MEETING OF PALMETTO CLUB.

(Handed in too late for last week.)

No more beautiful day could have been selected than was Thursday last, the day appointed for the second meeting of the season of the Palmetto Club, and a large attendance was present.

The program was all that could be desired and happily carried out; first by a paper read by Mrs. Minnie Reed, in which she carried her listeners with her through the Hawaiian islands. With her we saw its volcanoes and blue skies, felt its rains and sunshine; and lived with the happy, generous, music loving race; I earned its native religion and conversion; and followed the political struggles and dissensions until its annexation by the United States.

Mrs. Susie A. Shaw followed by reading a lecture delivered by President Sherman, of Cornell on the Political Situation in the Philippines. President Sherman was at the head of the first commission sent to those islands and therefore very conversant with the subject. It proved a vindication of the apparent cruelties of the U. S. Army and told of the wonderful work done there through its instrumentality.

Mrs. Clara Webster Raynor then gave an able discourse on Cuba as a Republic, in which was shown the wonderful impetus for advancement in the island, its railroads and the great development of the eastern part and enumerated the benefits that would accrue from reciprocity between this country and the young fledgling.

The music was delightfully rendered by Mr. and Mrs. Fielder, violin and piano, and Miss Warren, cornet. This proved a most acceptable feature of the afternoon's program.

An invitation was extended to the Club by Mrs. Delos A. Blodgett to attend a reception at her home on the night of January first. Invitations were also received from the Parliamentary Club of the high school to attend a debate to be given in the school building next Monday afternoon; and from Mrs. Laurence Thompson to attend the Christmas entertainment at the kindergarten for colored children, the date of which is to be announced later.

After a brief business session, in which Mrs. William Wheeler and Mrs. C. M. Bingham, Jr. were elected to active membership, and Mesdames E. D. Mann and Ida Gordon Beach as associate members, the club adjourned.

NEW YEARS.

Another year is near at hand, And we are slowly growing old; Time with his scythe and glass of sand Works off the years in spite of Gold.

The Christmas bells have ceased to ring, New year comes in, out goes the old, And the many troubles it may bring Are caused by lack or curse of Gold.

The world is hollow, the people unsound, Each good as the other, made from the same mould.

But just watch the people as you travel around— You find some think they're better because of their gold.

The new year approaches, let us turn a new leaf,

And when we are gathered in the fold Our names will be painted in bold relief

By McGriff the painter, in letters of Gold.

Mrs. Dr. Seeley was calling on friends in town on Wednesday. She drives one of the swiftest and most up-to-date automobiles in the South.

E. A. Lartee and wife, of Newark, N. J., are registered at the Seaside Inn. They found the weather entirely too warm at Palm Beach for comfort, and thoroughly appreciate our burg by the sea.

Miss Amelia Potter caught a fine string of fish on the Keating pier on Friday. This is good sport, although Miss Potter found her wrist nearly paralyzed with the unusual exercise.

The Ed. Kittredge cottage is being treated to a general overhauling. Geo. P. Johnson does the carpenter work and Thompson & Harroun the painting. They are making a beautiful place of it.

Among the enthusiastic ocean pier fishermen we notice Mr. and Mrs. Samuel G. Shields and wife, of Knoxville, Tenn. They are very pleasant people and are bound to make many friends while in the South.

On Wednesday evening was inaugurated the first one of a series of progressive euchre parties to be held at the Harroun residence. These parties are especially for the visiting friends and have proven, for the past two years, an important factor in getting strangers together and acquainted for an enjoyable recreation while away from their own friends in the North.

Miss W. R. Simpson and maid are at the Seaside Inn, after an absence of nearly four years traveling abroad. They made Paris their headquarters while away, but visited extensively in Italy and England. Miss Simpson finds the extensive improvements around Goodall even greater than she was lead to expect from the glowing reports which reached her in the old world.

CLOSE CALL FOR THIEF.

R. S. Maley gave an orange thief a very close call Monday night. Mr. Maley had been missing his oranges for some time but had little hope of stopping the depredations as his rushing Christmas trade demanded all his time at the store.

Not feeling very well Monday night Mr. Maley remained at his residence on Cedar street. About half past seven o'clock Mrs. Maley heard a slight disturbance in the direction of their orange trees and called Mr. Maley's attention to it. He suspected that a raid was being made and hastened to the attic for a look-out and after looking and listening was satisfied his game was there.

He took his shot gun which happened to be loaded with bird shot and moved very cautiously on the thief who was industriously at work with a pair of orange clippers.

Mr. Maley got within a few steps of the thief, but on the opposite side of the tree, and thinking he had him, commanded him to surrender. Instead of doing so the visitor made a desperate break for liberty and Mr. Maley opened fire, letting off one barrel after another, but failed to land his game and is now glad of it, though he says he will fire a barrel into the next visitor's legs before demanding a surrender and dispense with the sprinting feature of the entertainment.

The thief had a sack and 52 oranges which he led.

Mr. Maley's gun cut a path through the orange tree about four feet high and at the close range at which he fired the thief would have met death had the discharge taken effect.

The oranges were evidently being stolen for the market.

Chips From Item Boxes.

The Gazette-News would do a good thing in calling attention of proper authorities to the nuisance in the form of low hanging limbs and palmetto palms in many places. Tall people are obliged to stoop or walk around them. The streets are becoming thronged and their annoyance will be keenly felt.

Your town is all right—most beautiful place I ever visited, but let me give you a pointer or two: Agitate the matter of seats to be placed along your river shore so that visitors may sit down and rest, also flow wells occasionally where strangers could get water, would be a boon.
