The various normals and colleges over the country are turning out hundreds of school teachers each year, and the result is a surplus of school teachers, whose labor cannot find a sale on the market.

The Jacksonville Metropolitan is responsible for the following criticism of western editor, though we are unable to vouch for the truth of it. A western editor left his newspaper plant to shift for itself, and is supposed to have gone to Klondike. The reason for his departure is found in an article in the last issue of his paper. It seems the foreman in making up the paper, mixed up part of an article on a new factory with a marriage notice, with the following result: 'One of the prettiest weddings that ever occurred in Blackville took place Wednesday evening, when Mr. James Brown and Miss Maggie Jones were united in the holy bonds of wedlock, at the home of the bride's parents—in the boiler room of the new factory building. The spacious rooms were tastefully trimmed with smilax and evergreens, and about 25,000,000 feet of basswood logs—which lent a pretty effect to the scene. The ceremony was very impressive, and was witnessed by a large number of friends of the contracting parties. The bride looked charming in a beautiful dress of white silk, covered with heavy tar paper from end to end and overlaid with corrugated iron. It is the intention of the promoters of the new deal to go into business on a big scale, and the western half of the large structure will be used for storing—the popularity of both the young people. The bride received many costly and beautiful presents, among which may be mentioned a dainty hand saw and several machines for turning out broom handles, Mr. and Mrs. Brown left on the evening train for the rear of the factory where a large warehouse will be erected. The Barber extends its best congratulations.

We hope to give further particulars next week. When Mr. Brown got home he was shown the article. He promptly bought a shotgun and started for the Banner office, only to find a note tacked on the door, which bore this inscription: "Publication suspended indefinitely."

Beat Out of an Increase of His Pension.

A Mexican war veteran and prominent editor writes: "Seeing the advertisement of Chamberlain's Colic, Cholera and Diarrhoea Remedy, I am reminded that as a soldier in Mexico diarrhoea and this remedy has kept me from getting an increase in my pension for on every renewal a dose of it restores me." It is unequalled as a quick cure for diarrhoea and is pleasant to take. For sale at all drug stores.
