## CONCEALMENT PRACTICED

Failure to Report Many Cases Prove Great Hindrance to Physicians. Surgeon White Talks.

A New Orleans special says: The heavy increase in the number of cases, which began four or five days ago, is beginning to manifest itself in the death list, which can be expected to grow steadily for the next few days. The number of new cases seems small in comparison with Saturday's record, but is really nineteen short, as their number of cases were turned in by an inspector just after the hour for closing the report.

Among the cases developed Sunday is Louis Cucullu, Jr., cashier of the People's bank, who resides far out on North Johnson street. Another case is Maurice Kenny, ex-councilman and ex-member of the legislature. Two of Kenny's daughters were stricken Saturday. Only five of the new foci are above Canal street.

Surgeon White has made a change in his organization by which he hopes to accomplish results much quicker. The fumigation and screening work was all done by a central department, under Dr. Gessner, which sent squads out on notification of cases by physicians. Sunday afternoon Dr. White assembled all of his subordinates in conference, and decided to place the screening and fumigation work under the several district headquarters among the district surgeons, and Dr. Gessner will be given charge of one of the districts.

Dr. White says that if he could learn of every case in the city and apply the proper methods immediately, he is confident that he could stamp out the disease in a short time.

The great cause for the spread has been the concealment of cases, and the change of residence of people who have been infected.

Following is the record for Sunday: New cases, 50; total cases to date, 963; deaths, Sunday, 12; total deaths to date, 154; cases under treatment, 343.

High Water Mark Reached. Following is the official report for Saturday: New cases, 105; total cases to date, 913; deaths, Saturday, 9; total deaths to date, 142; cases under treatment, 348.

The figures above speak for themselves. It was a record day all around. The only feature of the report that could be taken as encouraging was that very few of the cases are above Canal street. Dr. Perkins, chief of the corps of medical inspectors, reported forty-three new cases. These cases are among a large batch which had been reported as suspicious and which he investigated Friday. Only nine of the new foci are above Canal street.

Physicians who have failed to report cases that are discovered are given an opportunity to correct their omission, but a second offense will result in prosecution under the law. This has also brought out a large number of cases that were under cover.

Surgeon White has received instructions from Surgeon General Wyman not to allow any bananas to be shipped out of New Orleans to any point. It was believed for a time that this restriction applied only to localities in the south, but positive information was had Saturday that it means an absolute stifling of the New Orleans fruit trade. The ground for this order is that mosquitoes may get into the banana cars which cannot be fumigated. There were several conferences on this subject between Dr. White, Dr. Souchon and agents of fruit vessels, but they did not result in any modification of the order.

## HORRIBLE FEATURE OF DOUBLE MURDER.

Two Men Shot to Death in Florida and the Heart of One is Torn Out.

Samuel Simmons, a wealthy naval stores and sawmill man, and his son, Ely Simmons, were both shot and killed about fifteen miles from Jacksonville, Fla., Friday, by Thomas Hilder, who enters the plea of self-defense.

The elder Simmons was shot through the heart by a full charge of buckshot, and the heart was found on the ground about a foot from the body, it having evidently been torn out by hand after the shooting. name is love.

## COMMODORE NICHOLSON RECOMMENDS PE-RU-NA

COMMODORE Somerville Nicholson of the United States Navy, in a letter from 1837 K street, Northwest, Washington, D. C., says:

"Your Peruna has been and is now used by so many of my friends and acquaintances as a sure cure for catarrh that I am convinced of its curative qualities and I unhesitatingly recommend it to all persons suffering from that complaint."

Our army and our navy are the natural protection of our country. Peruna is the natural protection of the army and navy in the vicissitudes of climate and exposure.

We have on file thousands of testimonials from prominent people in the army and navy.

We can give our readers only a slight glimpse of the vast array of unsolicited endorsements Dr. Hartman is constantly receiving for his widely known and efficient remedy, Peruna.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. S. B. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

A Thread 1,000 Miles Long. "Sea Island cotton is the best kind," said a Southerner. "It is finer and slicker than any other cotton in the world. A pound of it can be spun into 4,770 miles of thread."

