## NEW IDEA!

After carefully examining the methods of the principle manufacturers of paper patterns in the United States we decided upon the NEW IDEA patterns as THE UP-TO-DATE paper patterns of this country.

There are points in favor of the "New Idea" patterns that will be readily appreciated by our patrons. The manufacturers of "New Idea" patterns have avoided the antiquated and worn out methods of some of the old manufacturers, and have adapted themselves to the progressive methods of the times. That their styles are the best is evidenced by the thousands who have dropped out of the old makes and put in the "New Idea." The "New Idea" company does not ask thirty-five or thirty cents for two cents worth of tissue paper, but offers all styles of patterns at a uniform price of ten cents each. We have nearly 600 patterns in stock, all of which are the latest styles—just from the factory.

That pile of mail at the foot of Volusia avenue is very unsightly to visitors and not only that but a small arise from it every time we have a rain. While we do not pose as a critic, it seems to us that this stuff could be removed to a far more suitable place.

**PNEUMONIA CAN BE PREVENTED.**

This disease always results from a cold or an attack of the grip and may be prevented by the timely use of Chamberlain's Cough Remedy. That remedy was extensively used during the epidemics of La Grippe of the past few years, and not a single case has ever been reported that did not recover or that resulted in pneumonia, which shows it to be a certain preventive of that dangerous disease. Chamberlain's Cough Remedy has gained a world wide reputation for its cures of colds and grip. For sale by all druggists.
