

THE LEGISLATIVE ABSTRACT

Continued from First Page. The question of the most humane, practical and profitable working of State convicts is one that is far reaching in any light in which it may be viewed and is claiming the attention of some of the best minds of this country. Bearing in mind that we are dealing with a class of people who have been convicted of crimes under the laws of the State, and are suffering the penalty of the law, and realizing that the number of convicts is constantly increasing, the question as to how our convicts shall be employed to obtain the best results for the good of the convict and the least burden to the tax payer is one that deserves your most careful consideration. You should not lose sight of the fact that whatever of good there is in the convict should be encouraged, that as far as possible reform may accompany punishment. That the convict should be employed for his own good is morally certain, and does not admit of successful contradiction.

The question of labor within prison walls, or labor in the fields, mines, mills and on turpentine farms, while condemned in some sections, under proper restrictive legislation the employment of convicts in the open air should have a more humanizing influence on prisoners that within prison walls. There can be no question that the sunlight, healthy and balmy air, and out-door exercise is better for the health of the convicts than confinement in a prison necessarily limited to the space that must be occupied by each convict.

While we have no desire to criticize the present lease contract, our investigation shows that the sub-leases and paying for the convicts they employ, under their sub-leases, prices far in excess of the price the original contractor leased them at, prices ranging from \$60 to \$180 per year for each convict. The policy of the State, however, as to her convicts should not rest entirely on the profits that might be derived from their hire. Our criminal laws are made for the safety of our people and property, and the administration of our convict system should look to the moral welfare and reformation as well as the safe keeping of the convicts, utilizing the labor of the convicts, making the same profitable is also perfectly proper, so long as their safe keeping, health and moral welfare is looked after. Labor is an absolute necessity in all penal institutions; the well being of the convict requires it; idleness in prison results in making the convict more vicious with all its attending evil.

A careful examination of the different systems relative to the care of convicts leads us to the following conclusions: A change should be made in our present system of leasing and caring

for convicts. It is safe to say that while at this time the convicts are in demand at remunerative prices for their labor, the day will come when the State will have to care for and work them. We believe this an opportune time for the State to reform her mode of handling her prisoners. The State should not part with her absolute control of the convicts, their labor being disposed of in the most humane and practicable manner. The State convicts should be controlled by a Commission of three members, whose duties and powers should be prescribed by law. The State Reform School Farm, at Marianna, in Jackson county, should be established as a State Penitentiary, where all females, aged, infirm and all convicts under the age of fifteen years, should be placed and employed at such farm work as they are able to perform. The Commission should also be given power to establish two more farms at such points as may be most acceptable in the different sections of the State.

That is what you must do when you have catarrh in the head. The way to cure this disease is to purify the blood with Hood's Sarsaparilla. This medicine soothes and heals the inflamed surfaces, rebuilds the delicate tissues, and permanently cures catarrh by expelling from the blood the scrofulous matter on which it depends. Be sure to get Hood's.

The non-irritating cathartic—Hood's Pills. when in their opinion it may be necessary. In this connection, the establishing of one or both of the farms at some point where there is plenty of hard work accessible to transportation, should if possible be done, using the convicts at such times as not otherwise employed, in preparing rock for the roads and streets of the State, the state furnishing the rock to such counties as want to make rock roads, at cost price at the farm, and disposing of the surplus to municipalities and railroads for street making and ballasting railroads. We believe permanent and better roads would result from this than in any other way of using convict labor.

This committee has prepared a bill, embodying their views, a copy of the bill being a part of this report. E. S. CRILL, J. W. WATSON, J. T. BERNARD, Members of Committee.

The following is the title of the bill accompanying the above report: By Mr. Crill: Senate Bill No. 38: To create a Prison Commission for the State of Florida, to define their duties, powers and compensation; to provide for the purchase of certain lands and for the erection thereon of a Penitentiary in which to keep and maintain certain State convicts; to provide for the utilization of convict labor thereon; to place the State Reform School under the charge and control of said Commission; to provide for the hiring of certain convicts; to provide for an appropriation to carry out the purposes of this act, and for other purposes. Referred to the Committee on Judiciary.