"For an experiment once in the English town of Manchester a skilled spinner spun a pound of Sea Island cotton into a single thread 1,000 miles long. Then for another experiment he took another pound of cotton and spun it into as many hanks as he could get. He got 10,000 hanks in all, and the yarn in each of them measured 840 yards. Thus out of a pound of cotton 4,770 miles of yarn were produced. This yarn, though, was too fine to be of any practical utility."

"Those two experiments made a superb advertisement for the cotton of the South."—Philadelphia Bulletin.

## PERRY'S MISSION TO JAPAN.

The President's Letter in 1853 Courted Japan's Friendship and Trade. The letter which Commodore Perry bore from our government to the Mikado asked for a mutual treaty. The original instrument was drafted in May, 1851, by Daniel Webster, then Secretary of State, and was signed by President Fillmore. There it rested. In November, 1852, Mr. Webster's successor, Edward Everett, fished it out of the departmental pigeonholes, took it to pieces and refashioned it. Three copies were prepared and were splendidly engrossed in English, Dutch and Chinese. These were inclosed together in a sumptuous gold case; and, to make the whole presentation still more impressive to the Japanese mind, the gold case was enshrined in a coffer of rosewood.

The document intrusted to Commodore Perry asked the Japanese court two things, friendship and trade—first and foremost, friendship, for the safety of our seamen. Many a helpless crew had been driven into their ports by storm or wrecked on their rocky coast, escaping the perils of the deep only to be welcomed by those truculent slanders to a dungeon or a cage on shore. This wrong must be stopped at all hazards. And if, in addition, we could persuade Japan to enter into friendly relations of trade, the two countries, by mutual interchange of productions, might each promote its own prosperity and the welfare of the other. It was thought that Orientals might see that as well as Yankees. In the end they did. But it cannot be said that Japan, any more than an oyster, ever really yearned to be "opened."—From John S. Sewell's "With Perry in Japan" in the Century.

## Doctor Brigham Says

MANY PHYSICIANS PRESCRIBE

Lydia E. Pinkham's Vegetable Compound

The wonderful power of Lydia E. Pinkham's Vegetable Compound over the diseases of womanhood is not because it is a stimulant nor because it is a palliative but simply because it is the most wonderful tonic and reconstructer ever discovered to act directly upon the generative organs, positively curing disease and restoring health and vigor.

Marvelous cures are reported from all parts of the country by women who have been cured, trained nurses who have witnessed cures and physicians who have recognized the virtue of Lydia E. Pinkham's Vegetable Compound, and are fair enough to give credit where it is due.

If physicians dared to be frank and open, hundreds of them would acknowledge that they constantly prescribe Lydia E. Pinkham's Vegetable Compound in severe cases of female ills, as they know by experience it can be relied upon to effect a cure. The following letter proves it.

Dr. S. C. Brigham, of 4 Brigham Park, Fitchburg, Mass., writes:

"It gives me great pleasure to say that I have found Lydia E. Pinkham's Vegetable Compound very efficacious, and often prescribe it in my practice for female difficulties."

"My oldest daughter found it very beneficial for uterine trouble some time ago, and my youngest daughter is now taking it for a female weakness, and is surely gaining in health and strength."

"I freely advocate it as a most reliable specific in all diseases to which women are subject, and give it honest endorsement."

Women who are troubled with painful or irregular menstruation, bloating (or flatulence), leucorrhoea, falling, inflammation or ulceration of the uterus, ovarian troubles, that bearing-down feeling, dizziness, faintness, indigestion, nervous prostration or the blues, should take immediate action to ward off the serious consequences, and be restored to perfect health and strength by taking Lydia E. Pinkham's Vegetable Compound, and then write to Mrs. Pinkham, at Lynn, Mass., for further free advice. No living person has had the benefit of a wider experience in treating female ills. She has guided thousands to health. Every suffering woman should ask for and follow her advice if she wants to be strong and well.

## NO SLEEP FOR MOTHER

Baby Covered With Sores and Sealed—Could Not Tell What She Looked Like—Marvelous Cure by Cuticura.

"At four months old my baby's face and body were so covered with sores and large scabs you could not tell what she looked like. No child ever had a worse case. Her face was being eaten away, and even her finger nails fell off. It itched so she could not sleep, and for many weary nights we could get no rest. At last we got Cuticura Soap and Ointment. The sores began to heal at once, and she could sleep at night, and in one month she had not one sore on her face or body.—Mrs. Mary Sanders, 709 Spring St., Camden, N. J."
