The Tampa Tribune says: The nerve of Lawyer Brady is beyond successful imitation; that he is now actually trying to make the public believe that the DeSoto County Grand Jury's report was a vindication of Cooper.

And now some are so unkind as to suggest that Hon. W. S. Jennings would make an ideal successor to Mr. Sparkman in the House. Their suggestion, however, will cause the Tampa man to lose very little sleep.—Palatka Times-Herald.

No statesman did it. The Tallahassee Democrat in referring to Governor Broward's public abuse of the State press says, "it was quite an undignified thing for a high statesman to do." No "high statesman" did such a thing.—Jasper News.

The Loomis family have spent so many winters in Tallahassee that Tallahasseeans have come to regard them as belonging to our fair city, and their return is always hailed with delight by their many friends here.

Wednesday was salesday at Duval's Cash Store. Always a popular place at which to trade, it was doubly so on this day. From the hour of opening until close of day the store was crowded and the force were all kept busy as could be. Quite a variety of laces, embroidery and white dress goods were displayed at very low figures.

If the Times-Union and the United States Court have not succeeded in convincing Governor Broward of his mistake in undertaking the unnecessary and very expensive work of draining the Everglades, they have at least convinced a large majority of the people of Florida of the futility of that Quixotic enterprise.—Punta Gorda Herald.

The Tampa Tribune reminds the voters of Florida when they begin casting about for a suitable man for gubernatorial honors not to forget that Hon. Robert W. Davis is a citizen of Tampa and would honor and dignify the executive chair.

The Tampa Tribune last week said: "Up to date, Gov. Broward has not seen fit to apologize to the newspapers of the State for the aspersions cast upon them in his recent Jacksonville speech. It takes a brave man to acknowledge an error, and the Tribune ventures the assertion that Napoleon Broward will realize this fact before the next campaign is over."

Capital City Bank Statement

In another column of this issue will be found the official statement of the Capital City Bank of this city, which shows the condition of that institution at the close of business March 17, 1906. From a small institution, started in this city comparatively a few years ago, under the management of Mr. George W. Saxon to whose business qualifications and persistent business attention, it has grown to be one of the foremost banking institutions in the State, and The True Democrat congratulates its officers, patrons and Tallahasseeans generally on its success. Fact is, Tallahassee can well feel proud of all three of its banking institutions, for nothing speaks out more for a community than having such, with such men at the head of them as has our banks at the present time. See the statement for the figures; they speak for themselves.

It is a poor citizen in any community who cannot rejoice in seeing any kind of business enterprise succeed. What brings financial success to our city helps every blessed one of us to some extent, whether the successful man is our friend or foe. For ourselves, we wish for all to live long and prosper, if the gain is right and just.

It is time to think of laying in your supply of Spring and Summer's furnishings, and if you will step into Wight & Burns you can't resist the desire to do so, for they have the most complete and attractive line ever brought to the city.

A new form of graft developed in the criminal court yesterday in the trial of Policeman Clark of Port Tampa City on a charge of gambling. It appeared that, in the interesting "little game" which was rudely interrupted by Deputy Sheriff Murrell, assisted by an empty beer keg, Clark, who was needed elsewhere just at the time to assist his superior officer in quelling an incipient riot of drunken sailors, was calmly "holding a hand," and it further appeared that this officer of the law had a "cinch," as all the "chips" which he could use were given to him by the proprietor of the "joint," as a sort of consideration for his failure to "pull" the house. Judge Gordon very quietly but effectively recorded judicial disapproval of this sort of "police duty" by sending Clark to jail for three months.—Tampa Tribune.

Get your hat, your tie, your clothing, your shoes, or whatever you may need that is seasonable from Wight & Burns. They now have on display their new Spring Stock. Its neat, its clean, its well selected, its seasonable and cheap. See them.

The Tallahassee True Democrat is contemplating starting a daily edition. If the daily should be established and is as good as the weekly, Tallahassee can boast of a sprightly publication.—Tampa Tribune.
