoon at the residence of Mr. S. Hurst, when his daughter, Miss Allie Etta Hurst was united in marriage with James Wiley Jones of Deatur county, Georgia, Rev. S. J. Townsend officiating. The parlor was tastefully decorated with Christmas green and holly and made an attractive setting for the dainty little bride in her goingaway gown of

blue voile. A novel and pretty innovation was the scattering of a shower of rice before the young people as they entered and took their places. Mr. Jones is a prominent young planter of Southern Georgia, and will soon take his bride to her new home. The young people have the sincere good wishes of the community for their future welfare and happiness.

Rev. W. O. Worthington, Mr. Frank Lane, Mrs. Emma Richard and Mrs. H. C. Richard of Starke, spent Monday with Dr. and Mrs. J. M. Jones, having motored across country in their fine Hup. They expressed themselves as charmed with the cleanliness and attractive appearance of our little town between the lakes.

A Personal Application.

A well known business man in Lawrence, Mass., once had a customer who contracted a debt that ran unpaid for a year or more, and even several letters failed to bring about a settlement. One day, while glancing over the religious notices in a local paper, the business man saw something that gave him a new idea. He went to his desk and wrote the following note to the debtor:

My Dear Sir—I see in the local press that you are to deliver an address on Friday evening before the Y. M. C. A. on "The Sinner's Balanced Account." I incline to say, as yet unbalanced, and trust that I may have the pleasure of attending your lecture.

A check came by the next mail—YOUTH'S COMPANION.

A Russian Ad.

The reason why I have heretofore been able to sell my goods so much lower than anybody else is that I am a bachelor and do not need to make a profit for the maintenance of a wife and children. It is now my duty to inform the public that this advantage will shortly be withdrawn from them, as I am about to be married. They will therefore do well to make their purchases at once at the old rate—Petrograd Otogoloski.

JUST A MOMENT. MR. MERCHANT.

You spend considerable money advertising your business. It is well to advertise. All advertising is good, though some is still better. Did it ever occur to you that Palatka News advertising is of the "still better" class? The reasons for this are: The Palatka News has spent a great many years in building up a circulation. It takes time and patience and the expenditure of some money to gain public favor. The Palatka News has spent the time, the patience and the money—AND IT HAS GAINED ED FAVOR.

People subscribe for it and pay for it—and they read it. We don't have to throw our papers around the streets for people to pick up. Hundreds of people in this city, and hundreds more throughout the county take the paper regularly and pay for it. When a man pays for a paper year after year regularly, it is pretty good evidence that he WANTS it.

The Palatka News is an established business; it isn't an experiment. It is known throughout Florida and in nearly every State in the Union.

Merchants who wish to reach the people of Putnam county can find no medium equal to The Palatka News. The Palatka News is a recognized organ of democracy in Florida. It is read because it has ideas. It speaks out in meeting. It never plays to the galleries. Not every one that takes it endorses its sentiments, but they read them.

If they take the paper, therefore, because they want it bad enough to pay for it; and read what we have to say.

THEY WILL READ WHAT YOU HAVE TO SAY. Anyway, The News will lay your communication on their tables, where it can be seen by more people than any other medium in Putnam county.

A paper may be old and decrepit and lose its circulation and influence in a community. But The News, while old, has never been charged with decrepitude.

Its circulation is still moving up—still growing. Its advertising rates are reasonable, and its advertising pays a profit to the advertiser.

Motor Rural Carrier Examination.

The United States Civil Service Commission has announced an examination for the County of Putnam, Fla., to be held at Palatka on January 8, 1916 to fill the position of motor rural carrier at Palatka and vacancies that may later occur on motor rural routes from post offices in the above-mentioned county. The salary on motor route ranges from \$1,500 to \$1,800 per annum. The examination will be open only to male citizens who are actually domiciled in the territory supplied with mail by a post office in the county and who meet the other requirements set forth in Forms 2121 and 1917. Form 2121 may be seen posted at any post office in the county for which the examination is held, and Form 1917 and application blanks may be obtained from the offices at which the vacancy exists and where the examination is to be held, or from the United States Civil Service Commission at Washington, D. C. The appointee to this position will be required to furnish, maintain, and operate a modern motor vehicle with a carrying capacity of not less than 800 pounds and a cubic capacity of not less than 800 feet. Applicants must file with their applications a statement of the equipment they will be able to provide in the event of appointment. Applications should be forwarded to the Commission at Washington, D. C., at the earliest practicable date.

Florida Educational Association.

A great many inducements are offered to teachers and school officers to attend the Florida Educational Association to be held in Tallahassee, December 28-30. This convention has a maximum attendance of eight hundred, and on this occasion efforts are being made to interest the entire body to be present. Since the meeting is held during the holidays, it gives every teacher the time to come; and surely a day's session devoted to intellectual and professional interests will give inspiration to every teacher. The railroads have granted reduced rates from all parts of the state to the capital city; and very reasonable rates of from one to two and a half dollars a day for board have been arranged for by the local committee. The Leon Hotel has been selected for headquarters and the State College for Women has arranged to take care of three hundred persons at one and a half dollars per day.

The program shows a great deal of splendid work on the part of Professor Charles M. Jones of Lakeland; it gives a number of questions of vital interest to the schools of the state; and the names of many of the leading educators of Florida who will give addresses. The special lecturer for the occasion is Dr. Harry Clark of the University of Tennessee. He is a graduate of Yale, and has had liberal experience in the public school systems of the southern country.

The fact that Tallahassee is the capital with its many departments of state government, will induce many people to visit the place at this time. The State College for Women, the Leon County High School, the city, and the county, are all combining their efforts to make the Association a profitable and happy occasion. Besides the regular routine program, several delightful forms of entertainment are planned. It will pay anyone to attend this Association for it means much in one's professional and social work.

"I consider Chamberlain's Cough Remedy by far the best medicine in the market for colds and croup," says Mrs. Albert Blosser, Lima, Ohio. Many others are of the same opinion. Obtainable everywhere.

PRESIDENT WILSON'S MESSAGE

(Continued from page one.)

into conspiracies against the neutrality of the government, they have sought to pry into every confidential transaction of the government in order to serve interests alien to our own. It is possible to deal with these things very effectively. I need not suggest the terms in which they may be dealt with.

I wish that it could be said that only a few men, misled by mistaken sentiments of allegiance to the governments under which they were born, had been guilty of disturbing the self possession and misrepresenting the temper and principles of the country during these days of terrible war, when it would seem that every man who was truly an American would instinctively make it his duty and his pride to keep the scales of judgment even and prove himself a partisan of no nation but his own. But it cannot. There are some men among us and many resident abroad who, though born and bred in the United States and calling themselves Americans, have so forgotten themselves and their honor as citizens as to put their passionate sympathy with one or the other side in the great European conflict above their regard for the peace and dignity of the United States. They also preach and practice disloyalty. No laws, I suppose, can reach corruptions of the mind and heart, but I should not speak of others without also speaking of these and expressing the even deeper humiliation and scorn which every self possessed and thoughtfully patriotic American must feel when he thinks of them and of the discredit they are daily bringing upon us.

What is more important is that the industries and resources of the country should be available and ready for mobilization. It is the more urgently necessary, therefore, that we should promptly devise means for doing what we have not yet done, and that we should give intelligent attention and stimulation to industrial and vocational education, as we have long done in the large field of our agricultural industry; that at the same time that we safeguard and conserve the natural resources of the country we should put them at the disposal of those who will use them promptly and intelligently, as was sought to be done in the admirable bills submitted to the last congress from its committees on the public lands, bills which I earnestly recommend in principle to your consideration, that we should put into early operation some provision for rural credits which will add to the extensive borrowing facilities already afforded the farmer by the reserve bank and adequate instrumentalities by which loans can be obtained on favorable terms and that we should make such arrangements that we have hitherto neglected the rural adaptation of our economic arrangements to changing conditions.

As to the peace which we have now, it is not a peace of which we should be proud. It is a peace of which we should be ashamed.
